United States Code, Title 10

Purpose. In accordance with the authority in DoD Directive 5124.02, this DTM:

- Establishes policy and implements DES business process improvements developed under the guidance of the Medical Personnel Executive Steering Committee as approved on May 3, 2019.
- Supersedes any inconsistent guidance in DoD Instruction 1332.18 and Volumes 1 and 2 of DoD Manual 1332.18.
- This DTM is effective February 12, 2020; it will be incorporated into DoD Instruction 1332.18, and Volumes 1 and 2 of DoD Manual 1332.18. This DTM will expire effective February 12, 2022.

Applicability. This DTM applies to OSD, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense.

Definitions. See Glossary.

Policy. It is DoD policy that:

- The requirement to offer an appeal of the recommendation of the Formal Physical Evaluation Board is eliminated from the DES process for all cases referred after March 1, 2020. This change applies to both the Legacy DES (LDES) and Integrated DES (IDES) processes. This change does not affect a Service member's ability to appeal the Formal Physical Evaluation Board decision to the Board for the Correction of Military/Naval Records of the Military Department concerned.
- A multi-disciplinary briefing (MDB) should be completed prior to the Service member meeting individually with the Department of Veterans Affairs (VA) Military Service Coordinator or within 10 days of referral into the LDES. The MDB will:
 - Establish Service member expectations.
 - Prepare Service members for each stage of the DES process.
 - Inform Service members of what is expected of them during the DES process.
- The MDB must be included for all cases referred after March 1, 2020. This change applies to both the LDES and IDES processes.
- The Military Departments will determine Service member fitness. In parallel, the VA will assign ratings to all referred and claimed conditions and provide the recommended ratings to the Military Department upon completion. This

process change applies only to the IDES and will be implemented incrementally, reaching full implementation by December 31, 2020.

Responsibilities.

- Assistant Secretary of Defense for Health Affairs. Under the authority, direction, and control of the Under Secretary of Defense for Personnel and Readiness, the Assistant Secretary of Defense for Health Affairs:
 - Provides the minimum standards for the MDB.
 - Collaborates with the Under Secretary for Benefits, Department of Veterans Affairs, to provide detailed guidance regarding parallel processing implementation.
- Secretaries of the Military Departments. The Secretaries of the Military Departments:
 - Develop and utilize a standardized briefing based on, but not limited to, the minimum requirements for the MDB.
 - Develop and implement the necessary procedures to implement parallel processing.

Summary of Change 1. This administrative change updates the expiration date to February 12, 2022.

Releasability. Cleared for public release. Available on the Directives Division Website at <https://www.esd.whs.mil/DD/>.
