

# **NATIONAL DEFENSE BUDGET ESTIMATES - FY 1997**

This document is prepared and distributed as a convenient reference source for the National Defense budget estimates for FY 1997. It also provides selected current and constant dollar historical time series for National Defense, the total Federal Budget, and the U.S. economy.

**OFFICE OF THE UNDER SECRETARY OF DEFENSE  
(COMPTROLLER)**

## STATISTICAL CHANGES IN THE PRESENTATION OF NATIONAL DEFENSE DATA

### RETIRED PAY/ACCRUAL

For the years FY 1945-FY 1984, the DoD budget authority and outlay tables in this book show military retired pay on a cash basis. After FY 1984, both budget authority and outlays reflect only the accrual cost of military retirement. In all of the Office of Management and Budget (OMB) historical tables which show National Defense budget authority and outlays, the actual military retired pay accounts have been moved from the DoD Military Function (051) to the Income Security Function (600), and have been replaced with an imputed estimate for military retired pay accrual in Function (051).

### RETIRED PAY ACCRUAL ADJUSTMENTS

In 1990, updated actuarial assumptions reduced the retired pay accrual normal cost percentage (NCP) for full-time and part-time personnel. The effect is a decrease of about \$2.5 billion annually beginning in FY 1990. This adjustment is treated as a price change and not as a programmatic change and the military pay deflators have been adjusted accordingly.

### FEDERAL EMPLOYEES' RETIREMENT SYSTEM (FERS) ADJUSTMENTS

The additional costs for retirement contributions due to enactment of the Federal Employees' Retirement System (FERS) Act of 1986, P.L. 99-335, are included as inflationary increases and the DoD deflators have been adjusted accordingly.

### CHANGE IN ACCOUNT STRUCTURE

In FY 1992 and FY 1993, funds were appropriated in Defense accounts which supported domestic, rather than defense programs. Using the rules and definitions in the Budget Enforcement Act, OMB scored these appropriations in the correct domestic functions rather than in the DoD military function (051).

Chapter one of this book displays the DoD Military Function (051) and National Defense Function (050) and, in order to agree with OMB scoring rules, **excludes** these domestic amounts. The other chapters in this book display the DoD budget request and **include** these amounts.

## CHANGES IN SCOREKEEPING

Rescissions: Before the amended FY 1989 budget was submitted, rescissions of prior year unobligated balances were reflected as adjustments only against TOA in the applicable program year. However, since then, both the Congressional Budget Office (CBO) and OMB score such rescissions as reductions to current year Budget Authority with one large exception.

\$15 billion was appropriated for the Persian Gulf Regional Defense Fund in FY 1991. Only \$304 million was transferred to other defense accounts to offset Operation Desert Storm costs. The balance of \$14,696 million was rescinded and FY 1991 BA was reduced rather than reducing BA in the current year.

Reappropriations: Reappropriations previously were scored as new Budget Authority in the year of legislation. However, in presenting the amended FY 1989 budget, CBO and OMB directed scoring of reappropriations as Budget Authority in the first year of new availability [first year after original availability would lapse].

## GROSS NATIONAL PRODUCT and GROSS DOMESTIC PRODUCT

In December 1991, U. S. national income and product accounts (NIPAs) shifted emphasis from the Gross National Product (GNP) to the Gross Domestic Product (GDP). Both GNP and GDP measure output at market prices, but in a slightly different manner.

GNP measures the market value of all goods and services produced during a particular time period by U.S. individuals, businesses and government; it includes income earned by U.S. owned corporations overseas, by U.S. residents working abroad, but excludes income earned in the United States by residents of the rest of the world.

GDP measures the market value of all goods and services produced during a particular time period by individuals, businesses and government in the United States, whether they are U.S. or foreign citizens or American owned or foreign owned firms; it includes income earned by U.S. owned corporations overseas, by U.S. residents working abroad, but excludes income earned in the United States by non-U.S. residents.

All price indices in Chapter 7 are based on the GDP. The distinction between GNP and GDP is not very great for the United States because relatively few U.S. residents work abroad and U.S. earnings on foreign investments are about the same as foreign earnings in the United States.

## ROUNDING

All tables in this book may not add due to rounding.

## CHAPTER 1

### NATIONAL DEFENSE - AN OVERVIEW

This chapter provides an overview of the National Defense function of the federal budget. The National Defense Function (function 050) includes: DoD military activities (subfunction 051); the atomic energy defense activities of the Department of Energy (subfunction 053); and defense related activities of other federal agencies (subfunction 054). Data are provided in three standard budget categories: budget authority (BA), total obligational authority (TOA), and outlays. These categories are defined below.

#### DEFINITIONS

Budget Authority -- BA is the authority to incur legally binding obligations of the Government which will result in immediate or future outlays. Most Defense BA is provided by Congress in the form of enacted appropriations.

Total Obligational Authority -- TOA is a DoD financial term which expresses the value of the DIRECT Defense program for a fiscal year. TOA may differ from BA for several reasons, including:

(1) BA lapsing before obligations were incurred (decreasing TOA with no effect on BA).

(2) Proposed or enacted legislation transferring unobligated balances for which the purpose of the balances has changed. Scoring rules require that such a transfer be reflected as a change in BA in the year in which the transfer occurs (reduction of BA in the losing account, increase of BA in the gaining account). TOA is adjusted in the original program, regardless of when the transaction occurs.

(3) Reappropriations (the extension of availability of previously appropriated funds). Reappropriations are scored as BA in the first year of extended availability. TOA is unchanged.

(4) Rescissions (Congressional action cancelling new budget authority or unobligated balances). Scoring rules require that rescissions be scored as reductions in budget authority in the fiscal year in which the rescissions are enacted. TOA is adjusted in the program year of the rescinded funds. If rescissions are proposed in the budget, they would be reflected as if enacted.

(5) Net Offsetting Receipts (collections from the public that arise out of the business-type or market-oriented activities of the Government and are deposited in receipt accounts). Net

offsetting receipts are deducted from BA but have no effect on TOA.

Outlays -- Outlays, or expenditures, are the liquidation of the Government's obligations. Outlays generally represent cash payments.

Outlays in a given fiscal year may represent the liquidation of obligations incurred over a number of years. There is a time lag between budgeting funds (congressional appropriation), signing contracts and placing orders (obligations), receiving goods or services and making payments (liquidating obligations). For major acquisition and construction programs, the Department operates under a "full funding" policy. Under full funding, Congress approves, in the year of the request, sufficient funds to complete a given quantity of items, even though it may take a number of years to actually build and deliver these items. Thus, in extreme cases (such as building an aircraft carrier), final outlays may be recorded a decade after the budget authority for the program is approved.

**BUDGET SUMMARY TABLES**

Table 1-1 presents the budget request for the National Defense Function in the terms defined previously. Data are provided in both current and constant FY 1997 dollars.

Table 1-2 provides the long-range forecast through FY 2001 for the National Defense Function in both current and constant FY 1997 dollars.

Table 1-3 provides the National Defense Budget Authority request, by Appropriation Act, in current dollars.

Table 1-4 provides the National Defense Budget Authority estimate, by Appropriation Act, in constant FY 1997 dollars.

Table 1-5 provides the National Defense Outlays estimate, by Appropriation Act, in current dollars.

Table 1-6 provides the National Defense Outlays estimate, by Appropriation Act, in constant FY 1997 dollars.

Table 1-7 provides Budget Authority for all functions of the total Federal Budget for fiscal years 1995 through 2001. The functions are those used in the Budget of the United States, which is the source document for this table.

Table 1-8 provides Outlays for all functions of the total Federal Budget for fiscal years 1995 through 2001 in the same format as Table 1-7.

Table 1-9 provides a reconciliation, for fiscal years 1994 through 1997, from the Defense Appropriations and Military Construction Acts to National Defense BA and Outlays as shown in the President's Budget request, in both current and constant FY 1997 dollars.

Table 1-10 provides incremental Desert Shield/Desert Storm Budget Authority and Outlays by Appropriation Title for FY 1990-FY 1998.

**NOTE:** All financial tables in this document contain the incremental costs of Desert Shield/Desert Storm, unless specifically noted otherwise.

**FY 1997 BUDGET**

Table 2-1 shows the Budget Authority and Outlays associated with contingency estimates for the National Defense function in the budget. These contingency estimates represent the costs and/or savings associated with legislation proposed by the Administration to include rescissions, asset sales and other legislative proposals. The contingency estimates may also include the outlays scored against DoD's general transfer authority and other technical adjustments.

### CHAPTER 3

#### LEGISLATIVE AUTHORIZATIONS

Authorization is substantive legislation which provides the authority for an agency to carry out a particular program. Authorization may be annual, for a specified number of years, or indefinite. Most National Defense activities require annual authorization before funds may be appropriated by the Congress. Of the total FY 1996 Department of Defense request, 73% requires annual authorization by the House Committee on National Security and the Senate Armed Services Committee. The largest amount in the request not requiring annual authorization is military pay; military end strength, rather than military pay, is authorized.

Table 3-1 provides a reconciliation between the FY 1997 DoD Authorization Request, Appropriation Request, Budget Authority, and Total Obligation Authority.

Table 3-2 presents personnel authorizations enacted for FY 1994 and FY 1995, as well as the FY 1996 and FY 1997 budget requests for DoD. Selected Reserves are shown as end strength in accordance with Congressional direction.

## CHAPTER 4 CHRONOLOGIES

Chronologies have assumed much greater importance because of the scorekeeping provisions of the Congressional Budget and Impoundment Act.

Table 4-1 provides a chronology of FY 1995 National Defense budget authority, beginning with the FY 1995 budget estimate submitted to Congress in February, 1994. This estimate is shown with congressional action, rescissions and the emergency supplemental, requested to cover the costs of various contingency operations, and transfers which all occurred during CY 1994 and resulted in the FY 1995 column of the FY 1996 budget submitted to Congress in February 1995. Finally, reappropriations/rescissions, contract authority and other actions are shown which resulted in the FY 1995 column of the FY 1997 budget request.

Table 4-2 provides a chronology of FY 1996 National Defense budget authority, beginning with the FY 1996 budget estimate submitted to Congress in February, 1995. This estimate is shown with congressional action, rescissions/reappropriations and transfers which all occurred during CY 1995 and resulted in the FY 1996 column of the FY 1997 budget submitted to Congress in March, 1996.

## CHAPTER 5

### PAY RAISES, PRICE INCREASES, AND TREATMENT OF INFLATION

#### DEFINITIONS

##### Inflation

**Inflation** is an increase in the general level of prices in the economy. Inflation does not mean that prices rise evenly or that all prices are rising. Some prices may be constant and others actually may be falling. Prices of some commodities rise faster than others because of differences in the magnitude and direction of changes in supply and demand in various markets. There are many different measures of inflation:

a. GDP Implicit Price Deflator

The **Gross Domestic Product (GDP) implicit price deflator**, generally regarded as the best single measure of broad price movements in the economy, is the ratio of GDP in current prices to GDP in constant prices.

b. Consumer Price Index

The **Consumer Price Index (CPI)** measures the average change in the prices of a fixed list of goods and services purchased by families and individuals in urban areas across the country. Although it is often called the "Cost-of-Living Index" it measures only price changes, just one of several factors affecting living costs.

c. DoD Purchase Index

The **DoD Purchase Index** developed by OUSD(C) consists of outyear projections based upon fiscal guidance from OMB linked to actual DoD purchase price experience calculated by the Commerce Department's Bureau of Economic Analysis (BEA).

##### Base Year

The **Base Year** is a point of reference representing a fixed price level, and is expressed as 1.00 (e.g., FY 1997 = 1.00). The base year for a set of index numbers can be changed to another year by dividing each number in the series by the index for the desired base year.

##### Aggregate Price

The **Aggregate Price** is a weighted average of individual prices, where each price is weighted by an item's contribution to total

expenditures. The aggregate price is thus a notional price developed to measure changes in inflation and is greatly affected by the relative mix of the items considered, and the change of that mix over time.

### Annual Rate of Change in Prices

The Annual Rate of Change measures the year-to-year change in prices, computed by dividing one year's aggregate price by the preceding year's aggregate price.

### Index

An Index is a component of a time series which measures the change in prices from a fixed point in time, and is calculated by setting the base year equal to one, and then multiplying the index value of each year by one plus the annual rate of change of the next year.

### Current Dollars

An item or service is priced in Current Dollars if the prices contain all inflationary increases expected to occur in a program over the duration of the spendout of an appropriation. Current dollars are also called "then year" dollars, "budget" dollars or "fully inflated" dollars.

### Constant Dollars

Constant Dollars measure the value of purchased goods and services at price levels which are the same as the base or reference year. Constant dollars do not contain any adjustments for inflationary changes that have occurred or are forecast to occur outside the base year.

### Real Growth

Real Program Growth - the year-to-year change in constant dollars - is usually expressed as a percentage, and is computed by dividing the constant dollars for one year by the constant dollars of the previous year and subtracting one. Real growth always implies a relationship between two or more time periods.

### Spendout Rates

Spendout Rates (also called outlay or expenditure rates) are the expected cash flow for a given appropriation expressed as the percent expected to be spent in a given year. These rates are appropriation unique and range from two years in the pay accounts to as much as ten years in ship construction.

### Outlay Index

An **Outlay Index** measures the impact of changes in inflation on outlays; is used to convert outlays from current to constant dollars; is used to compute the amount of inflation to be added to a base price; and is used to reprice estimates when inflation assumptions are revised. An index for outlays is calculated by compounding annual rates from any base year.

### TOA Index

A **TOA Index** measures the impact of changes in inflation on TOA, given a specific fiscal year and phasing of work performed (or outlays), and is usually developed using the standard outlay rates for an appropriation. The TOA index measures the budgeted change of inflation from a fixed point.

### **TABLES**

Table 5-1 Provides inflation indices, in base year FY 1997, for selected economy-wide measures as a comparison of inflation in DoD with that in the general economy.

Table 5-2 Provides the pay and inflation assumptions used in the FY 1997 budget for DoD outlays. These rates are based on OMB guidance which reflects the change in the GDP deflator. The historical inflation rates for fuel are based on the change in the cost per gallon paid by the customer to the stock fund while the outyear forecasts of fuel increases are based on the Administration's estimate of Refiners Acquisition Cost (RAC). Inflation estimates for all other purchases are in line with the GDP deflator.

Table 5-3 Provides pay and inflation assumptions used in the FY 1997 budget for DoD BA. The pay raises are annual rates and the same as Table 5-2. The purchases rates are based on the annual outlay rates in Table 5-2 converted to BA using the spendout profiles published in Table 5-11.

Table 5-4 Provides inflation indices in base year FY 1997 for each DoD appropriation title to be used in converting TOA from current to constant FY 1997 dollars.

Table 5-5 Provides inflation indices in base year FY 1997 to be used in converting pay and purchases TOA from current to constant FY 1997 dollars.

Table 5-6 Provides inflation indices in base year FY 1997 for each DoD appropriation title to be used in converting BA from current to constant FY 1997 dollars.

Table 5-7 Provides inflation indices in base year FY 1997 to be used in converting pay and purchases BA from current to constant FY 1997 dollars.

Table 5-8 Provides inflation indices in base year FY 1997 for each DoD appropriation title to be used in converting outlays from current to constant FY 1997 dollars.

Table 5-9 Provides inflation indices in base year FY 1997 to be used in converting pay and purchases outlays from current to constant FY 1997 dollars.

Table 5-10 Provides a chronology of inflation estimates since January 1976, and shows that the estimated inflation rate for a given year is revised many times before it becomes actual.

Table 5-11 Provides the outlay rates used in developing outyear inflation factors for estimating future costs of Defense purchases. These rates, which are derived from the rates used to develop the overall outlay estimates, do not allow for lapses in the accounts and only reflect the spending profile for Defense purchases, excluding fuel. The rates used to estimate total Defense outlay levels reflect spending patterns of the total account, including pay and fuel.

Table 5-12 Provides military and civilian [general schedule] pay increases from 1945 to the pay raises assumed in the FY 1997 budget request.

Table 5-13 Provides pay indices in base year FY 1997 for each component of civilian pay in DoD. Separate rates are maintained for general schedule [GS], wage board [WB], direct hire foreign national [DHFN], and indirect hire of foreign national [IHFN].

1/ FY 1994 civilian pay raises are 3.6% for General Schedule personnel receiving locality pay and 2% for Wage Grade personnel.

## CHAPTER 6

### TOA, B/A, AND OUTLAY TRENDS AND PROGRAM CHANGES

The tables in this chapter provide the data series that are useful in analyzing historical trends in defense spending. Consistent with the other financial summaries in this book, these data series have not been normalized for any of the Desert Storm costs that are shown in Table 1-10.

Table 6-1 provides DoD TOA by appropriation title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-2 provides DoD TOA by pay, non-pay operations and investment from FY 1946-FY 1997 in both current and constant FY 1997 dollars. This format aggregates the DoD investment and non-pay operations costs on separate lines.

Table 6-3 provides DoD TOA for each Military Service and Defense-wide activities from FY 1946-FY 1997 in both current and constant FY 1997 dollars. The Defense-wide totals include all items in the Defense budget that are not identified to a specific Military Service and include Retired Pay, Defense (until FY 1984); Contingencies, Defense; and Claims, Defense and all costs associated with the activities of the various Defense Agencies. Beginning in FY 1983, Family Housing costs are allocated to the Military Departments, and in FY 1985, the military retired pay costs were budgeted by the Services in their Military Personnel accounts.

Table 6-4 provides TOA by major force program from FY 1962-FY 1997 in current dollars.

Table 6-5 provides TOA by major force program from FY 1962-FY 1997 in constant FY 1997 dollars.

Table 6-6 provides appropriation account summaries for FY 1994-FY 1997 TOA, BA and outlays in current dollars.

Table 6-7 provides appropriation account summaries for FY 1994-FY 1997 TOA, BA and outlays in constant FY 1997 dollars.

Table 6-8 provides DoD Budget Authority by appropriation title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-9 provides DoD Budget Authority by pay, non-pay operations and investment from FY 1946-FY 1997 in both current and constant FY 1997 dollars. This format aggregates the DoD investment and non-pay operations costs on separate lines.

Table 6-10 provides DoD Budget Authority for each Military Service and all Defense-wide activities from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-11 provides DoD Outlays by appropriation title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-12 provides DoD Outlays by pay, non-pay operations and investment from FY 1946-FY 1997 in both current and constant FY 1997 dollars. This format aggregates the DoD investment and non-pay operations costs on separate lines.

Table 6-13 provides DoD Outlays for each Military Service and all Defense-wide activities from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-14 provides DoD Civilian pay in current dollars.

Table 6-15 provides DoD Civilian pay in constant FY 1997 dollars.

Table 6-16 provides Army TOA by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-17 provides Navy TOA by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-18 provides Air Force TOA by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-19 provides Army Budget Authority by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-20 provides Navy Budget Authority by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-21 provides Air Force Budget Authority by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-22 provides Army Outlays by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-23 provides Navy Outlays by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

Table 6-24 provides Air Force Outlays by title from FY 1946-FY 1997 in both current and constant FY 1997 dollars.

## CHAPTER 7

### DEFENSE, THE PUBLIC SECTOR, AND THE ECONOMY

The data for the National Defense Function shown in Tables 7-1 and 7-2 are consistent with the OMB treatment of military retirement in all years.

Table 7-1 provides Federal outlays from FY 1945-FY 2001, grouped by: National Defense; Veterans, Space and International Programs; Net Interest; and Social and Economic programs. The Social and Economic category includes the following functions: General Science and Technology (excluding space programs); Natural Resources and Environment; Energy; Agriculture; Commerce and Housing Credit; Transportation; Community and Regional Development; Education, Training, Employment and Social Services; Health; Income Security; Administration of Justice; General Government; Revenue Sharing and general purpose fiscal assistance.

Table 7-2 provides these data in constant FY 1987 prices.

Table 7-3 provides a breakdown of net U.S. public spending by federal, state, and local components from FY 1945-FY 1997. This excludes government enterprises (such as the postal service, utilities, and liquor stores) except for any support these activities receive from tax funds.

Table 7-4 provides these data in constant FY 1987 prices.

Table 7-5 provides DoD military and civilian workforce data by component and DoD industry related employment for 1940-1997.

Table 7-6 provides U.S. employment and labor force data for FY 1940-FY 1997.

Table 7-7 is a master percentage table which provides DoD and national defense spending as a percentage of various economic and budgetary aggregates, including DoD and national defense outlays as a percentage of the Federal Budget and of net public spending; DoD employment as a percentage of public employment and the total labor force; and the defense share of GDP on a budget basis.

NOTE: The data formerly found in Table 7-5 are no longer provided due to the comprehensive revision in the National Income and Product Accounts which changed definitions and account classifications as well as series statistics. As a result, the detailed information from which this table was developed were not available, and the reader is referred to BEA for additional information.

Air Force civil service employment is included in the Army prior to 1948 and identified separately thereafter. Beginning in 1953, the civilian work force figures include both U.S. and foreign national direct hires and the foreign national indirect hire employees that support U.S. forces overseas.

Navy reserve personnel on active duty for Training and Administration of Reserves (TARS) are included in the active Navy prior to FY 1980 and in the Full-Time Guard and Reserve thereafter. Active Duty Military includes the activation of 25,652 National Guard and Reservists in FY 1990 pursuant to sections 673b, Title 10 U.S.C., 17,059 National Guard and Reservists in FY 1991 and 954 National Guard and Reservists in FY 1992 pursuant to sections 672 and 673, Title 10 U.S.C., to support Operation Desert Shield/Desert Storm.
