INITIATION OF RESTRAINTS FOR MEDICAL NECESSITY-- NURSING NOTE

Detainee placed in (b)(2) Reason for Restraint: Medical Necessity

Detainee was advised by the Medical Staff that hunger striking is detrimental to his health.

His behavior is due to his refusal to eat and not due to mental status change or illness.

Medical Staff/Guards attempted to get the detainee to eat on his own. He is being offered

food at every meal, yet he refuses to eat. Because the

detainee refuses to eat, restraints were initiated for medical necessity for feeding.

Detainee will be observed continually and he will be reminded of how his behavior must

change (he must eat voluntarily) to avoid the use of medical restraints for present

and future feedings. Detainee was told that he will remain in medical

restraints until feed and post feed observation (60-120 minutes).

GITMO Nurse

PROCEDURE NOTE: INSERTION OF FEEDING TUBE

Indication: Malnutrition; hunger strike

Under local anesthesia (viscous lidocaine, 2%), a 10 F / 12 F enteral feeding tube was

inserted in the R / L nostril using standard procedure. A stylet was / was not used.

Patient tolerated the procedure well. Placement in stomach was confirmed by

insufflation and test dose of water. Successful procedure with no complications.

GITMO Dr. / Nurse

(b)(3):10 USC
§130b,(b)(6)

4/12/04

DISCONTINUATION OF RESTRAINTS NOTE AFTER FEEDING

Reason for Restraint was for medical necessity for feeding. Detainee has received his feeding

and was released from restraints and returned to his cell in good condition. Detainee was

released from restraints at 1600. Detainee had / did not have physical injury from the restraint

episode. Detainee reported the following problems related to the restraint episode.
