These people will all be involved in a new effort to provide advice on democratization and governance. They will advise Jay Garner directly.

Their experience and expertise in democratization, elections, and other aspects of political development make them uniquely qualified for this mission.

Gentlemen,

Crosswalking the names below, with the ORHA table of organization, Civil Admin, National Governance, etc...

[REDACTED]

Can't find open positions for them. It is not a problem if we're doing an overhire to cover gaps in earlier planning, or any other good reason, but I've got to know that:

- (1) this is a valid requirement,
- (2) what it is we expect these folks to do, and
- (3) why they're the only ones adequate for our requirements.

I don't need the complete history of the requirement, starting with Hammurabi's stone, but I do need more than a list of names in order to write a SOW and J&A. If you'll pass me what info you can, soonest, I'll start writing and pulling the package together.

Thanks much.
