G.2. DEFINITIONS.

Unless otherwise noted, these terms and their definitions are for the purpose of this issuance.

annuitant. A person receiving an annuity.

annuity. A monthly payment made to a person as a result of a specific survivorship plan.

ANSI. The ANSI established alphabetic and numeric codes for each State and outlying areas in ANSI standard INCITS 38-2009[R2019]. ANSI standard INCITS 38-2009[R2019] replaced the Federal Information Processing Standard (FIPS) standards FIPS 5-2, FIPS 6-4, and FIPS 10-4. The ANSI alphabetic State code is the same as the USPS State code except for U.S. Minor Outlying Islands, which have an ANSI code “UM” but no USPS code—and U.S. Military Mail locations, which have USPS codes (“AA”, “AE”, “AP”) but no ANSI code.

basic pay. The active duty pay rates prescribed for an officer or enlisted member according to pay grade and years of service.

BRS. Starting January 1, 2018, all new entrants to the military received this retirement system. The “blending” in BRS comes from the blending of two major sources of retirement income: the existing retired pay laws providing for a retirement at a fixed amount for those who attain the requisite years of service (generally 20 years) plus the Thrift Savings Plan, a tax-deferred retirement savings and investment plan that offers Federal employees the same type of savings and tax benefits that many private corporations offer their employees under 401(k) plans including government contributions and matching. Service members who joined the Service before January 1, 2018, could opt-in into new the blended retirement system if they had less than 12 years of service (or had accumulated fewer than 4,320 retirement points) before January 1, 2018. If they did not opt in, they remained in the previous defined benefit plan. For most active

duty members, it was those with pay entry entry base dates on or after January 1, 2006 and before January 1, 2018.

cost of living adjustment. Percentage change applied to retired pay and SBP annuities based on laws using the Consumer Price Index, as published by the Bureau of Labor Statistics, to determine the amount of income.

CRDP. This program provides a 10-year phase-out (with certain exceptions) of the offset of military retired pay for retired members who receive VA disability compensation, have a combined VA disability rating of 50 percent or greater, and are active or Reserve members receiving retired pay for longevity or disability retirees with more than 20 years of service in accordance with Section 1414 of Title 10, U.S.C.

CRSC. This program provides a special monthly payment that is equivalent to the portion of military retired pay offset for receipt of VA disability compensation determined to be combat-related. Qualified individuals include any military retired members whose retired pay is offset for VA compensation based on a combat-related disability in accordance with Section 1413a of Title 10, U.S.C.

CSB. A program provided by the 1986 Military Reform Act by which a member agrees to certain active service requirements in return for bonus pay in accordance with Section 354 of Title 37, U.S.C.

DFAS. Utilizing the Defense Retiree and Annuitant System, provides services for Army, Navy, Marine Corps, and Air Force retirees and their annuitants.

DIC. Compensation paid by the VA to the widow or widower of a member who dies after December 31, 1956, from a service connected or compensable disability in accordance with Chapter 13 of Title 38, U.S.C.

FR/FMCR. A Component of the Regular Service (Navy or Marine Corps) to which members may be transferred and released from active duty after obtaining 20 or more years of active Federal service.

GENC. The U.S. Government profile of International Organization for Standardization (ISO) 3166 Codes for the representation of names of countries and their subdivisions. It specifies an authoritative set of country codes and names for use by the Federal Government for information exchange, using ISO 3166 (Parts 1 and 2) names and code elements wherever possible, with modifications only where necessary to comply with U.S. law and U.S. Government recognition policy. Information regarding events leading to the development of the GENC Standard is documented at <https://nsgreg.nga.mil/geopoliticalCode.jsp>.

ISO 3166 Codes. The International Standard for country codes and codes for their subdivisions. The purpose of ISO 3166 is to define internationally recognized codes of letters and/or numbers that we can use when we refer to countries and subdivisions.

pay grade. The step or degree in a graduated scale to which members of the uniformed services are assigned or distributed for military pay and allowances purposes.

pay sites. Activities that provide finance and accounting services for Military retirees and their annuitants.

retired pay (includes FR and FMCR retainer pay). The gross entitlement for a member based on conditions of the retirement law, pay grade, years of service for basic pay, years of service for percentage multiplier, percentage of disability, if applicable, and date of retirement (transfer).

REDUX. The CSB/REDUX retirement system applies to those who entered Service on or after August 1, 1986, and who elected to receive the \$30,000 CSB at their 15th year of service in accordance with Section 354 of Title 37, U.S.C.

retirement date. The first day of entitlement to retired pay, not a day of active duty.

RSFPP. A survivor benefit program authorized by Chapter 73, Subchapter I of Title 10, U.S.C.

SBP/RCSBP. A survivor benefit program authorized by Chapter 73, Subchapter II of Title 10, U.S.C.

TERA. A temporary force management tool enacted to affect a drawdown of military forces, authorized in accordance with the temporary early retirement provisions of Section 12731a of Title 10, U.S.C.

Tower Amendment. The law provided that a member retiring after January 1, 1971, may not receive less retired pay than the monthly retired or retainer pay to which he or she would be entitled if the member had become entitled to retired or retainer pay at an earlier date in accordance with Section 1401a(f) of Title 10, U.S.C.

uniformed services. Defined in the DoD Dictionary of Military and Associated Terms.
