ENCLOSURE 5

ACCOUNTING, REPORTING, AND DETERMINING REIMBURSEMENTS FOR
PROTECTIVE ASSISTANCE SUPPORT

1. GENERAL. This enclosure specifies the criteria for accounting and reporting DoD support to USSS protective functions and for determining and billing the reimbursable portion of such support in accordance with Reference (i). Questions and recommended solutions or changes to the guidance herein shall be referred to the ASD(HD&GS), or designee, for consideration.

2. ACCOUNTING

a. General. When DoD capabilities (e.g., services, equipment, and facilities) are used to support USSS protective functions, the full cost incurred by the Department of Defense shall be tracked. Each request for DoD support by the USSS shall be treated as a separate task and accounted for separately. The cost of the support rendered or made available pursuant to a USSS request is to be determined and accumulated regardless of whether the support is on a permanent, temporary, reimbursable, or non-reimbursable basis.

b. Documentation. As a part of the normal administrative control procedures, a copy of the USSS request or a statement of the requested support and the official approval shall be retained by the organization providing the support. In addition, the approval document or file shall be annotated to identify the protectees (i.e., the persons designated by the USSS for protection) as well as the dates and locations of the support and the DoD capabilities employed in providing such support.

c. Accounting System. The system used to account for the cost of support to the USSS need be no different from the system used for normal administration and control of capabilities. This could be a manual or automated system. When the accounting system used has the capability to accumulate and distribute the indirect costs incurred in providing the support, including the indirect costs for overall management of the activity (e.g., an industrial fund activity), that system should be used to accumulate the indirect costs. For current financial management guidance, see Reference (i).

(1) When the existing accounting system can be modified efficiently and in a timely manner to provide for a systematic and rational indirect costing process that would be beneficial in the day-to-day operations of the activity, this action should be taken.

(2) If there is no other recurring or significant use for an accounting system that can separately identify direct and indirect costs, the comptroller of the DoD Component concerned shall establish a cost finding system for activities providing support to the USSS.

(3) The system shall include, at a minimum:

(a) Adequate internal controls and criteria by which to distinguish direct from indirect costs.

(b) Specific guidance for classifying by expense pools and local indirect costs, and for developing an annual local overhead rate.

(c) Criteria for developing and disseminating an annual rate for general and administrative expenses and any other allocable non-locally incurred expenses.

(4) Costs shall be assigned to each task as outlined in this paragraph and subparagraphs (these are minimum requirements). Equivalent practices or methods that are more accurate and include all of the same cost elements may be substituted. Actual costs shall include all direct costs attributable to providing such goods or services regardless of whether DoD expenditures are increased. Actual costs shall also include indirect costs (overhead) if the personnel, equipment, aircraft, and supplies are provided for USSS benefit.

(a) Military personnel costs shall be based on hours worked multiplied by the officer or enlisted hourly rate (calculated on the annual composite standard rates as determined by the Military Departments) accelerated to cover leave, holiday, and certain other personnel costs (e.g., pay and allowances). The acceleration factors prescribed in Reference (i) shall be used. See Appendix to Enclosure 5 for costing out formats.

(b) Civilian personnel costs shall be based on hours worked multiplied by the employee's basic hourly rate accelerated to cover leave and Government contributions. When the accounting system for civilian personnel costs does not determine acceleration factors, the factors prescribed in Part II of Chapter 26 of Addendum 3 to Reference (i) shall be used.

(c) Subsistence provided by appropriated fund dining facilities shall be costed at the meal rates in DoD Manual 1338.10 (Reference (t)). The surcharge shall be applied to all meals to ensure full costing for food preparation and service and for raw food costs.

(d) Quarters provided shall be costed by the furnishing activity. (Civil engineer or public works department records and housing office records shall be used to make an estimate of costs.) Costs shall be based on the net payments made by the quartered DoD personnel, such as visiting officer quarters payments.

(e) Personnel travel, transportation, per diem, and other authorized personnel expenses, other than those accumulated in accordance with subparagraphs 2.c.(4)(c) and 2.c.(4)(d) of this enclosure, shall be costed at the entitlement amounts authorized by the Joint Federal Travel Regulations, Volumes 1 and 2 (References (u) and (v)). Actual payment vouchers shall be used whenever available.

(f) Transportation of supplies, materials, and equipment shall be costed at amounts payable or paid, or based upon estimates if payable amounts are unavailable. Transportation rates should be requested from the Commander, Surface Deployment and Distribution Command, in order to make reasonable estimates.

(g) Consumable materials and supplies shall be costed at the standard catalog price.

(h) Loaned plant and equipment (investment items other than aircraft) shall be costed based on computing an annual rent, which will be the sum of the annual depreciation plus interest on the investment. The amount of interest on the investment is determined by applying the interest rate to the net book value, which is the acquisition cost and cost of additions less depreciation. The interest rate published in Reference (i) (currently at a 10 percent annual rate) shall be used.

(i) Contractual services shall be costed at the acquisition price for the goods or services provided, plus the cost of any related contract administration.

(j) DoD fixed-wing aircraft usage shall be costed at Government rates. Helicopter usage shall be costed at the Government rate published annually by the USD(C)/CFO. Rates for any aircraft not listed in these documents shall be furnished upon request by

Headquarters, U.S. Air Force
SAF/FMB
Room 5D912, The Pentagon
Washington, DC 20330-5018

(k) Motor vehicle usage shall be costed at the average rate per mile, obtainable from the latest motor vehicle report of the DoD Component, which is prepared in accordance with Chapter 1 of Volume 11A of Reference (i).

3. REIMBURSEMENTS

a. General. Reimbursement shall be in accordance with Reference (i). A summary of the rules for determining the reimbursable amounts to be collected by the DoD Components is found in Reference (i). Consult with the ASD(HD&GS) to determine applicability of any MOAs or memorandums of understanding with the USSS regarding reimbursement.

(1) Transfer of funds shall be made directly to the appropriate DoD Component through the Intra-Governmental Paying and Collection System.

(2) A bill shall be prepared and submitted for all reimbursable support furnished to the USSS and an accounts receivable record shall be prepared in accordance with Reference (i). Bills should be computed by task on a monthly basis and rendered within 30 days after the end of the month during which the support was provided. When the accumulated amount of the reimbursement during a fiscal quarter is under \$100, the waiver of reimbursement procedure in Reference (i) may be applied.

b. Criteria. These criteria shall be used to determine what support to the USSS is reimbursable:

(1) An authorized USSS official, as determined by the DHS, must have requested the support for the protective mission either verbally or in writing. Requests for permanent support must be in writing. Advise requesting USSS officials that verbal requests should be submitted in writing within a reasonable period of time.

(2) The Secretary of Defense, or designee, must have approved the request either verbally or in writing.

(a) Permanent support tasks are reimbursable.

(b) Temporary support tasks are reimbursable, except for:

1. Support to the USSS in its duties directly related to protecting the President or the Vice President (or other officer immediately next in order of succession to the Office of the President).

2. Support of general-purpose non-protective services ordinarily supplied to the President or Vice President (i.e., the existing un-reimbursed services such as normal communications and transportation that are outside of the protective assignment of the USSS). This support would not be requested separately by the USSS.

c. Documentation. Documentation of USSS requests and the DoD authorization of reimbursements for services shall comply with the criteria in subparagraphs 3.b.(1) and 3.b.(2) of this enclosure. Either the request or approval should classify support as permanent or temporary and, if the latter, whether covered by the exceptions in subparagraph 3.b.(2)(b) of this enclosure. Any support provided to the USSS in carrying out its protective mission at its request that is not exempted is reimbursable. The funding document (i.e., Military Interdepartmental Purchase Request) must be submitted within the first quarter of each fiscal year.

d. Computation

(1) In computing the cost of reimbursable support to be billed, the amount included in the DoD cost accumulation process shall be used, except as limited by subparagraph 3.d.(2) of this enclosure. Each DoD Component shall ensure that its reimbursement computation practices adhere to the fiscal responsibilities specified in Reference (c).

(2) Reimbursable support provided in situations other than that described in subparagraph 2.c.(4) of this enclosure shall include identifiable costs that exceed the costs to the DoD Component for services, equipment, and facilities.

(a) Reimbursable costs include aircraft operation and maintenance, rental car, and travel costs incurred by a DoD Component as a direct result of providing temporary support to the USSS in carrying out its protective functions.

(b) In addition, the costs of improving authorized facilities and acquiring equipment, such as fences and electronic devices, that will be used for protective purposes on a permanent basis are reimbursable.

4. REPORTING. Costs of DoD capabilities expended to support the USSS in carrying out its protective functions shall be accumulated by task. All costs incurred shall be reported in accordance with the formats in the appendix to this enclosure.

(Reference (w)). Those procedures requiring actions to be accomplished by the USSS shall be incorporated into a MOA between DHS and the Department of Defense.

b. The identity or type of USSS protectees shall be supplied to the Department of Defense by the USSS on an individual basis in order to facilitate reimbursement and justify required DoD support. The notifications shall include the identity of the protectee, dates of protective assignment, and other pertinent information such as location and threat information. This notification will normally be made prior to commencement of the protective assignment in accordance with procedures for liaison between the USSS and the DoD Components concerned (e.g., in an execute order regarding an NSSE or in JEOD VIPPSA publications).

3. INFORMATION TO BE FURNISHED BY THE DEPARTMENT OF DEFENSE TO THE
USSS

a. The Department of Defense shall furnish to the USSS the information in Appendix 1 of this enclosure. Such information shall be supplied by the Department of Defense if it is collected in the normal course of military training or operations and may be relevant to a violation of any Federal law within the jurisdiction of the USSS, in accordance with DoD policy. Efforts by the Department of Defense to elicit or seek such information, to evaluate such information, or to further investigate such information are not contemplated by this Instruction, except upon specific request of the USSS through established channels on a case-by-case basis, and then only on military installations or in overseas areas where U.S. forces are stationed.

b. Excepted information, information originated by another Federal department or agency, which, pursuant to this Instruction, is to be reported by the Department of Defense to the USSS will be so reported unless prohibited by the originating agency. Whenever, in compliance with such a prohibition, information is not reported to the USSS, the Department of Defense will notify the USSS of the existence of such information and the identity of the originating agency. However, information received that is considered to reflect an immediate threat or present danger to any person or facility under USSS protection will be provided to the USSS, and the originating agency will be informed of such action.

4. INFORMATION TO BE REPORTED BY THE USSS TO THE DEPARTMENT OF DEFENSE

a. The USSS will furnish to the Department of Defense, as it comes to USSS attention, information specified in Appendix 2 of this enclosure. Efforts by the USSS to elicit or seek such information, to evaluate such information, or to investigate further such information are not contemplated by these procedures.

b. The provisions concerning excepted information contained in paragraph 3.b. of this enclosure shall apply to the transmission of information by the USSS to the Department of Defense.

c. The USSS will provide any applicable security classification guidance, dissemination, and safeguarding instructions for USSS classified and controlled unclassified information that is released to the Department of Defense.

5. IMPLEMENTATION

a. The USSS and the Department of Defense will maintain an active liaison to ensure the prompt sharing of information required under these procedures for the protection of the President and other protected persons. Furthermore, in order to effect the best possible protection for such persons, the USSS and the Department of Defense will construe the obligations imposed on each in the broadest terms and take such steps as are necessary to ensure that these procedures are carried out. Information pertaining to participation in lawful political opposition to or criticism of policies and decisions of the U.S. Government or officials of the U.S. Government is not desired by the USSS and is not within the purview of these procedures.

b. These procedures shall be incorporated into a separate MOA, which will supersede all prior agreements between the Department of Defense and the USSS with respect to exchanging information for protecting persons. The MOA will be reviewed by DoD and USSS representatives annually, or more frequently as the Department of Defense or the USSS may request, to make certain that they are both practicable and productive. Revisions may be made by the USD(P) and the USSS Director.

c. Information will be protected pursuant to and consistent with law and policy applicable to the type of information being transmitted (e.g., classified, sensitive but unclassified, law enforcement sensitive). In all situations, priority attention shall be given to the preparation and delivery of pertinent information. Information transmitted pursuant to these procedures shall be treated in all respects as sensitive and will not be disseminated outside the receiving agency or department without the expressed consent of the originator (Department of Defense or USSS). The information detailed in Appendix 1 of this enclosure shall be reported to the USSS by the fastest available means or to the closest USSS field office. Written confirmation should follow.
