			<b>INITIATION OF RESTRAINTS -- MEDICAL OF</b>		
			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is no evidence that medications or a medical process is causing this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be required (b)(3):10 USC §130b,(b)(6)

			<b>RESTRAINTS -- MEDICAL OFFICER NOTE</b>		
			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is no evidence that medications or a medical process is causing this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be required.
