Title: **Female (on male hormones)\* and Male (on Female hormones)\***

Report population: Female and Male Guard and Reservist

Data Source: PDS

Date Range: 1/1/2020 - 6/30/2020

Report ran on: 7/22/2020

Report processed by: phardy

\*This is not an accurate representation of Guard and Reservist who are transitioning due to other possible uses of

**Data Source:**

**Pharmacy Data Transaction Service - Prescription Data**

**Report Description:**

This report includes tabs that display the number of prescriptions filled for Guard and Reservist Females who were dispensed male hormones and Guard and Reservist Males who were dispensed Female hormones.

This report highlights member of four categories each identified by Member Cat Code:

G: National Guard (mobilized or on active duty for 31 days or more)

S: Reserve (mobilized or on active duty for 31 days or more)

N: National Guard (not on active duty or on active duty for 30 days or less)

V: Reserve (not on active duty or on active duty for 30 days or less)

Categories N and V, Guard and Reserve on active duty for 30 days or less, represent Tricare Reserve Select.

All reports include prescriptions dispensed through Points of Service MTF, Retail, and Mail Order. As indicated, tabs also include prescriptions identified in VA and Theater claims.

Male Hormones are identified as those listed on the tab "Male Hormone Drug Listing", and Female Hormones

the identified hormones.
