In the name of Allah, the most gracious, the most merciful.

Allah says: (QUR'AN)

And may prayers and peace be upon who has said, "The real dark is the darkness of the Day of Judgment"

My name is: ALI ABDULLAH AHMED NASIR AL SALMI-my age is 27 years old -married- my country is Yemen and I memorized the QUR'AN, praise and gratitude goes to Allah.

I don't know how I start my story, however I know how I could end it and the fate is under Allah's hands alone; my story is story of an oppressed, compounded oppression under the hands of what is called, the United States of America. This state dealt us unjust before my detention and after it aided repressive political regimes in the Muslims countries and named them, 'strategic partners.' they have erected these regimes over our skeletons and they have irrigated with our blood the thorns of repression and tyranny in those countries and all of that was for the purpose of attaining excessive economic gains, as acquiring oil and the like. The oil for them is more precious than our blood and they always have other aspirations never less in cruelty than the previously mentioned: as the endeavor to stabilize 'the alliance's governments' like Israel and the regime of Saddam Hussein previously, when it were reigning for long years and people like me and I pay the price.

The unjust is still going on and is expanding even after they have put me in prison for long years; they have used the errfing units and the burning gases on us, they desecrated our religion, our bodies and private parts and {word illegible} and all of this is know to the world and no use of further explanation.

We have rejected unjust, they have added more and repressed me, and I have went on hunger strike secretly so as not to be harmed by them- woe all the woe on those who object here, so I have went on hunger strike in a peaceful way, I have went on this for almost six months and just gave it up a few days back, I have given it up to safeguard myself against the American's oppression and I mean final relinquishment without return, God willing.

I have remained repressed inside a very cold metal box: they call it 'a solitary cell' I have came out of this box which is severely {word illegible} and the oppression of the soldiers and my intention was to put an end to

these ordeals, I'm not desperate and I swear to Allah not afraid, rather to the contrary, I know for sure, that my whole intention and the very harsh oppression under the hands of the people of evil, those who always wears the forged masks.

He's Uncle Sam {with his white beard and the blood running down his canine tooth} I see him become thin and sicker and on top of this his {illegible word} are still strong for he has managed to haul up my body with the rope of his oppression, which encircled my neck. My words have stopped and nothing left but some muttering, my eyes became white and I could hardly breath.

However, I made clear with my intermittent voice, delivering an expressive message.

My eyes popped out and I saw the truth

In the name of Allah, the most gracious, the most merciful.  
Praise be to the cherisher and sustainer of the two worlds and may the prayers be upon his honest apostle.

To my dear wife, to whom has demonstrated the highest quality of patience and sincerity, to you my life's companion, to whom has assisted me on this road, I dedicate to you Salaam, if were to be sent to the skies, it would have become a gleaming moon and if descended on earth, it would have wrap it in silk and if mixed with the sea water, it would have turned the salty and not fresh water into sweet and fresh water.

I hope of the exalted patron that this paper reaches you, find you both healthy and energetic...blessed by the grace night and day and endeavoring to obtain His pleasure while picking from the gardens of obedience and worship, He's over all this omnipotent.

My precious wife, how much I have hoped of the lofty benefactor to reunite us in this world so as to continue the life's journey as we have started it together, but my solace is found in the fact that our gathering was over obedience and for the sake of Allah, and our separation was for the sake of Allah and my departure of this life is also for the sake of Allah.

My chaste wife, I swear by Allah, if it weren't because of shyness and reproof, I would have written you what myself and exposed what my heart, have for you, for you are my life's companion and the depository of my secret and my life's supporter, however, it's sufficient the necklace already surrounds and the wrist and if I were to write more and to use up pens, I would not be able to finish little of what the heart has for you.

My advise to you, is patience and more patience, if you received the news of my murder or martyrdom, as I consider it as sacrifice for the sake of Allah and draw closer with it to Allah, glory and mighty be to Him, rather, with it I would lift my head high as mountain's tops and the elevation of the sky and serves Allah's religion and so he would be pleased and accept from me and don't assume O my wife that I have not become afraid or despaired, and what has made me endured all the past five years is able to make me endure more, however, it's time to serve Allah's religion and I'm, during my detention is living moments that lifts the spirit in the realm of believe and faith in Allah and makes one taste the sweetness of faith and obedience, and for this, I'm both, patient and sacrificing in Allah's self. My beloved wife, may Allah reward you handsomely good for your patience for long years or many epochs and in spite of this, you were patient and sacrificing in anticipation of (reward) and may Allah reward you for being both sincere and loyal wife. And in this letter I provide every apology for you and request your pardon if I had done or said anything that caused you any disturbance or resulted in turbidity of your peace of mind and I would add, if I have committed against you a wrongdoing in the past and acted in abhorrently, I have repented from what I did and your forgiveness accommodates the insulter, if he came back asking forgiveness. At the end:  
Say to a wife that has heart is afflicted, be patient, for tolerant is righteous Sa, the arrows of treachery has surrounded him and became a martyr for the sake of his patron. My wife, be generous in prayer, for a responsive Lord is oft lofty in his mighty. My wife, be generous, for my creator have promised the beseecher to answer his prayer. My dear wife, you are reminded by the wives of the all the companions, how they have sacrificed and strived in loyalty to their husbands and done good deeds for Allah. I ask of Allah to reunite us with you in heaven and I dedicate to you these verses. Peace of Allah upon you, every time my longing increases. Peace upon you, every time I would tear, and every time the eyes become dry. And if we became far away and our getting together became difficult, And the barriers became between us and the oppressors squeezed hard my chains, Our hearts embrace one another, an embrace of those who were familiar after separation and behind the barriers, we hope for a meeting, so we would renew our sweetly tasting ties. With dream that would take us round and round as the phantom disappears without trace. And would remember you, when the pigeons wail and when darkness falls on the waterwheel. And when the breeze blows in the morning to moist the burning of my love.

In the name of Allah, the most gracious, the most merciful.

Praise be to Allah who guided, favored and given and blessed, been generous and then, may prayer and peace be upon the messenger as mercy to the worlds.

To Mohammed's nation, to the entire Muslim world, to who has accepted Allah as lord and Islam as religion and Mohammed as an apostle and prophet, to whoever has known the meaning of 'no deity but Allah' and did according to; peace, Allah's mercy and blessings be upon you,

From where I shall begin as the letters are not complying and I have nothing to do, only the memories are what left fro me.

At the beginning, I send you my all love and brotherhood, sincerity and locality

I have never one day been alienating and neglecting you.

Or denying your favors, but it's only Allah's religion and the work and sacrifice for its sake.

But, it's Allah's love and desire to look at his honorable face and but, it's love to irrigate the Islam's tree and to bring about glory to it and it's love for the sons of Islam and the new generation, so as they would live with dignity and honor on top of the mountains and it's also an answer to Allah's call and to catch up with the prophet's and companions flock.

Considering the condition of our nation, I found all repression, oppression and every possible meaning of slavery and tyranny, but, I have witnessed glory and got of its well and drank from it's spring by implementing Allah's and the apostle's command.

O my loved ones don't ever think I'm afraid of what had happened to me or I have been afflicted with desperation, and may God forbids.

Praise be to Allah and gratitude for five years of captivity, demeaning and slavery and sorts of torture under the hands of those who cares none for you and are disbelievers, however, it passed by Allah's grace and praise be

to him for being well and for being surrounded by Allah's blessing and we have tasted the sweetness of faith and Allah had relieved us a lot.

What I have done is only one of the basics of the religious duties that make one become close and proud when finally meets with Allah, for he's the only prescient.

---

And knows what I have intended when I decided to carry out this, so, came these lines which I have put between your hands, perhaps, it revives the hearts of those who knows and to awaken the endeavoring and victorious. So, in captivity, we were tireless and our determination never decreased over our duty towards Allah's religion. So, be cautious, the Muslim's nation and our virtuous scholars and Allah, Allah, to every person who has a sense of honor towards Allah's sanctities which has been desecrated.

And Allah, Allah, to every one whoever responded to the exclamations of the chaste and pure (women) and, Allah, Allah to those who saw what has happened to our kind mothers, when they scream in real need and call and I send it to every heart and it's for rendering victorious Allah's religion and everyone as he/she capable of and Allah I ask of to render us glorious with Islam and render Islam glorious with us and to use us to victor his righteous religion and to bestow on me both truthfulness and blessing on what I say or does, and over all this he's omnipotent.

May peace, Allah's mercy and blessing be upon you.
