2. **APPLICABILITY AND SCOPE**

This Instruction:

2.1. Applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter collectively referred to as the “DoD Components”). The terms “Military Services,” “military personnel,” “Service members,” and “military members,” as used herein, refer to the Army, Marine Corps, Navy, Air Force, Space Force, and the Coast Guard when operating as a Service within the Department of the Navy.

2.2. Encompasses reporting, notification, and assistance procedures to the NOK of deceased, duty status - whereabouts unknown (DUSTWUN), excused absence – whereabouts unknown (EAWUN), missing, ill, or injured personnel.

2.3. Establishes uniform procedures for reporting, recording, notifying, and assisting the NOK of DoD civilian personnel, eligible contractors, and other designated or covered personnel. (Enclosure 6.)

2.4. Establishes Record of Emergency Data (RED) or DD Form 93 preparation, maintenance, and minimum audit requirements. (Enclosure 7.)

2.5. Specific information on casualties incurred by personnel supporting classified assignments may be exempt from this policy and will not be immediately reported in the Defense Casualty Information Processing System (DCIPS). In this event, information will be declassified as rapidly as possible and reported in DCIPS to ensure accurate reporting and accounting of all personnel without putting sensitive operations at risk.

3. **DEFINITIONS.** Terms used in this Instruction are defined in Enclosure 2 or the DoD Dictionary of Military and Associated Terms (Reference (g)).
4. **POLICY**

It is DoD policy that:

4.1. Casualty procedures will be uniform across the Military Departments except to the extent necessary to reflect the traditional practices or customs of a particular Military Department.

4.2. When a casualty occurs, the Component concerned will promptly notify the primary NOK (PNOK) in a dignified, professional, and understanding manner. Additionally, in those cases in which the individual is declared deceased, DUSTWUN, EAWUN, or missing, the appropriate DoD Component will appoint a casualty assistance officer to advise and assist the PNOK. Assistance officers will also be assigned to the parents of married Service members, who are considered the secondary NOK, of deceased, DUSTWUN, or missing military personnel when applicable. Each Military Service has its own title for casualty assistance officers: Army – Casualty Assistance Officer (CAO); Marine Corps and Navy – Casualty Assistance Calls Officer, and Air Force – Casualty Assistance Representative, Family Assistance Representative, and Mortuary Officer. For purposes of this Instruction, the term casualty assistance officer will be used.

4.2.1. In the case of serious illness or injury of a Service member or civilian employee in a combat zone, consistent with the expressed desires of the member, the NOK will be notified as expeditiously as possible regarding the illness or injury, including information on the condition and location at which the member is receiving treatment.

4.2.2. The NOK will be provided regular updates on the member’s or civilian employee’s location and condition until considered no longer necessary.

4.3. DoD Components will record and report, to the extent possible, a full and accurate accounting of deceased or missing personnel and all reportable ill or injured personnel.

4.4. No casualty information on deceased military or DoD civilian employee may be released to the media or the general public until 24 hours after notifying the NOK regarding the casualty status of the member consistent with Reference (c). The 24-hour clock will start over each time the NOK are notified of a change in casualty status. Casualty information on ill or injured Service members or DoD civilian employees may not be released without the consent of the individual, unless section 552a of title 5, United States Code (U.S.C.), “The Privacy Act of 1974” (Reference (h)), otherwise authorizes release. EXCEPTION: PNOK approval of media coverage of the dignified transfer at Dover Air Force Base waives the DoD policy on the 24-hour delay in release of casualty information to the media and/or general public for that specific case.

4.4.1. In the event of a multiple loss incident, the start time for the 24-hour period will commence upon the notification of the last family member. Coordination between the Services is required for single incident, multi-Service losses.
4.4.2. In cases of Service members or DoD civilian employees who have been unaccounted for from past conflicts, public release will not occur until 24 hours after the family has been notified of the identification of their deceased member or employee.

4.4.3. In cases where Service members or DoD civilian employees have been reported DUSTWUN, EAWUN, or missing under potentially hostile situations, casualty information will not be released to the media or the general public until 72 hours after the NOK has been notified or the combatant commander clears the information for release. NOK will be requested not to make the status of their loved one public until notified by their assistance officer. This delay is requested to allow the combatant commander the opportunity to ensure that operational security will not be compromised because of a premature release of the casualty information that could negatively influence the chances of a successful recovery.

4.4.4. Casualty information on DoD civilian employees will only be released to the media or the general public after notification of the NOK. Casualty information on DoD contractor employees will only be released to the media or the general public by the NOK or by their employer.

4.5. The PNOK, or the adult parent or guardian when the PNOK is a minor, and the parents of the deceased Service member, who are considered secondary NOK, will be kept informed on matters relating to DoD death investigations. At a minimum, they will be provided general information about the death investigation(s) to be conducted that is sufficient to assist them in understanding the comprehensive nature of the investigation(s), and the likely period of time that may be necessary to complete the investigation(s). Additionally, they will be informed whether or not all or part of the completed investigation(s) will be releasable, if such releasability can be ascertained. Once the death investigation(s) are complete, the PNOK, or the adult parent or guardian, and the parents will be informed of releasable investigative results prior to any public release. Upon request, the Service concerned will provide a fully qualified representative to answer any questions about the investigation report(s) from the PNOK, or the adult parent or guardian of minor PNOK, and the parents of the Service member as appropriate, either in person or through telephonic communication. This policy also applies to the PNOK, or adult parent or guardian when the PNOK is a minor, of DoD civilian employee casualties.

The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) pursuant to Reference (ab), will meet periodically with representative groups of survivors of deceased Service members to discuss DoD policies regarding the casualty and mortuary affairs programs in accordance with the Federal Advisory Committee Act in the Appendix of Reference (h), as applicable.

Government agencies use the completed DD Form 1300 as the basis for paying benefits, collecting casualty data, and closing out personnel files. A copy of this form may be provided to persons, organizations, or agencies not connected with the Government for settling claims that require proof of death. Information on a completed DD Form 1300 for a deceased person that pertains to living persons, and those completed DD Form 1300s for missing persons, are protected pursuant to section 552(a) of Reference (h). Instructions for completing the DD Form 1300 are found at Enclosure 4. Examples of completed DD Form 1300s are at Enclosure 5.

6.1.2.1.2. Each Military Service or DoD Component, at its option, may use the DD Form 1300 to record the deaths or missing status of other military members, DoD civilian employees, military dependents, defense contractors, and dependents of DoD civilian employees under its purview.

6.1.2.2. Department of Defense Worldwide Casualty System (DCAS). DoDHRA’s DMDC maintains the DCAS containing personal and casualty specific data on all active duty military deaths for the Korean War, Vietnam Conflict, and worldwide casualties since fiscal year 1980. The system is used to meet the responsibilities defined in paragraph 5.2.5. Input to the DCAS system is made available through DCIPS, which provides key information on each casualty. File input formats and code specification requirements will be maintained by DoDHRA’s DMDC and changes will periodically be presented to the DCIPS CCB for approval.
and incorporation within DCIPS. The baseline standards for DCAS will come from either approved data entities in the Defense Data Dictionary System, data entities from an approved DoD-wide system, or from other coding specifically unique to casualty processing. Standards will be tailored to meet specific requirements of DCAS. For example, the inclusion of countries no longer in existence with start/stop dates is required in DCAS for historical purposes but is not part of a DoD standard.

6.1.2.3. Post-Conflict Documentation Requirements and Processing Summary. After consultation with the Joint Staff, the Military Services, and others as applicable, DoDHRA will provide Service casualty offices:

6.1.2.3.1. Pertinent details of new war/conflict or operation/incident reporting procedures upon startup;

6.1.2.3.2. Stop date indicating when a war/conflict or operation/incident ends;

6.1.2.3.3. Date after which only case-by-case exceptions will be made to war/conflict or operation/incident casualty reports;

6.1.2.3.4. Any military operation/incident that involves combat must account for personnel falling within the following categories:

6.1.2.3.4.1. Died/wounded in a defined combat zone (e.g., contingency area);

6.1.2.3.4.2. Died from wounds sustained in a defined combat zone;

6.1.2.3.4.3. Died/wounded while on a combat/combat support mission to/from a defined combat zone;

6.1.2.3.4.4. Died from physical injuries, other than wounds, occurring in a defined combat zone, provided that death occurred within 120 days of the incident;

6.1.2.3.4.5. Died from a diagnosed illness while in a defined combat zone or outside the combat zone provided that death occurred within 120 days of the diagnosis;

6.1.2.3.4.6. Died/wounded in the aftermath of a combat/combat support mission incident.

6.1.2.3.5. For Vietnam Conflict reporting purposes only, any death/wounding in South Vietnam between November 1, 1955, and December 31, 1960, will be reported as though a combat zone had been designated for that period;

6.1.2.3.6. If a Military Service becomes aware of a case that might qualify after exception processing begins, it will review the case against the established criteria. If the Service determines that the case does not meet the criteria, the Service will inform the requestor of their decision with an appropriate explanation. If the Service determines a criterion was met,
it will process the action in the normal manner. In addition, the Service will prepare supporting
documentation for DoDHRA as described in paragraphs 6.1.2.3.6.1. through 6.1.2.3.6.5.
DoDHRA will perform, and/or facilitate, a second-level DoD review, ensuring that the
documentation supports an update to the DCAS, the primary source for DoD reporting of
Military Service casualties incurred during military operations. DoDHRA will notify the Service
that the action has been accepted for processing or is deficient in some manner. Any deficiency
will be explained to the Service. The Service will not notify the requestor of any action until the
DoD review has been completed. The Service concerned will provide DoDHRA the following
documentation when the Service determination is to process a case:

6.1.2.3.6.1. Letter signed by the Service Casualty Advisory Board
representative explaining the rationale for its determination;

6.1.2.3.6.2. Supporting documentation leading to the explanation;

6.1.2.3.6.3. Death certificate; and

6.1.2.3.6.4. DD Form 1300;

6.1.2.3.6.5. If wounding, injury, or illness was the basis for consideration, the
Service will provide a signed opinion letter from a medical authority establishing the relationship
between the initial event in a defined combat zone and the cause of death. Additionally, a signed
endorsement letter of the opinion from the Office of the Surgeon General for the Service is
required.

6.1.2.3.7. DoDHRA will provide information about changes to its database to
appropriate sources such as the Department of the Interior and groups responsible for memorials.

6.1.3. Casualty Notification

6.1.3.1. Initial Notification. During the initial notification, or as soon as practicable
thereafter, the PNOK will be provided all known circumstances surrounding the casualty
incident and, when applicable, information regarding media access for the dignified transfer of
remains at Dover Air Force Base.

6.1.3.1.1. Military Decedent. At a minimum, the spouse, children not residing
with the spouse, parents, the person authorized to direct disposition of human remains (PADD),
or other beneficiaries receiving survivor benefits or entitlements will be notified unless
paragraph 6.1.3.1.6. applies.

6.1.3.1.2. DoD Civilian Employee Decedent (includes Departments of the Army,
Navy, and Air Force). When a reportable DoD civilian casualty occurs, the respective Military
Service or DoD Component will make personal notification to the emergency point of contact
reflected on the DD Form 93 or the electronic civil service equivalent of the DD Form 93 unless
paragraph 6.1.3.1.6. applies. Thereafter, the Military Service or DoD Component will facilitate
the follow-on assistance with the appropriate civilian personnel or human resources office for survivor benefits or entitlements.

6.1.3.1.3. **DoD Contractor Decedents.** When a reportable DoD contractor casualty occurs, the respective Military Service or DoD Component will notify the appropriate contracting agency who will be responsible for notifying the contractor’s NOK.

6.1.3.1.4. **Notification Team.** Notification(s) will be conducted by a minimum of a two-person uniformed detail and, when possible, one member will be a chaplain. Chaplain assistance from another branch of Military Service is allowed. Care-team members, Family Readiness Group members, or other support group members will not be part of the initial notification visit. Such members are considered part of the general public and will not be provided access to casualty information according to paragraph 4.4. Following the initial notification, upon request from the person who receives the initial notification, a friend, relative or a person from a Family Readiness Group or Care Team or other support group may be called by the notification team to provide immediate support services.

6.1.3.1.5. **Times of Notification.** Personal notifications will be accomplished within 12 hours of the Military Service headquarters receipt of the casualty report unless circumstances beyond the Service’s control prevent such notifications. Hours of notification are local times 0500 – 2400, except under unusual circumstances as authorized in applicable Service regulations. The intent is to notify the NOK at a time and location that is most considerate of the family environment (e.g., while at home, not while on the job) while considering the necessity for timely notification.

6.1.3.1.6. **Desires of the Member.** The desires of the member, expressed in the RED or expressed by the member at the time of the casualty, concerning whom not to notify will be honored unless, in the judgment of the member's commander or Service Component for civilian personnel, official notification by the Military Service should be made.

6.1.3.1.7. **DUSTWUN, EAWUN, Missing, and Deceased Cases.** Within the guidance of subparagraph 6.1.3.1.5., initial notification(s) will be made in person to the PNOK and to the parents, who are the secondary NOK, unless unusual circumstances prevent such procedures, as expeditiously as possible. Notification to secondary NOK is not applicable to civilian personnel. All facts and circumstances on the casualty incident, known at the time of the initial notification, will be provided to the PNOK. Whenever someone other than the member's commander or designated Service representative makes initial notification, an official notification confirmation to the PNOK and secondary NOK will be made. For deceased casualties, the casualty representative should advise the PNOK to defer making any decisions until briefed on entitlements and benefits. The purpose of this contact is to establish a time to meet with the PNOK that considers the needs of the family and honors the family's period of mourning.

6.1.3.1.8. **Illness or Injury Cases.** Within the guidance of paragraph 6.1.3.1.5., in cases involving SI or VSI casualties, initial notification(s) to the PNOK by a representative of the DoD Component concerned will be conducted by telephone. If telephonic notification is not
possible, initial notifications will be in person. Whenever a casualty occurs as the result of a hostile action or terrorist activity and the casualty is classified as "not seriously injured" (NSI), official notification to the PNOK by the DoD Component concerned will be made upon the member’s request. The member will be encouraged to notify their PNOK.

6.1.3.2. Follow-on Notification

6.1.3.2.1. DUSTWUN, EAWUN, or Missing Cases. In all cases involving DUSTWUN, EAWUN, or missing casualties, the PNOK will be kept informed until actual status or fate is determined.

6.1.3.2.2. Illness or Injury Cases. For SI or VSI casualties, the DoD Component concerned will keep the PNOK informed of the member's or DoD civilian employee’s (if being treated at a military medical treatment facility) medical progress within the guidance of paragraph 6.1.3.1. in accordance with Reference (i).

6.1.3.3. Other Concerned Individuals

6.1.3.3.1. Beneficiaries. All persons reflected in the Service member’s records as a beneficiary or recipient of death benefits or Federal program insurance proceeds will be notified in accordance with individual Service directives.

6.1.3.3.2. Non-family Members. There may be interested persons other than the primary or secondary NOK who may be affected or show considerable interest in a casualty (e.g., other members of the unit, close personal friends, boyfriends, girlfriends, and fiancés). While it is not possible, because of the Privacy Act of 1974 (Reference (h)), to provide these individuals with the complete details of the loss or allow access to personal effects, common sense and sensitivity should be used with regard for their feelings and concerns.

6.1.4. Casualty Assistance

6.1.4.1. DUSTWUN, EAWUN, Missing, or Deceased Cases. In all cases involving DUSTWUN, EAWUN, missing, or deceased casualties, the DoD Component concerned will appoint a casualty assistance officer who will initiate contact with the PNOK within 24 hours following initial notification. Within the guidelines established by each DoD Component, the casualty assistance officer may be the notification officer. The casualty assistance officer, to the extent the PNOK desires, will provide guidance and assistance for such matters as pay, allowances and benefits, veteran benefits, social security benefits, and income tax refunds or exclusions whenever section 692 of title 26, U.S.C. (Reference (o)) applies to the particular case. Assistance to civilian personnel will be coordinated through the designated civilian personnel office or civilian benefits center. The casualty assistance officer will provide points of contact or information regarding autopsy reports, all known reports of inquiry or investigations, as applicable, and other governmental or non-DoD agencies that may be involved in a particular case. The casualty assistance officer will maintain contact with the PNOK to keep them informed until all matters relating to the case have been answered and all entitlements and benefits are received. The member’s commander should provide an appropriate letter of
sympathy or condolence to the PNOK, spouse or parents as appropriate, not later than 5 days after the initial notification, unless circumstances dictate otherwise. If the PNOK is a minor, the letter should be addressed to the minor in care of the guardian or legal representative.

6.1.4.2. **Illness or Injury Cases.** In those military VSI or SI cases in which a competent medical authority requests the presence of NOK at bedside, the casualty office of the Military Service concerned will be the final approval authority and will assist in arranging appropriate Government-funded invitational travel in accordance with paragraph 030501 of The Joint Federal Travel Regulations (Reference (p)). In those civilian cases when an employee on temporary duty travel becomes ill or injured, transportation expenses, but not per diem, are allowed for an attendant or escort provided the attending physician certifies that it is medically necessary for the employee to be accompanied by an attendant or escort in accordance with paragraph 033002 of The Joint Travel Regulations (Reference (p)).

6.1.4.2.1. When the Service issues Invitational Travel Authorizations, more commonly known as Invitational Travel Orders, for family members to travel to be at the bedside of an ill or injured Service member, the appropriate Service will offer the family arrival assistance.

6.1.4.2.2. Upon request from the family, the Service will ensure that the family is met at their point of arrival (e.g., airport, train, or bus station) in the geographical area where the member is hospitalized, and escorted or provided directions to the hospital or military treatment facility. Additional assistance may be provided in securing lodging at or near the hospital or military treatment facility.

6.1.4.3. **Release of Information to the PNOK and Parents.** In all casualty cases, the PNOK and parents will be provided information on the circumstances surrounding the incident as best known to the DoD Component concerned. In the event a casualty occurs during a classified operation, all information of an unclassified nature will be provided. Every effort will be made to declassify information. If the PNOK is a minor, all information will be provided to the guardian or legal representative.

6.2. **DUSTWUN or EAWUN Designation**

6.2.1. In those circumstances when the reason for a member’s absence is uncertain and it is possible that the member is a casualty whose absence is involuntary, but there is not sufficient evidence to determine immediately that the member is missing or deceased, the member should be designated DUSTWUN or EAWUN. This procedure is particularly useful when hostilities prevent the immediate determination of a member’s actual status, or when search and rescue efforts are ongoing.

6.2.2. The commander’s preliminary assessment of a member’s actual status, required by Reference (m) should, whenever practicable, be made within 10 days. That is usually sufficient time to conduct an investigation, or conduct search and rescue efforts, to ascertain a member’s actual status. The recovery of remains is not a prerequisite to determining or declaring a casualty deceased.
6.2.2.1. If it is determined that a member is not absent involuntarily, but rather is absent voluntarily, the commander should designate the member as having been absent-without-leave/unauthorized absence (AWOL/UA) during the time period in which the Service member was previously listed as DUSTWUN or EAWUN.

6.2.2.2. If it is determined that a member has died, the commander should designate or recommend the member as having been in a missing status during the DUSTWUN or EAWUN period according to individual Service regulations, ending on the date the commander received evidence of the member’s death or made a presumptive finding of death based on information obtained during the preliminary investigation. If it is determined that a member has died while voluntarily absent, however, the commander should designate the member as having been AWOL/UA, ending on the date of the member’s death.

6.2.2.3. If it is determined that a member is involuntarily absent not as a result of hostile action, the commander should designate or recommend the member as having been in a missing status during the DUSTWUN or EAWUN period according to individual Service regulations.

6.2.2.4. If it is determined that a member is absent as a result of hostile action, and that Reference (m) applies, the commander may only recommend a missing status and the Secretary concerned or their designee must make the determination of actual status.

6.2.3. A member’s pay and allowances entitlements during a DUSTWUN designation period are determined in accordance with the applicable provisions of title 37, U.S.C. (Reference (q)) and are dependent upon the member’s actual status during that period.

6.2.4. A civilian member’s pay and allowances entitlements during an EAWUN designation period are determined in accordance with the applicable provisions of Reference (h) and are dependent upon the member’s actual status during that period.

6.3. Application of the Freedom of Information Act (FOIA) and Policy Guidance Concerning Release of Information

6.3.1. FOIA Requests. Under the provisions of the FOIA (section 552 of Reference (h)), any person may request records by writing to the FOIA Office of the DoD Component owning the records. FOIA requests for casualty records should be submitted to the FOIA Office of the respective Military Service or DoD Component. While a FOIA request from the PNOK is not necessary, other requesters, to include immediate family members, must submit a request. Information requested must be released unless it is exempt under one or more of the nine exemptions of the Act. The two exemptions that apply most often to casualty information are the national security exemption and the personal privacy exemption (sections 552(b)(1) and 552(b)(6) of Reference (h)). The DoD FOIA Program, DoD Manual 5400.07 (Reference (r)) provides guidance on the application of the exemptions. The use of the personal privacy exemption may be merited to protect the privacy of living persons in the record or the PNOK and/or family members of the deceased. Use Reference (r) for guidance.
6.3.2. **Releasable Information in DUSTWUN, EAWUN or Missing Cases.** The amount of information releasable to the general public on these members is limited to basic biographical information such as name, date of loss, country of loss, and current status. Exceptions include a legal guardian appointed by a court who has given written consent for release of information to a third party and FOIA requests where disclosure of the records concerned does not constitute a clearly unwarranted invasion of personal privacy.

6.3.3. **Releasable Information in Deceased Cases.** Death of a member does not mean that there are no privacy interests to be considered in deciding whether to release information. Although deceased persons no longer have privacy interests to be protected, some casualty information may be withheld if a determination is made that release of the information would invade the privacy of a living person. This includes personal information on the PNOK or others. It also includes information pertaining to the deceased if disclosure would result in an invasion of the family’s privacy. Examples of items of a personal nature about family members or others that should be protected include residential addresses and telephone numbers, social security numbers, age and date of birth. Examples of items about a deceased person that should be protected are autopsy reports containing detailed descriptions of the procedures and vivid descriptions, photographs, or videotapes of human remains. The PNOK and/or family members may obtain their deceased Service member’s records. Requests for records of deceased civilian employees will be submitted to the appropriate civilian personnel office for appropriate action. However, all requests will be processed in accordance with References (h) and (r) to protect the privacy of other living person(s).

6.4. **DoD CAB**

6.4.1. This Instruction establishes the DoD CAB as a permanent board. The CAB is responsible for developing and recommending broad policy guidance, for proposing goals for the Military Services to ensure uniform policy regarding the care of military members and their families, and to ensure accurate reporting and accounting for the status of military members and applicable civilian personnel. The Board will recommend policy during joint operations to ensure uniform and equitable treatment of all military members and their families and to ensure uniform procedures are used. Mortuary affairs issues are under the purview of the Central Joint Mortuary Affairs Board covered in DoD Directive 1300.22 (Reference (s)).

6.4.2. The CAB will be composed of two members representing each of the Military Services as appointed by the Assistant Secretary, or their designee, of the Military Department responsible for military personnel policy. A copy of the member appointment letters will be forwarded to the Deputy Assistant Secretary of Defense for Military Community and Family Policy DASD(MC&FP) Attn: Casualty Affairs. Depending on individual Service organization, members would include, at a minimum, those who are responsible for casualty reporting, family notification, casualty assistance, and mortuary assistance. The Chairman of the Joint Chiefs of Staff will also designate a member. A member of the DoDHRA, DMDC, will serve as a technical advisor to the board. A member of the ATSD(PA) and the ASD(M&RA) will serve as advisors to the Board. The USD(P&R) will designate a member from that OSD component as the Chairperson of the CAB. The DASD (MC&FP), or that official’s designee, will be a member.
6.4.3. The Board will perform the following functions regarding casualty matters:

6.4.3.1. Recommend policy changes to be coordinated within the Military Services and approved by the USD(P&R).

6.4.3.2. Recommend uniform operational procedures to be coordinated within the Military Services and approved by the Chairman of the Joint Chiefs of Staff.

6.4.3.3. Recommend basic roles and responsibilities to be considered and approved by the Chairman of the Joint Chiefs of Staff for joint operations.

6.4.3.4. Recommend and review policies regarding the release of casualty information and statistics to the media and the general public.

6.4.3.5. Review major disaster and contingency responses to casualty incidents to ensure adequacy of existing policies and procedures.

6.4.3.6. Be the focal point with other Federal Agencies, Veterans Service Organizations, and non-profits to improve the support and assistance to surviving family members.

6.4.3.7. Review requests for inclusion of a Service member’s name on the Vietnam Veterans Memorial or the Korean War Veterans Memorial Wall of Remembrance to determine their eligibility and provide recommendations to the Director, DoDHRA.

6.4.4. The Chairperson of the CAB will:

6.4.4.1. Notify the CAB membership no later than 60-days prior to a scheduled meeting.

6.4.4.2. Designate the Service who hosts the CAB meeting to provide a recorder and prepare CAB minutes in specified format.

6.4.4.3. Prepare CAB minutes within 30 working-days following a meeting and forward a copy such minutes to the Assistant Secretaries of the Military Departments and their designees, the Director of the Joint Staff, ATSD(PA), ASD(M&RA), and other leadership as appropriate.

6.4.4.4. Coordinate any policy change recommendations.

6.4.4.5. Coordinate with the Military Services on all invited guests to the CAB who have expertise or services that may provide additional support to Service members and their families.
6.4.5. CAB meetings will be held tri-annually or as directed by the Chairperson. The respective Military Services will fund travel and per diem expenses associated with board meetings. A quorum exists only if each Military Service has a representative present.

6.5. **Vietnam Veterans Memorial Wall Applications**

6.5.1. All requests to add names to the Vietnam Veterans Memorial Wall will be forwarded to the Director, DoDHRA for recommendation. The Director, DoDHRA will provide recommendations to the DoD CAB, which will provide recommendations to the USD(P&R) for final decision on whether the Service member met the DoD criteria for inclusion on the Vietnam Veterans Memorial Wall. Family members or other interested parties will be advised that the request has been forwarded for decision and an update will be provided when a decision has been made.

6.5.2. Each request will be endorsed with a Service recommendation (a) to add the member’s name on the Wall or (b) that the name not be added because the deceased veteran does not meet the established criteria. In order for a Service member to have their name added to the Wall, one of the following criteria must be satisfied: A Service member must have:

6.5.2.1. Died in Vietnam between November 1, 1955, and December 31, 1960; or

6.5.2.2. Died in the defined combat zone on or after January 1, 1961; or

6.5.2.3. Died as a result of wounds (combat or hostile related) sustained in the combat zone; or

6.5.2.4. Died while participating in, or providing direct support to, a combat mission immediately en route to or returning from a target within the defined combat zone; or

6.5.2.5. Died from physical injuries, other than wounds, occurring in a defined combat zone, provided that death occurred within 120 days from departing the defined combat zone and that death occurred within 120 days of the incident; or

6.5.2.6. Died from a diagnosed illness while in a defined combat zone or outside the combat zone provided that death occurred within 120 days from departing the defined combat zone and that death occurred within 120 days of the diagnosis.

6.5.3. For clarification purposes on the above criteria, there is no requirement that the Service member was killed in action or that the cause of death was combat related.

6.6. **Korean War Veterans Memorial Wall of Remembrance**

6.6.1. For the Korean War reporting purposes only, any death or wounding in the Korean War combat zone between July 28, 1953 to July 27, 1954, will be reported. All casualties that have already been declared as official casualties of the Korean War are eligible for inclusion on the Korean War Veterans Memorial Wall of Remembrance.
6.6.2. All requests to add names to the Korean War Veterans Memorial Wall of Remembrance will be forwarded to the Director, DoDHRA for recommendation. The Director, DoDHRA will provide recommendations to the DoD Casualty Advisory Board, which will provide recommendations to the USD(P&R). USD (P&R) will provide to the Secretary of the Interior a final list of names of members of the U.S. Armed Forces who died in the Korean War as determined by Secretary of Defense, for inclusion on the Korean War Veterans Memorial Wall of Remembrance. Family members or other interested parties will be advised that the request has been forwarded for decision and an update will be provided when a decision has been made.

6.6.3. Each request will be endorsed with a Service recommendation to add the member’s name on the Korean War Veterans Memorial Wall of Remembrance or that the name not be added because the deceased veteran does not meet the established criteria. In order for a Service member to have their name added to the Korean War Veterans Memorial Wall of Remembrance, one of the following criteria must be satisfied. A Service member must have:

6.6.3.1. Died within the territorial limits of Korea, in the waters immediately adjacent thereto or in aerial flight over Korea, participating in actual combat operations or in support of combat operations. Geographical boundaries thus include in addition to the Korean peninsula, the Yellow Sea, Sea of Japan, Korean Straight, and the Korean Bay between June 25, 1950 to July 27, 1953; or

6.6.3.2. Died in the defined combat zone on or after July 28, 1953 to July 27, 1954; or

6.6.3.3. Died as a result of wounds (combat or hostile related) sustained in the combat zone; or

6.6.3.4. Died while participating in, or providing direct support to, a combat mission immediately en route to or returning from a target within the defined combat zone; or

6.6.3.5. Killed or died from wounds resulting from combat or hostile related action by an enemy of the United States within the territorial limits of Korea before June 25, 1950 or after July 27, 1954; or

6.6.3.6. Died from physical injuries, other than wounds, occurring in a defined combat zone, provided that death occurred within 120 days of the incident; or

6.6.3.7. Died from a diagnosed illness while in a defined combat zone or outside the combat zone provided that death occurred within 120 days from departing the defined combat zone and that death occurred within 120 days of the diagnosis.

6.6.4. For clarification purposes on the above criteria, there is no requirement that the Service member was killed in action or that the cause of death was combat related.

E2. ENCLOSURE 2

DEFINITIONS

The definitions used herein apply solely to this Instruction and may vary from definitions established in Reference (g).

E2.1. Active Duty (AD). Full-time duty in the active Military Service of the United States. This includes members of the Reserve Components serving on active duty for full-time training duty, but does not include full-time National Guard duty.

E2.2. Active Service. Service on active duty or full-time National Guard duty.

E2.3. Active Duty for Training (ADT). A tour of AD which is used for training members of the Reserve Components to provide trained units and qualified persons to fill the needs of the Armed Forces in time of war or national emergency and such other times as national security requires. The member is under orders that provide for return to non-active status when the period of active duty for training is completed. This includes annual training, special tours of ADT, school tours, and initial duty for training performed by nonprior service enlistees.

E2.4. Armed Conflict. Conflict between nations or other contestants entailing the physical destruction of, or injury to, one another's Armed Forces. Armed conflict exists when the lives or safety of members of the armed services of a nation, belligerent power, coalition, or faction are endangered as a direct result of the use of physical force.

E2.5. Body Recovered. The remains of a deceased person recovered by and/or returned to U.S. authority.

E2.6. Casualty. Any person who is determined to be deceased; DUSTWUN; EAWUN; missing; or ill or injured and classified as VSI, SI, or NSI in accordance with this instruction.

E2.7. Casualty Assistance. A commitment to provide authorized and necessary assistance to eligible family members of deceased, DUSTWUN, EAWUN, missing, ill, or injured personnel. Assistance may include, but is not limited to: transportation assistance; applying for and receiving benefits and entitlements; obtaining copies of records, reports and investigations; legal assistance; receipt of personal effects; mortuary and funeral honors assistance; relocation assistance, including shipment of household goods; liaison with other Federal agencies; information and referral, including emotional and spiritual support, and other assistance as requested.

E2.8. Casualty Assistance Officer (CAO) or Casualty Assistance Representative (CAR). The title of the person assigned by the Service or DoD Component concerned to provide assistance to the families of ill, injured, DUSTWUN, EAWUN, missing, or deceased members.
E2.9. **Casualty Category.** A term used to specifically classify a casualty for reporting purposes based upon the casualty type and the casualty status.

E2.10. **Casualty Report.** The initial report to the Service headquarters of a member casualty. This report contains background information on the casualty incident and is used for casualty notification to the PNOK. The report forms the basis for the preparation of the “Report of Casualty” or DD Form 1300.

E2.11. **Casualty Status**

   - **E2.11.1.** A term used to classify a casualty for reporting purposes. There are six casualty statuses: (1) deceased; (2) DUSTWUN for military, or EAWUN for civilians; (3) missing; (4) VSI; (5) SI; and (6) NSI.

   - **E2.11.2.** At the DoD Component’s discretion, an additional casualty status of Special Patient (SPECPAT) or Special Category (SPECAT) may be used. This status is for those members whose illness or injury is not otherwise reportable such as SI or VSI but involves: personnel diagnosed with a psychotic condition requiring hospitalization; attempted suicide and suicide gestures verified by a medical authority, or other medical conditions that may require extensive medical treatment or hospitalization.

E2.12. **Casualty Type.** A term used to identify a casualty for reporting purposes as either a hostile casualty or a non-hostile casualty.

E2.13. **Circumstance of Casualty.** An occurrence that causes a casualty or directly sets off a series of actions leading to a casualty.

E2.14. **Civilian.** A person who is not a member of the armed forces, including a member of the general public, U.S. and non-U.S., a defense contractor, a DoD civilian employee, non-DoD Federal employees, or military dependents.

E2.15. **Classification of Casualty**

   - **E2.15.1.** **Air Casualty.** A casualty resulting from the intent for flight of an aircraft; i.e., manned vehicles that are supported in flight by buoyancy or dynamic action. The intent for flight begins when an aircraft engine is started for commencing flight and continues until the aircraft comes to rest with the engine(s), propeller(s), or rotors stopped and brakes set or wheel chocks in place. The aircraft's engine is considered started when the intentional attempt is made to set the engine in motion. For amphibian aircraft landing on water, intent for flight continues until all normal flight operations have ended. It ceases when the engine(s) have been stopped and the aircraft has been either moored or taken in tow. For non-engine powered aircraft (e.g., balloons, non-powered gliders), intent for flight begins with any intentional operations for commencing flight and ends when said operations cease and the aircraft is properly moored, chocked, or the like.
E2.15.2. **Sea Casualty.** A casualty occurring in water areas in conjunction with the operation of seagoing vessels. The term includes casualties aboard seagoing vessels while underway, casualties aboard seagoing vessels while in port that result in death aboard ship, and ground crew aboard ship that are killed in an aircraft crash.

E2.15.3. **Ground Casualty.** A casualty other than an air or sea casualty.

E2.16. **Contractor.** An individual or employee of a private business who contracts to furnish supplies or perform work at a certain price or rate.

E2.17. **Covered Person.** Refers to those persons for whom a determination of status must be made under the provisions of Reference (m).

E2.18. **Date of Casualty Incident.** The date the Service member enters a casualty status. For members declared DUSTWUN or persons declared missing, the date of casualty is the date declared DUSTWUN or missing. For members declared missing who were initially declared DUSTWUN, the date of casualty is the date declared DUSTWUN unless there is evidence to indicate a more current date. For persons reported VSI, SI, or NSI, the date of casualty is the date the illness or injury occurred, if known, or the date the person is so classified as ill or injured by competent medical authority.

E2.19. **Date of Death.** The date a person died based upon actual knowledge of when the death occurred, receipt of conclusive evidence, or a presumptive finding of death. For persons that suffer irreversible brain death, the law differs among States and countries concerning when a person is legally considered deceased. The date of death in these cases is the date determined by competent medical authority based upon either declaring the person brain dead or removal from life support systems, whichever the local law dictates. For persons declared missing and subsequently deceased, the date of death is dependent upon either receipt of conclusive evidence of death or a presumptive finding of death. The date of death based upon receipt of conclusive evidence is the date determined by competent medical authority or by the Military Department Secretary or their appointed designee. The date of death based upon a presumptive finding of death is the date the Military Department Secretary or their appointed designee signs the change in casualty status from missing to deceased.

E2.20. **Deceased.** A casualty status applicable to a person who is either known to have died, determined to have died on the basis of conclusive evidence, or declared to be dead on the basis of a presumptive finding of death. The recovery of remains is not a prerequisite to determining or declaring a person deceased.

E2.21. **Defense Casualty Information Processing System (DCIPS).** DCIPS is the Department’s functional information system for casualty and mortuary business information processes. DCIPS is a single standard system supporting uniform procedures, accounting and accurate reporting of casualties, ensuring support of family members, benefits tracking, coordinating mortuary affairs, and the return of personal effects and human remains. DCIPS functional requirements are approved by the DCIPS CCB.
E2.22. **Department of Defense Casualty.** Any person reflected in the personnel categories under paragraph 6.1.1. or meeting the definition of casualty.

E2.23. **Designated Person or Previously Designated Person.** A person or persons, if any, other than that person’s PNOK or immediate family, to whom information on the whereabouts and status of the member will be provided if such whereabouts are investigated under chapter 76, sections 1501-1513 of Reference (l). See also section 655 of Reference (l).

E2.24. **Died of Wounds Received in Action.** A casualty category applicable to a hostile casualty, other than the victim of a terrorist activity, who dies of wounds or other injuries received in action after having reached damage control surgical capability.

E2.25. **Dignified Transfer.** Defined in DoD Instruction 1300.29 (Reference (ad)).

E2.26. **Documented Medical Illness.** An ongoing illness being treated in a medical treatment facility or hospice recorded in medical records.

E2.27. **Duty Status.** A status in which the military member was serving under section 101(d) of Reference (l), or sections 316, 502, 503, 504, or 505 of title 32, U.S.C. (Reference (v)) at the time the member becomes a casualty. Duty status is used as a basis for determining eligibility for survivor benefits and entitlements.

E2.28. **Duty Status - Whereabouts Unknown (DUSTWUN).** A transitory casualty status, applicable only to military personnel, that is used when the responsible commander suspects the member may be a casualty, whose absence is involuntary, but does not feel sufficient evidence currently exists to make a determination of missing or deceased.

E2.29. **Excused Absence – Whereabouts Unknown (EAWUN).** An administrative status, applicable only to civilian personnel, that is used when the responsible commander suspects the employee may be a casualty, whose absence is involuntary, but does not feel sufficient evidence currently exists to make a determination of missing or deceased.

E2.30. **Friendly Fire.** In casualty reporting, a casualty circumstance applicable to persons killed in action or wounded in action mistakenly or accidentally by friendly forces actively engaged with the enemy, who are directing fire at a hostile force or what is thought to be a hostile force.

E2.31. **Full-time National Guard Duty.** Training or other duty, other than inactive duty, performed by a member of the Army National Guard of the United States or Air National Guard of the United States in the member's status as a member of the National Guard of a State or Territory, the Commonwealth of Puerto Rico, or the District of Columbia under sections 316, 502, 503, 504, or 505 of Reference (v), for which a member is entitled to pay from the United States or for which a member has waived pay from the United States.

E2.32. **Home of Record.** A term unique to the military used to determine a member's pay, allowances, and other entitlements under various Federal statutes. In general, it is synonymous with the concept of "domicile" at the time when it is initially recorded, and yet unlike "domicile,"
it does not have the flexibility of change during the continuation of an uninterrupted tour of military service. The place recorded as the home of the individual when commissioned, reinstated, appointed, reappointed, enlisted, reenlisted, inducted, or ordered into the relevant tour of duty.

E2.33. Hostile Casualty. A person who is the victim of a terrorist activity or who becomes a casualty "in action." "In action" characterizes the casualty as having been the direct result of hostile action, sustained in combat or relating thereto, or sustained going to or returning from a combat mission provided that the occurrence was directly related to hostile action. Included are persons killed or wounded mistakenly or accidentally by friendly fire directed at a hostile force or what is thought to be a hostile force. However, not to be considered as sustained in action and not to be interpreted as hostile casualties are injuries or death due to the elements, self-inflicted wounds, combat fatigue, and except in unusual cases, wounds or death inflicted by a friendly force while the individual is in an AWOL, deserter, or dropped-from-rolls status or is voluntarily absent without authority from a place of duty.

E2.34. Inactive Duty Training (IDT). Authorized training performed by a member of a Reserve Component not on AD or ADT and consisting of regularly scheduled training period, additional training periods, periods of appropriate duty or equivalent training, and any special additional duties authorized for Reserve Component personnel by the Secretary concerned, and performed by them in connection with the prescribed activities of the organization in which they are assigned with or without pay. Does not include work or study associated with correspondence courses.

E2.35. Invitational Travel Authorization. Invitational travel is the term applied to authorize travel of individuals. The more commonly referred to name is Invitational Travel Orders. Refer also to the current version of Reference (p).

E2.36. Killed in Action (KIA). A casualty category applicable to a hostile casualty, other than the victim of a terrorist activity, who is killed outright or who dies as a result of wounds or other injuries before reaching damage control surgical capability.

E2.37. Mass Casualty. Any large number of casualties produced in a relatively short period of time, usually as the result of a single incident such as a military aircraft accident, hurricane, flood, earthquake, or armed attack that exceeds local logistical support capabilities.

E2.38. Missing. A casualty status for which the United States Code provides statutory guidance concerning missing members of the Military Services. Excluded are personnel who are in an AWOL, deserter, or dropped-from-rolls status. A person declared missing is categorized as follows:

   E2.38.1. Beleaguered. The casualty is a member of an organized element that has been surrounded by a hostile force to prevent escape of its members.

   E2.38.2. Besieged. The casualty is a member of an organized element that has been surrounded by a hostile force, compelling it to surrender.
E2.38.3. **Captured.** The casualty has been seized as the result of action of an unfriendly military or paramilitary force in a foreign country. See also Prisoner of War (POW).

E2.38.4. **Detained.** The casualty is prevented from proceeding or is restrained in custody for alleged violation of international law or other reason claimed by the government or group under which the person is being held.

E2.38.5. **Interned.** The casualty is definitely known to have been taken into custody of a nonbelligerent foreign power as the result of and for reasons arising out of any armed conflict in which the Armed Forces of the United States are engaged.

E2.38.6. **Missing.** The casualty is not present at their duty location due to apparent involuntary reasons and whose location is unknown.

E2.38.7. **Missing in Action (MIA).** The casualty is a hostile casualty, other than the victim of a terrorist activity, who is not present at their duty location due to apparent involuntary reasons and whose location is unknown.

E2.39. **Non-hostile Casualty.** A person who becomes a casualty due to circumstances not directly attributable to hostile action or terrorist activity. Casualties due to the elements, self-inflicted wounds, and combat fatigue are non-hostile casualties.

E2.40. **Not Seriously Ill or Injured (NSI).** The casualty status of a person whose injury or illness requires medical attention, may or may not require hospitalization, and competent medical authority classifies as less severe than SI.

E2.41. **Official Combat Area or Zone.** A combat area or zone that has been officially designated by Presidential or Congressional authority.

E2.42. **Person Authorized to Direct Disposition of Human Remains (PADD).** Defined in Reference (ad). Service members will identify a PADD on their DD Form 93. (See instructions at Enclosure 7.)

E2.43. **Posthumous Promotion.** Promotion to a higher grade following a casualty's death; however, this promotion is not for pay purposes.

E2.44. **Presumptive Finding of Death.** A declaration by the Military Department Secretary or designee of the Military Service concerned, based upon a recommendation by a board or other official body that a person who was placed in a missing casualty status is dead.

E2.45. **Primary Next of Kin (PNOK).** The person most closely related to the casualty is considered PNOK for casualty notification and assistance purposes. The unremarried surviving spouse is PNOK. The term “surviving spouse” does not include one who obtained a divorce from the decedent (at any time). See also paragraph E2.43. Other NOK and interested parties are recognized in the following order:
E2.45.1. Natural and adopted children in order of seniority (age). The age of majority is 18 years. Their surviving parent or legal guardian will exercise the rights of minor children.

E2.45.2. Parents in order of seniority (age), unless legal exclusive (sole) custody was granted to a person by reason of a court decree or statutory provision.

E2.45.3. Blood or adoptive relative who was granted legal custody of the person by a court decree or statutory provision.

E2.45.4. Brothers or sisters of legal age in order of seniority (age).

E2.45.5. Grandparents in order of seniority (age).

E2.45.6. Other relatives of legal age in order of relationship to the individual according to civil laws. Seniority (age) controls when persons are of equal degree of relationship.

E2.45.7. Persons standing in loco parentis to the decedent. Seniority in age will control when the persons are of equal relationship.

E2.45.8. The remarried surviving spouse. The term remarried surviving spouse does not include one who obtained a divorce from the decedent (at any time) or who remarried before a finding of death pursuant to Reference (q).

E2.46. Prisoner of War (POW). POW is not a casualty status for reporting purposes. For reporting purposes, the casualty status and category would be missing-captured. POW is the international legal status of military and certain other personnel captured during an armed conflict between two countries and that status entitles those captured to humanitarian treatment under the Third Geneva Convention, “Geneva Convention Relative to the Treatment of Prisoners of War.” The international status of POW is automatic when personnel “have fallen into the power of the enemy.” There is no action required by any country in the conflict to have that status applied to their personnel and for their personnel to be entitled to the humanitarian protections of the Geneva Convention.

E2.47. Record of Emergency Data (RED) (DD Form 93). A form used to designate beneficiaries for certain benefits and designate the PADD in the event of the Service member’s death. It is a guide for the disposition of that member’s pay and allowances if captured, missing, or interred. It also shows names and addresses of the person(s) the Service member desires to be notified in case of emergency or death.

E2.48. Report of Casualty. The DD Form 1300. (See paragraph 6.1.2.1.)

E2.49. Representative groups of survivors of deceased Service members. Groups that may consist of non-government organizations or individual survivors representing survivors of Service members who died while in an active status and are considered to be a reportable casualty. See paragraphs 5.1.9. and 5.7.16.
E2.50. **Returned to Military Control (RMC).** The status of a person whose casualty status of DUSTWUN or missing has been changed due to the person's return or recovery by U.S. military authority.

E2.51. ** Seriously Ill or Injured (SI).** The casualty status of a person whose injury(s) or illness requires medical attention, and competent medical authority declares that death is possible but not likely to occur within 72 hours.

E2.52. **Service Occupation Codes.** The identification by Military Services of occupation specialty codes for officers and enlisted personnel.

E2.53. **Terrorism.** The calculated use of unlawful violence or threat of unlawful violence to inculcate fear; intended to coerce or to intimidate governments or societies in the pursuit of goals that are generally political, religious, or ideological.

E2.54. **Unaccounted For.** An inclusive term (not a casualty status) applicable to personnel whose person or remains are not recovered or otherwise accounted for following hostile action. Commonly used when referring to personnel who are killed in action and whose bodies are not recovered (KIA/BNR).

E2.55. **Very Seriously Ill or Injured (VSI).** The casualty status of a person whose injury(s) or illness is such that competent medical authority declares it more likely than not that death will occur within 72 hours.

E2.56. **Wounded in Action (WIA).** A casualty category applicable to a hostile casualty, other than the victim of a terrorist activity, who has incurred an injury due to an external agent or cause. The term encompasses all kinds of wounds and other injuries incurred in action, whether there is a piercing of the body, as in a penetration or perforated wound, or none, as in the contused wound. These include fractures, burns, blast concussions, all effects of biological and chemical warfare agents, and the effects of exposure to ionizing radiation or any other destructive weapon or agent. The hostile casualty’s status may be categorized as SI, VSI, or NSI.

4d  DATE OF CASUALTY  Enter as day, month, and year.  EXAMPLE:  15 Feb 1999.

For cases under AFME jurisdiction, in those cases where remains are found, the date of death will be determined by the AFME. For cases not under AFME jurisdiction, the determination by the local coroner or medical examiner should be followed.

4e  PLACE OF CASUALTY  The place of casualty approximates where the casualty was either pronounced dead on arrival, dead at the scene, or declared missing based on the casualty's last known location. Enter the name of city or town followed by the State, District of Columbia, or Territory, if the United States, or the country, if not the United States. For casualties that occur over, on, or beneath a body of water, enter the name of the body of water. Include with the name of the body of water the geographic coordinates or the approximate location relative to the nearest landmass. If the place of casualty is classified, enter "Classified Location."

4f  CIRCUMSTANCES  Provide information about what the person was doing at the time of death and what occurred that caused the death. For example, "While driving his automobile, he was struck by an oncoming vehicle." Layman terms are generally used.

The words "Determination Pending" may be used on an initial or interim report where insufficient information is known to be able to provide circumstance information. It may also be prefaced with what circumstances are not in dispute such as "Gunshot wound to the head" or "Remains found at the bottom of a 70 foot cliff after hiking." Any speculation should be avoided.
If a death certificate is issued, the exact wording from it may be used in circumstances followed by "(PDC)" which means per death certificate. However, if the death certificate does not provide details of the circumstances, these must be included as well. For example, if DD 2064 states "blast injuries" more information such as "IED exploded when HMMWV ran over it" is required.

4g DUTY STATUS

Enter either Active Duty, Active Duty for Training, or Inactive Duty Training. For members whose duty status is Active Duty for Training or Inactive Duty Training, indicate approval authority and inclusive dates of duty. If the member was in an AWOL or desertion status, include with the duty status and indicate the local date the AWOL or desertion began. EXAMPLE: Active Duty for Training/AWOL - 19 Jan 1998. At the Military Services' option, include with the duty status whether the member was on-duty, off-duty, on-leave, in-patient, and so forth. EXAMPLE: Active Duty/On-Duty. If the DD Form 1300 (Enclosure 3) is used to record the death of separated, discharged, or retired members, enter the effective date of separation, discharge, or retirement. For retired members, the effective date is either the date retired for disability reasons or the date retired for years of military service. EXAMPLES: Retired effective 5 Jan 1990 with a physical disability; Retired effective 1 Jan 1990 for years of military service.

4h BODY RECOVERED

For deceased casualties, enter Yes or No, as applicable.

E6. ENCLOSURE 6

CIVILIAN CASUALTY REPORTING, RECORDING, NOTIFICATION, AND ASSISTANCE
BY DoD COMPONENTS

E6.1. GENERAL

E6.1.1. Background. Policies and procedures associated with casualty reporting and assistance requirements for civilian personnel, eligible contractors, and other designated or covered personnel that fall under the authority of a Secretary of a Military Department are well documented throughout this Instruction and individual Service regulations. This Enclosure will provide further guidance on the reporting, recording, and assistance requirements for those civilian personnel that are assigned to DoD Components other than the Military Departments including the Combatant Commands, Defense Agencies and Defense Field Activities. Casualty reporting and assistance requirements for civilian personnel will mirror the requirements for military personnel as closely as possible.

E6.1.2. Coordination

E6.1.2.1. DoD Components, other than the Military Departments, generally do not have a formalized casualty reporting system because of the low numbers of civilian personnel. To ensure that each Component is provided the necessary assistance so that all DoD reportable casualties are recorded, the following table reflects the DoD Component and the Military Service that will provide the administrative assistance to record the casualty in the Departments DCIPS program. Administrative support for Combatant and subordinate Joint Commands is as directed in DoD Directive 5100.03 (Reference (x)). The DoD Component will be responsible for making the notification to the proper family member and providing the necessary follow-on casualty assistance.

E6.1.2.2. DoD Components and the designated Military Service will liaison in advance to ensure a smooth flow of information and assistance when required.

E6.2. PROCEDURES

E6.2.1. Casualty Reporting

E6.2.1.1. Casualty reports will be submitted without delay to the appropriate Military Service Headquarters Casualty Office within 24 hours of a Component learning of the casualty. Immediately report the information by telephone to the appropriate Military Service Casualty Headquarters and then submit the casualty report.

E6.2.1.2. Components will complete the casualty report contained in this Enclosure and submit the report electronically or by facsimile and confirm receipt. The designated Military Service will review the report and then input the necessary information into DCIPS.

E6.2.1.3. Casualty reports will be unclassified to the maximum extent possible. In the event a casualty report must be classified or contains classified information, the information must be reported via secure means and to properly cleared personnel. A secure e-mail address may be obtained from the designated Military Service.

E6.2.1.4. Preparation of the DD Form 1300 when required or when requested as an option, will be prepared by the designated Military Service and provided to the DoD Component for signature and delivery to the PNOK.

E6.2.1.5. Casualty reports are required for:

E6.2.1.5.1. All deceased or missing DoD civilian personnel, including DoD contractors, OCONUS, who are casualties as a result of hostile or non-hostile action or while accompanying Armed Forces in the field and for all CONUS casualties as a result of hostile action.

E6.2.1.5.2. All deceased or missing personnel identified as Designated or Covered Persons by USD(P) according to Reference (m).

E6.2.1.5.3. All DoD civilian personnel, including DoD contractors, OCONUS, who are listed as SI or VSI as a result of hostile or non-hostile action or while accompanying armed forces in the field.

E6.2.1.5.4. All DoD civilian and DoD contractor personnel listed as EAWUN.

E6.2.1.5.5. All DoD civilians and DoD contractors who are wounded in action.

E6.2.1.5.6. At the Components’ discretion, casualty reports are optional for:

E6.2.1.5.6.1. All DoD civilians and contractors in a travel status.
E6.2.1.5.6.2.  All civilian and contractor dependents.

E6.2.2.  Casualty Recording.  Refer to paragraph 6.1.2.

E6.2.3.  Casualty Notification

E6.2.3.1.  Initial Notification.  During the initial notification, or as soon as practicable thereafter, the PNOK will be provided all releasable information concerning the circumstances surrounding the casualty incident and, when applicable, information regarding media access for the dignified transfer of remains at Dover Air Force Base.

E6.2.3.1.1.  At a minimum, the Component concerned will notify the PNOK, spouse, or other designated emergency point of contact (POC) (hereafter collectively referred to as “designated POC”) identified in the employees personnel file or emergency contact record.

E6.2.3.1.2.  Times of Notification.  Personal notifications will be accomplished within 12 hours of the Component headquarters notification of the casualty unless circumstances beyond the Component’s control prevent such notifications.  Hours of notification are local times 0500 – 2400, except under unusual circumstances as authorized in applicable Component regulations.  The intent is to notify the proper individual while at home, not while on the job.

E6.2.3.1.3.  Desires of the Member.  The desires of the member, expressed in the RED, Civilian Personnel Management System (CPMS) or other personnel files, or expressed by the member at the time of the casualty concerning whom not to notify, will be honored unless, in the judgment of the Component commander, official notification should be made.

E6.2.3.1.4.  EAWUN, Missing, and Deceased Cases.  Within the guidance of subparagraph E6.2.3.1.1., initial notification(s) will be made in person to the designated POC unless unusual circumstances prevent such procedures, as expeditiously as possible.  Notification to secondary NOK is not applicable to civilian personnel.  Notification(s) will be conducted by a minimum of a two-person detail and, when possible, one member will be a chaplain.  All facts and circumstances on the casualty incident, known at the time of the initial notification, will be provided.  Whenever someone other than the member's commander or designated Component representative makes initial notification, an official notification confirmation will be made.  For deceased casualties, the casualty representative should advise the designated POC to defer making any decisions until briefed on entitlements and benefits.  The purpose of this contact is to establish a time to meet with the designated POC that considers the needs of the family and honors the family's period of mourning.

E6.2.3.1.5.  Illness or Injury Cases.  Within the guidance of paragraph 6.1.3.1.3., in cases involving SI or VSI casualties, initial notification(s) to the designated POC by a representative of the DoD Component concerned will be conducted by telephone.  If telephonic notification is not possible, initial notifications will be in person.  Whenever a casualty occurs as the result of a hostile action or terrorist activity and the casualty is classified as "not seriously injured" (NSI), official notification to the designated POC by the DoD Component concerned will be made upon the member’s request.  The member will be encouraged to notify their PNOK.
E6.2.3.1.6. Follow-on Notification

E6.2.3.1.6.1. EAWUN or Missing Cases. In all cases involving EAWUN or missing casualties, the designated POC will be kept informed until actual status or fate is determined.

E6.2.3.1.6.2. Illness or Injury Cases. For SI or VSI casualties, the DoD Component concerned will keep the designated POC informed of the member's medical progress within the guidance of paragraph 6.1.3.1.

E6.2.3.1.7. Other Concerned Individuals

E6.2.3.1.7.1. Beneficiaries. All persons reflected in the member’s records as a beneficiary or recipient of death benefits or Federal program insurance proceeds will be notified in accordance with individual Component directives or appropriate civilian personnel policies.

E6.2.3.1.7.2. Non-family Members. There may be interested persons other than the primary or secondary NOK or designated POC who may be affected or show considerable interest in a casualty (e.g., other members of the Component, close personal friends, boyfriends, girlfriends, and fiancés). While it is not possible, because of the Privacy Act of 1974, Reference (h), to provide these individuals with the complete details of the loss, common sense and sensitivity should be used with regard for their feelings and concerns.

E6.2.3.2. Military Service Support. When requested by a DoD Component, the Military Services will participate in casualty notification and assistance. The requesting Component will provide funds for travel and transportation expenses required for executing notification and assistance visits.

E6.2.4. Casualty Assistance

E6.2.4.1. EAWUN, Missing, or Deceased Cases. In all cases involving EAWUN, missing, or deceased casualties, the DoD Component concerned will appoint a casualty assistance officer who will initiate contact with the designated POC within 24 hours following initial notification. Within the guidelines established by each DoD Component, the casualty assistance officer may be the notification officer. Assistance to civilian personnel will be coordinated through the designated civilian personnel office or civilian benefits center. The casualty assistance officer will provide points of contact or information regarding autopsy reports, all known reports of inquiry or investigations, as applicable, and other governmental or non-DoD agencies that may be involved in a particular case. The casualty assistance officer will maintain contact with the PNOK to keep them informed until all matters relating to the case have been answered and all entitlements and benefits are received. The member’s Component commander should provide an appropriate letter of sympathy or condolence to the designated POC, spouse or parents as appropriate, not later than 5 days after the initial notification, unless circumstances dictate otherwise. If the PNOK is a minor, the letter should be addressed to the minor in care of the guardian or legal representative.
E6.2.4.2. Release of Information to the PNOK or Designated POC. In all casualty cases, the PNOK or designated POC will be provided information on the circumstances surrounding the incident as best known to the DoD Component concerned. In the event a casualty occurs during a classified operation, all information of an unclassified nature will be provided. Every effort will be made to declassify information. If the PNOK is a minor, all information will be provided to the guardian or legal representative.

All entries explained below are for electronic or typewriter completion, except those specifically noted. If a computer or typewriter is not available, print in black or blue-black ink; insuring a legible image on all copies. Include "Jr.", "Sr.", "III" or similar designation for each name, if applicable. When an address is entered, include the appropriate ZIP Code. If the member cannot provide a current address, indicate "unknown" in the appropriate item. Addresses shown as P.O. Box Numbers or RFD Numbers should indicate in Item 14, "Continuations/Remarks", a street address or general guidance to reach the place of residence. In addition, the notation "See Item 14" should be included in the item pertaining to the particular next of kin or when the space for a particular item is insufficient. If the address for the person in the item has been shown in a preceding item, it is unnecessary to repeat the address; however, the name must be entered. Those items that are considered not applicable to civilians will be left blank.

ITEM 1. Enter full last name, first name, and middle initial.

ITEM 2. Enter social security number (SSN).

ITEM 3a. Service. Military: Mark X in appropriate block. Civilian: Mark two blocks as appropriate. Examples: an Army civilian would mark Army and either Civilian or Contractor; a DoD civilian, without affiliation to one of the Military Services, would mark DoD and then either Civilian or Contractor as appropriate.

b. List relationship, e.g., "Father" or name and address of person(s) to be notified in lieu of person(s) listed in Item 8a. If "None" is entered in Item 8a, leave blank.

ITEM 9a. This item will be used to record the name of the person or persons, if any, other than the member's primary next of kin or immediate family, to whom information on the whereabouts and status of the member shall be provided if the member is placed in a missing status.
