2. **APPLICABILITY**

This Instruction applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff, the Combatant Commands (COCOMs), the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to collectively as the “DoD Components”). The term “Services” as used herein, refers to the Army, the Navy, the Air Force, and the Marine Corps.

3. **DEFINITIONS**

3.1. **Foreign Area Officers (FAOs).** Commissioned officers who possess a broad range of military skills and experiences; qualification in their primary military occupational specialty and/or designator; graduate-level or equivalent education focusing on, but not limited to, the historical, political, diplomatic, military/security, cultural, sociological, scientific, economic, and geographic factors of specific foreign countries and regions; in-country/regional experience involving significant interaction with host nationals and host-nation entities in the foreign countries or regions in which they specialize; and proficiency in one or more of the predominant languages in their regions of expertise (with the goal of attaining professional-level proficiency). FAOs serve in Service, Joint, and Interagency assignments that involve significant interaction with foreign governments and their militaries, host nationals, host-nation entities, and/or international organizations, often in the foreign countries or regions in which they specialize; provide regional expertise from the political-military and strategic perspectives for planning and executing operations; observe and report on international military issues; serve in liaison, attaché/military-diplomat, and representational roles to other nations; serve as arms control inspectors; and oversee military security assistance.

3.2. **Interagency Language Roundtable (ILR).** The ILR is a non-funded Federal interagency organization established for the coordination and sharing of information about language-related activities at the Federal level. (See Reference (c).) The ILR language skill level descriptions are used by all U.S. Government agencies to measure language proficiency. The DoD policy on language expertise is outlined in the Defense Language Program (DLP) (see DoD Directive (DoDD) 5160.41E (Reference (d))), with further expansion in the corresponding DoD Instruction (DoDI) 5160.70 (Reference (e)) on the management of language and regional proficiency capabilities.

3.3. **Regional Expertise.** For the purposes of this Instruction, regional expertise is defined as an individual’s understanding of the historical, political, diplomatic, military/security, cultural, sociological, economic, and geographic factors of foreign countries and geographic region; a knowledge of U.S. strategic and operational objectives in that country or region; and the ability to conduct critical analysis in applying all aspects of national power across the full range of military operations to most effectively achieve desired outcomes in the country or region. Cultural awareness is a subset of regional expertise that includes language, religion, norms, values, beliefs, behaviors, gestures, attitudes, etc.
4. POLICY

It is DoD policy pursuant to Reference (b) that:

4.1. FAOs will possess a unique combination of strategic focus, regional expertise (including cultural awareness and foreign language proficiency), and professional military skills and experiences that are critical competencies essential to the DoD mission. They shall be managed to maximize their service in the Department of Defense -- including on Joint, COCOM, and Service staffs -- and Defense Agencies and DoD Field Activities and will be the primary candidates to serve as the DoD, Joint, and Service military representative to foreign militaries, U.S. Embassies and diplomatic posts, and in other foreign settings.

4.2. The Department of Defense, through the respective Services, shall deliberately develop and manage a corps of FAOs to support the DoD global mission.

4.3. In support of the DoD global mission, FAOs will provide critical competencies and capabilities to military support in stability, security, transition, and reconstruction operations (see DoDD 3000.05 (Reference (f)); the tasks outlined in the QDR Execution Roadmap for Irregular Warfare (Reference (g)); the security cooperation and international capacity building objectives outlined in the QDR Execution Roadmap, Building Partnership Capacity (Reference (h)); and related activities as described in current DoD strategic guidance documents, to include facilitation of strategic communications.

4.4. The Department of Defense will establish a corps of language professionals with the goal to be proficient in one or more predominant foreign languages of the country or region at the ILR Listening-3/Reading-3/Speaking-3 levels of proficiency. FAOs are a key and critical component to this corps and therefore this goal is especially pertinent for them. (See References (a), (b), and (c).)
