			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is no evidence that medications or a medical process is causing this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be

2/10/06	1445	INITIATION OF RESTRAINTS FOR MEDICAL NECESSITY - NURSING NOTE	
		Detainee placed in (b)(2)	Reason for Restraint: Medical Necessity
		Detainee was advised by the Medical Staff that hunger striking is detrimental to his health.	
		His behavior is due to his refusal to eat and not due to mental status change or illness.	
		Medical Staff/Guards attempted to get the detainee to eat on his own. He is being offered	
		food at every meal, yet he refuses to eat. Because the	
		detainee refuses to eat, restraints were initiated for medical necessity for feeding.	
		Detainee will be observed continually and he will be reminded of how his behavior must	
		change (he must eat voluntarily) to avoid the use of medical restraints for present	
		and future feedings. Detainee was told that he will remain in medical	
		restraints until feed and post feed observation (60-120 minutes).	
		GITMO Nurse	(b)(3):10 USC §130b,(b)(6)
2/10/06	1445	PROCEDURE NOTE: INSERTION OF FEEDING TUBE	
		Indication: Malnutrition; hunger strike	
		Under local anesthesia (viscous lidocaine, 2%), a 10 F / 12 F enteral feeding tube was	
		inserted in the R / L nostril using standard procedure. A stylet was / was not used.	
		Patient tolerated the procedure well. Placement in stomach was confirmed by	
		insufflation and test dose of water. Successful procedure without complications.	
		GITMO Dr. / Nurse	(b)(3):10 USC §130b,(b)(6)
2/10/06	1640	DISCONTINUATION OF RESTRAINTS NOTE AFTER FEEDING COMPLETE	
		Reason for Restraint was for medical necessity for feeding. Detainee has received his feeding	
		and was released from restraints and returned to his cell in good condition. Detainee was	
		released from restraints at 1640 Detainee had / did not have physical injury from the restraint	
		episode. Detainee reported the following problems related to the restraint episode.
