ENCLOSURE 3EDUCATIONAL DESIGNATOR CODE

CODE	TITLE	DEFINITION
1	Less than high school diploma	Status of an individual who is not currently attending high school and who is neither a high school graduate nor an alternate high school credential holder.
M	Credential near completion	Status of an individual who is currently pursuing completion of a high school diploma, test-based equivalency diploma, occupational program certificate, correspondence school diploma, home study diploma, adult education diploma, or high school certificate of attendance.
E	Test-based equivalency diploma	A diploma or certificate of General Education Development (GED) or other test-based high school equivalency diploma, excluding a GED certificate awarded at the completion of the National Guard Challenge Program. This includes statewide testing programs such as the California High School Proficiency Exam (CHSPE), whereby examinees may earn a certificate of competency or proficiency. A State or locally issued secondary school diploma obtained solely on the basis of such equivalency testing is not to be considered a high school diploma. This is considered an alternate high school credential.
C	Occupational program certificate	A certificate or diploma awarded for attending a non-correspondence vocational, technical, or proprietary school for at least 6 months. An individual so coded must also have completed 11 years of regular day school. This is considered an alternate high school credential.
7	Correspondence school diploma	A secondary school diploma or certificate awarded upon completion of correspondence school course work, regardless of whether the diploma was issued by a correspondence school, a State, or a secondary or post secondary educational institution. This is considered an alternate high school credential.
J	High school certificate of attendance	An attendance-based high school certificate or diploma. These are sometimes called certificates of competency or completion but are based on course completion rather than a test such as the GED or CHSPE. A State or locally issued secondary school diploma obtained solely on the basis of an attendance credential is not considered a high school diploma. This is considered an alternate high school credential.

H	Home study diploma	A secondary school diploma or certificate, typically awarded by a State, based on certification by a parent or guardian that an individual completed his or her secondary education at home. This is considered an alternate high school credential.
X	ARNG Challenge Program GED certificate	A GED certificate awarded at the completion of the National Guard Challenge Program. This is considered an alternate high school credential.
5	Other non-traditional high school credential	A secondary school credential issued for completion of an alternative school/program that differs in course content and curriculum from a traditional high school diploma program. This is considered an alternate high school credential.
B	Adult education diploma	A secondary school diploma awarded on the basis of attending and completing an adult education or “external” diploma program, regardless of whether the diploma was issued by a State or by a secondary or post secondary educational institution.
F	Completed high school	Completed high school but did not pass the state-mandated high school exit (competency) exam.
