Subject: Sitrep: Meeting with Prisons Personnel and action

Importance: Low

- **Issue:** To provide medical and dental care for the current prison population. Mr [REDACTED] and I met with [REDACTED] of Prisons at 09.00hours.

Discussion

Discussed current prison population and timetable for the opening of further detention centers and prison facilities up the end of the calendar year focusing on Baghdad. Overall there should be a total of 15 institutions in Iraq -8 prisons and 5 detention centers with a total of 11,078 places (beds). Of these 450 are likely to be female places. The current prison/detainee population in Baghdad is c. 300 of whom half are juveniles in detention. Mr [REDACTED] outlined general condition of the institutions outlined.

Immediate requirement is two doctors and one dentist for the Al-Tasferat Detention Centre on Baghdad. Mr [REDACTED] and [REDACTED] committed to immediate action here.

Action

[REDACTED] and I discussed with Dr Al Hardan (a nutrition expert in charge of military doctors) at the MOH who with me located Dr Shakir and secured his agreement to the Prison Services request, with immediate effect. One community physician (Dr Hussein) has already signed up. The remaining doctor and dentist will be appointed by tomorrow. They should begin work 29/30 June, for an initial period of three months. I have prepared a draft notification of these appointments for the prison governor B.General Ahmed Abbas Al-Kaisi. This sets out the terms and conditions of work and outlines the security arrangements we expect to be put in place for these newly appointed prison clinicians. Further update 29/06.

Grid coordinates for the property.

Provide a written description of the property, including the buildings and entities that are located in the surrounding area and any thoroughfares and public services located nearby, such as hospitals, courts, police stations, etc.:

The property is an Iraq prison called Al Salhya for adult female and juvenile pre-trial and sentenced prisoners. It is located in northwestern Baghdad. It was previously operated by the Iraq Intelligence Agency (Secret Police) and has now been opened by the military as a 100 bed women's adult and juvenile prison and detention center. The prison is within a walled compound located behind the former Secret Police headquarters building which was badly damaged during hostilities by coalition forces. The wall along the northern and western sections of the prison compound has been damaged and approximately eight families have taken up residence within the prison compound. The military has separated the prison compound from the squatters by using only concertina wire. This has created a very difficult and potentially dangerous situation having these eight families now living within this operating prison compound. As soon as the families are removed, the walls that have been breached will once again be rebuilt and appropriate security provided. This was the first prison/detention center opened within Baghdad by the military and Ambassador Bremer participated in a ribbon cutting ceremony. Today, approximately 30 female prisoners and 35 juvenile detainees are housed at this facility. The badly damaged former Secret Police headquarters is considered structurally unsound and dangerous for the squatters living in that area. There is an Iraq police station in close proximity to the prison.

Provide a description of the conditions of any building or other structures on the property (any FAS and other assessments that have been done on the property or the structure should be provided as attachments):

The 18th MP Brigade previously hired civilian contractors to rebuild the prison housing unit located within the prison compound. Once the eight families are removed, there will be a FES team evaluation for repairs to the compound walls and office structures now occupied.

Provide any available information identifying the property as public property (to include Ba'aath Party property), including the government entity that is the registered owner of the property, a description of the prior use of the property, situational details, etc.

Prior to hostilities, this prison site was owned and operated by the Iraq Secret Police prior to hostilities. It has been Iraq government property long before the war. Now that the Ministry of Justice has assumed responsibility for Iraqi detention centers and prisons, this

property should now be owned by the Ministry of Justice which and been given the responsibility to operate, manage and supervise all of Iraq's prisons and detention centers

Provide an inventory of any movable property, including any furnishings and equipment and a description of the condition of each item as good, fair, or poor.

Because the property is presently occupied by eight Iraqi families, it is impossible to determine any inventory of movable property, furnishings and equipment. It is anticipated that any previous movable government property has been looted and/or stolen during or shortly after hostilities ended.

Provide a description of why this property was chosen and whether any other properties were considered.

Prior to hostilities, this was an Iraqi prison complex. Since major hostilities ended, the military, specifically the 18th MP Brigade, refurbished and reactivated this facility as an operational detention facility and prison. The 800th MP Brigade has just assumed operational responsibility for the prison complex from the 18th MP Brigade.

If there are any current occupants in the property, how many are there and what organization, if any, are they associated with?

The property is currently occupied by approximately eight Arab families, approximately 30 adults and children. They now occupy all existing buildings and have erected temporary structures on the prison grounds. They appear to be homeless and not associated with any organization. Also they have moved into the prison compound area looted vehicles and appear to be living inside these vehicles.

Use Information:

Describe any capital improvement plan(s) for the property, including costs, timing, and resources and supplies for capital improvements:

As previously stated, the plans for this prison facility are first to repair the damaged compound exterior walls which provide security for the at the existing prison housing compound.

What type of activities will be conducted on the property?

This prison complex will house pre-trial and sentenced adult female prisoners that have committed serious crimes, and juveniles until a separate juvenile facility can be established or reactivated.

How many people are expected to use the building?

Initially, the property will provide prison housing for approximately 100 serious convicted female offender and juvenile detainees. In the future the prison facilities will be expanded to meet the needs of the criminal justice system.

Kanban'i Saad prison sites on 28 June. We concluded that the only expeditious way to realize a safe maximum-security facility is to rehabilitate Abu Ghraib cell blocks, which could contain four thousand maximum-security prisoners within twelve months. No other facility could be established in appreciably less than three years. We have therefore already begun the first phase of reconstruction at Abu Ghraib.

All agree that Abu Ghraib's deservedly horrid reputation counsels against perpetuation of its use as a prison any longer than operational necessity demands. But the only alternatives we have available are even less palatable. Immediate reconstruction can and should therefore begin for a maximum-security facility at Kanban'i Saad, the next fastest alternative, for completion in three years or less. This would signal to Iraqis the phasing-out of Abu Ghraib, part or all of which should be turned into a memorial for those who suffered there. Ex-prisoner groups have expressed an interest in helping to establish such a memorial.

RECOMMENDED ACTION

That you approve the rehabilitation construction of a maximum-security prison facility already underway at Abu Ghraib and immediate ground-breaking for a replacement facility at Kanban'i Saad.

1 July 2003

TO: Presidential Envoy L. Paul Bremer
Administrator, Coalition Provisional Authority

FROM: Judge Donald F. Campbell
Senior Advisor, Ministry of Justice 

SUBJECT: Maximum-security prison

SUMMARY AND PURPOSE

A maximum-security prison is urgently needed. Only Abu Ghraib prison could safely house an appreciable number of high-security detainees within three years. I therefore recommend that you approve reconstruction of temporary maximum-security cell blocks at Abu Ghraib, despite its grim reputation, pending construction of a new maximum-security facility at Kanban'i Saad. A memorial should be located at Abu Ghraib as soon as possible, with appropriate notice to the public.

DISCUSSION

As we discussed last week, the Coalition lacks a maximum-security prison for high-security detainees. Currently such detainees can only be confined at temporary facilities using tents and razor wire barriers. As you are aware, the deficiencies in such facilities have occasioned a number of demonstrations, riots and breakout attempts, resulting in two prisoners killed and over thirteen injured. Although to my knowledge no Coalition soldiers have been seriously injured, they are at grave risk.

Several alternatives for providing a maximum-security prison were investigated by  and  of the CPA Prisons Department--whose combined experience working in and operating prison systems exceeds a half-century--and myself. Those alternatives are outlined in the attached memorandum from

* Mr.  the Senior Prisons Consultant, has been in the prison Service of Northern Ireland for a total of 31 years and has been prison Governor for the Maze, Belfast and Maghaberry high security prison facilities. He has also served as the Director of the Penal Management Division of the UN Operation in Kosovo for the past four years. Mr.  holds a Master's Degree in Crime and Corrections and has served as the head of the Fort Leavenworth Prison Facility. He also was in charge of the Prison systems in Texas (four years), New Mexico (four years) and Utah (six and one half years). Mr.  has an MBA and has completed his course work for a PhD in Public

A near abandoned prison site is also considered an ideal location for future construction of a replacement maximum security prison(s) for the Abu Ghraib Prison complex. The complex is very large and has the potential capability of providing separate prison compounds to support the future Iraq criminal justice system's needs. Construction time for a new secure maximum security prison on this complex is estimated to be approximately thirty to thirty-six months.

Therefore, it is again strongly recommended that action be taken to relocate the Arab families occupying the site, and that the military secure this site so that planning and assessments can proceed in the near future.

c. No other prisons found throughout the country of Iraq are capable of housing maximum security inmates.

2. Other Alternatives.

New Construction. The team has recommended that a minimum of three (3) maximum security 3,000 bed modern modular designed state-of-the-art prisons be constructed throughout Iraq. The first one in the central area (Baghdad), and duplicates built in northern and southern Iraq. It is estimated that each of these prisons will cost approximately \$180 to \$200 million, and take 30 to 36 months to complete. This is considered to be the long-term permanent solution to fully support the needs of a fully operational criminal justice system.

Prefab cell Housing. The team is currently collecting information and data on the feasibility of bringing into Iraq prefab maximum security cell housing that can be placed in a timely manner to support the growing needs of the criminal justice system. There are companies that prefab cells that can be brought in and set in place, connected to sewer, water, electrical systems and be in operation quickly. Normally these systems are used to expand existing facilities. A US/UK company has been contacted for information. It is unknown if quantities of such prefab cells are available, how long it would take to obtain this type of housing, and what the costs of such construction would be. We hope to be able to have answers to these questions in the near future. This information may be available by the close of business on 26 June 2003

Prison ships/barges. The team is attempting to gather information on the feasibility of obtaining prison ships/barges that could be placed in the area of the Port of Um-Qasser. It is unknown if any such ships or barges exist that would be available within the near future, the cost of such a facility, and the ability to have the ship brought to Iraq. One team member has in the past researched this option and determined that it takes 12-18 months to build a prison ship or barge.

TO: Judge Donald Campbell

FROM: [REDACTED] Department of Prisons

SUBJECT: Alternatives for Maximum Security Prison Facilities

We are continuing to examine potential alternatives for housing maximum security and dangerous detainees/inmates in lieu of using the maximum security compounds located at the Abu Ghraib Prison complex for the shortest possible timeframes.

1. Review of existing assessed prison facilities earmarked for re-activation to support the Iraq criminal justice system currently and in the short term.

a. Al Hakmia (116 maximum security beds)

This prison complex was operated by the Iraq Internal Security Agency, commonly called the Secret Police. This facility housed high security "political" and foreign prisoners. It also obviously served as a major headquarters for the Agency. All buildings are brick/masonry structures with a plaster finish. The four-story main structure is the housing areas for all prisoners as well as a large administrative headquarters. Prisoner housing was on the 3rd and 4th floor levels. The third floor consists of 50 cells. Each cell was 9' x 9'. This cell block can accommodate 100 maximum security prisoners. The fourth floor consists of 8 additional maximum security cells. This facility can provide a total of 116 maximum security beds for high custody or dangerous inmates.

b. Kanban'i Saad Prison.

In the assessment team's initial inspection on May 24th of this new prison that was under construction when the coalition forces began hostilities, there were 20 new cell blocks in two compounds that provided approximately 2,800 secure beds. Following the initial phase of hostilities, 153 Arab families moved into the complex. By June 12th, these Arabs had substantially disassembled the walls and structures rendering the facility unusable. Even though the structures have been mostly destroyed and cannot be refurbished for use in the immediate or short terms, there are foundations, infrastructure and some cell block structures that can be renovated and rebuilt. It would be necessary to relocate the Arab families in order to do a thorough estimate of what is needed to rebuild the cell blocks for permanent use. Although the team has not been able to do a complete assessment of the complex, it is estimate that the previously existing prison beds could be placed back into operation within twelve to eighteen months.

logistics of transporting high security inmates on a twelve hour trip from Baghdad to southern Iraq. Given the opportunity for escape and ambush, the trip would be extremely labor intensive to insure safety and security of the transporting contingent.

The prison assessment team will continue to explore other alternatives to the use of Abu Ghraid Prison. At this point in time, we have found no other facilities that can provide up to 4,000 maximum security beds between now and the end of this year. The team supports the use of Abu Grab prison only until new facilities can be constructed. The estimated time frame would be 30 to 36 months once approval for new construction is received. Once assessed, perhaps the use of the Kanban'i Saad prison site can shorten the estimated time that a new prison could be constructed and in operation.

Provide a written description of the property, including the buildings and entities that are located in the surrounding area and any thoroughfares and public services located nearby, such as hospitals, courts, police stations, etc.:

The property is a large Iraq prison called Kanban'i Saad, for adult male and female sentenced prisoners. It is located approximately 30 kilometers north of Baghdad. It was a very new large prison complex that was still under construction when hostilities were initiated by coalition forces. The entire complex was protected with a secure wall. Within the interior of the walled complex there were two prisoner compounds. Each compound was enclosed with its own exterior wall. Inside the compounds were 20 prisoner housing units, or cellblocks. Each of the individual cellblocks contained 18 individual multiple cells. Each cell would house up to 8 inmates. Office. Additionally, there were staff housing units constructed along the complex exterior wall.

Provide a description of the conditions of any building or other structures on the property (any FAS and other assessments that have been done on the property or the structure should be provided s attachments):

The Prison Department MOJ assessment team first visited and assessed this prison on May 24th. It was found that two Arab tribes, approximately 150 families had moved into and occupied the entire complex following hostilities. The team identified this prison site as a high priority for renovation and reactivation because of the prison facilities already in place as well as the potential this site offered for the future construction of a modern state-of-the-art maximum security prison. It was recently discovered that the Arab tribes occupying the complex has begun disassembling the outer perimeter walls, the interior compound perimeter walls and the cellblocks themselves. Everyday that they are allowed to stay in the prison site, it can be anticipated that more destruction will take place therefore increasing the reconstruction costs and the time that the prison can be reactivated.

Ambassador Bremer has now rendered a decision requesting that this prison site be reconstructed as soon as possible as a potential replacement for the infamous Abu Ghraib Prison. (See attached decision memorandum) Before we can get a thorough FES team cost assessment and evaluation, the Arab families must be relocated and the site secured by the military. Once the FES team assessment is completed, an OCPA funding request will be completed.

Provide any available information identifying the property as public property (to include Ba'aath Party property), including the government entity that is the registered owner of the property, a description of the prior use of the property, situational details, etc.

Prior to hostilities, this prison site was under construction to eventually house up to 20,000 prisoners in four or more compounds. Only two compounds were completed housing approximately 200 female inmates at the time that the Regime pardoned and released all inmates in custody during the October 2002 timeframe. This prison was being built to relieve overcrowding in Iraq's largest prison, Abu Ghraib Prison. The MOJ prison assessment team has recommended that if Kanban'i Saad Prison can be reconstructed in the short term, and a new prison facility be designed and constructed to support the future needs of the country's criminal justice system within the Kanban'i Saad Prison complex, the Abu Ghraib Prison could be eventually closed and made into a memorial for the Iraqi people. The Kanbani'i Saad Prison was owned and operated under the Ministry of Labor and Social Affairs prior to hostilities. Under the Coalition Provisional Authority, the decision has been made that the Ministry of Justice will now be responsible for the Iraq's prisons and detention centers throughout the entire country.

Provide an inventory of any movable property, including any furnishings and equipment and a description of the condition of each item as good, fair, or poor.

Because the property is presently occupied by two Arab Tribes, approximately 150 families, it is impossible to determine any inventory of movable property, furnishings and equipment. It is anticipated that any previous movable government property has been looted and/or stolen.

Provide a description of why this property was chosen and whether any other properties were considered.

Prior to hostilities, this was an Iraqi prison complex. The Abu Ghraib Prison site is now under renovation to meet the demands of the reactivated criminal justice system; however, because of the many atrocities that occurred over the past thirty years, it is hoped that as soon as Kanban'i Saad Prison can be reactivated and new prison facilities can be constructed, the Abu Ghraib Prison can be deactivated and returned to the Iraqi people for a memorial. No other prison facilities exist within the country of Iraq that can house dangerous, maximum custody prisoners. Kanban'i Saad is ideally located within close proximity to Baghdad and is large enough to provide future prison facilities to support the criminal justice system once it is fully operational.

If there are any current occupants in the property, how many are there and what organization, if any, are they associated with?

The property is currently occupied by two Arab Tribes, approximately 150 families, over 1,000 people. They now occupy all existing buildings included within the prison site.

Use Information:

Describe any capital improvement plan(s) for the property, including costs, timing, and resources and supplies for capital improvements:

As previously stated, the plans for this prison facility are first to reconstruct the existing two compounds, 20 cellblocks to house up to 2,800 inmates. Secondly, planning is ongoing to construct another large modern, state-of-the-art maximum security prison compound on this large site to accommodate future criminal justice system needs.

What type of activities will be conducted on the property?

This prison complex will house sentenced adult male and female prisoners that have committed serious crimes and are considered dangerous to society.

How many people are expected to use the building?

Initially, the property will provide prison housing for approximately 2,800 serious convicted offenders. In the future the prison facilities will be expanded to meet the needs of the criminal justice system.

Mr. [] to me. LTG Sanchez and I visited the Abu Ghraib and severely looted Kanban'i Saad prison sites on 28 June. We concluded that the only expeditious way to realize a safe maximum-security facility is to rehabilitate Abu Ghraib cell blocks, which could contain four thousand maximum-security prisoners within twelve months. No other facility could be established in appreciably less than three years. We have therefore already begun the first phase of reconstruction at Abu Ghraib.

All agree that Abu Ghraib's deservedly horrid reputation counsels against perpetuation of its use as a prison any longer than operational necessity demands. But the only alternatives we have available are even less palatable. Immediate reconstruction can and should therefore begin for a maximum-security facility at Kanban'i Saad, the next fastest alternative, for completion in three years or less. This would signal to Iraqis the phasing-out of Abu Ghraib, part or all of which should be turned into a memorial for those who suffered there. Ex-prisoner groups have expressed an interest in helping to establish such a memorial.

RECOMMENDED ACTION

That you approve the rehabilitation construction of a maximum-security prison facility already underway at Abu Ghraib and immediate ground-breaking for a replacement facility at Kanban'i Saad.

ACTION MEMORANDUM

1 July 2003

TO: Presidential Envoy L. Paul Bremer
Administrator, Coalition Provisional Authority

FROM: Judge Donald F. Campbell
Senior Advisor, Ministry of Justice

SUBJECT: Maximum-security prison

SUMMARY AND PURPOSE

A maximum-security prison is urgently needed. Only Abu Ghraib prison could safely house an appreciable number of high-security detainees within three years. I therefore recommend that you approve reconstruction of temporary maximum-security cell blocks at Abu Ghraib, despite its grim reputation, pending construction of a new maximum-security facility at Kanban'i Saad. A memorial should be located at Abu Ghraib as soon as possible, with appropriate notice to the public.

DISCUSSION

As we discussed last week, the Coalition lacks a maximum-security prison for high-security detainees. Currently such detainees can only be confined at temporary facilities using tents and razor wire barriers. As you are aware, the deficiencies in such facilities have occasioned a number of demonstrations, riots and breakout attempts, resulting in two prisoners killed and over thirteen injured. Although to my knowledge no Coalition soldiers have been seriously injured, they are at grave risk.

Several alternatives for providing a maximum-security prison were investigated by [redacted] of the CPA Prisons Department--whose combined experience working in and operating prison systems exceeds a half-century--and myself. Those alternatives are outlined in the attached memorandum from

* Mr. [redacted] the Senior Prisons Consultant, has been in the prison Service of Northern Ireland for a total of 31 years and has been prison Governor for the Maze, Belfast and Maghabery high security prison facilities. He has also served as the Director of the Penal Management Division of the UN Operation in Kosovo for the past four years. Mr. [redacted] holds a Master's Degree in Crime and Corrections and has served as the head of the Fort Leavenworth Prison Facility. He also was in charge of the Prison systems in Texas (four years), New Mexico (four years) and Utah (six and one half years). Mr. [redacted] has an MBA and has completed his course work for a PhD in Public

The Kanbar Saad prison site is also considered an ideal location for future construction of a replacement maximum security prison(s) for the Abu Ghraib Prison complex. The complex is very large and has the potential capability of providing separate prison compounds to support the future Iraq criminal justice system's needs. Construction time for a new secure maximum security prison on this complex is estimated to be approximately thirty to thirty-six months.

Therefore, it is again strongly recommended that action be taken to relocate the Arab families occupying the site, and that the military secure this site so that planning and assessments can proceed in the near future.

c. No other prisons found throughout the country of Iraq are capable of housing maximum security inmates.

2. Other Alternatives.

New Construction. The team has recommended that a minimum of three (3) maximum security 3,000 bed modern modular designed state-of-the-art prisons be constructed throughout Iraq. The first one in the central area (Baghdad), and duplicates built in northern and southern Iraq. It is estimated that each of these prisons will cost approximately \$180 to \$200 million, and take 30 to 36 months to complete. This is considered to be the long-term permanent solution to fully support the needs of a fully operational criminal justice system.

Prefab cell Housing. The team is currently collecting information and data on the feasibility of bringing into Iraq prefab maximum security cell housing that can be placed in a timely manner to support the growing needs of the criminal justice system. There are companies that prefab cells that can be brought in and set in place, connected to sewer, water, electrical systems and be in operation quickly. Normally these systems are used to expand existing facilities. A US/UK company has been contacted for information. It is unknown if quantities of such prefab cells are available, how long it would take to obtain this type of housing, and what the costs of such construction would be. We hope to be able to have answers to these questions in the near future. This information may be available by the close of business on 26 June 2003

Prison ships/barges. The team is attempting to gather information on the feasibility of obtaining prison ships/barges that could be placed in the area of the Port of Um-Qasser. It is unknown if any such ships or barges exist that would be available within the near future, the cost of such a facility, and the ability to have the ship brought to Iraq. One team member has in the past researched this option and determined that it takes 12-18 months to build a prison ship or barge.

MEMORANDUM

SUBJECT: Alternatives for Maximum Security Prison Facilities

We are continuing to examine potential alternatives for housing maximum security and dangerous detainees/inmates in lieu of using the maximum security compounds located at the Abu Ghraib Prison complex for the shortest possible timeframes.

1. Review of existing assessed prison facilities earmarked for re-activation to support the Iraq criminal justice system currently and in the short term.

a. Al Hakmia (116 maximum security beds)

This prison complex was operated by the Iraq Internal Security Agency, commonly called the Secret Police. This facility housed high security "political" and foreign prisoners. It also obviously served as a major headquarters for the Agency. All buildings are brick/masonry structures with a plaster finish. The four-story main structure is the housing areas for all prisoners as well as a large administrative headquarters. Prisoner housing was on the 3rd and 4th floor levels. The third floor consists of 50 cells. Each cell was 9' x 9'. This cell block can accommodate 100 maximum security prisoners. The fourth floor consists of 8 additional maximum security cells. This facility can provide a total of 116 maximum security beds for high custody or dangerous inmates.

b. Kanban'i Saad Prison.

In the assessment team's initial inspection on May 24th of this new prison that was under construction when the coalition forces began hostilities, there were 20 new cell blocks in two compounds that provided approximately 2,800 secure beds. Following the initial phase of hostilities, 153 Arab families moved into the complex. By June 12th, these Arabs had substantially disassembled the walls and structures rendering the facility unusable. Even though the structures have been mostly destroyed and cannot be refurbished for use in the immediate or short terms, there are foundations, infrastructure and some cell block structures that can be renovated and rebuilt. It would be necessary to relocate the Arab families in order to do a thorough estimate of what is needed to rebuild the cell blocks for permanent use. Although the team has not been able to do a complete assessment of the complex, it is estimate that the previously existing prison beds could be placed back into operation within twelve to eighteen months.

The major disadvantage of locating a prison ship at Um-Qasser is the logistics of transporting high security inmates on a twelve hour trip from Baghdad to southern Iraq. Given the opportunity for escape and ambush, the trip would be extremely labor intensive to insure safety and security of the transporting contingent.

The prison assessment team will continue to explore other alternatives to the use of Abu Ghraid Prison. At this point in time, we have found no other facilities that can provide up to 4,000 maximum security beds between now and the end of this year. The team supports the use of Abu Grab prison only until new facilities can be constructed. The estimated time frame would be 30 to 36 months once approval for new construction is received. Once assessed, perhaps the use of the Kanban'i Saad prison site can shorten the estimated time that a new prison could be constructed and in operation.

Basic Principles for the Treatment of Prisoners

Adopted and proclaimed by General Assembly resolution 45/111 of 14 December 1990

1. All prisoners shall be treated with the respect due to their inherent dignity and value as human beings.
2. There shall be no discrimination on the grounds of race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status.
3. It is, however, desirable to respect the religious beliefs and cultural precepts of the group to which prisoners belong, whenever local conditions so require.
4. The responsibility of prisons for the custody of prisoners and for the protection of society against crime shall be discharged in keeping with a State's other social objectives and its fundamental responsibilities for promoting the well-being and development of all members of society.
5. Except for those limitations that are demonstrably necessitated by the fact of incarceration, all prisoners shall retain the human rights and fundamental freedoms set out in the Universal Declaration of Human Rights, and, where the State concerned is a party, the International Covenant on Economic, Social and Cultural Rights, and the International Covenant on Civil and Political Rights and the Optional Protocol thereto, as well as such other rights as are set out in other United Nations covenants.
6. All prisoners shall have the right to take part in cultural activities and education aimed at the full development of the human personality.
7. Efforts addressed to the abolition of solitary confinement as a punishment, or to the restriction of its use, should be undertaken and encouraged.
8. Conditions shall be created enabling prisoners to undertake meaningful remunerated employment which will facilitate their reintegration into the country's labour market and permit them to contribute to their own financial support and to that of their families.
9. Prisoners shall have access to the health services available in the country without discrimination on the grounds of their legal situation.
10. With the participation and help of the community and social institutions, and with due regard to the interests of victims, favourable conditions shall be created for the reintegration of the ex-prisoner into society under the best possible conditions.
11. The above Principles shall be applied impartially.

Rewards shall be made available for information leading to the capture of senior members of the Baath party and individuals complicit in the crimes of the former regime.

The Administrator of the Coalition Provisional Authority or his designees may grant exceptions to the above guidance on a case-by-case basis.

By order of:

L. Paul Bremer, III

Administrator, Coalition Provisional Authority

L. Paul Bremer 5/16/03

Order of the Administrator of the Coalition Provisional Authority

De-Baathification of Iraqi Society

May 16, 2003

On April 16, 2003 the Coalition Provisional Authority disestablished the Baath Party of Iraq. This order implements that declaration by eliminating the party's structures and removing its leadership from positions of authority and responsibility in Iraqi society. By this means, the Coalition Provisional Authority will ensure that representative government in Iraq is not threatened by Baathist elements returning to power and that those in positions of authority in the future are acceptable to the people of Iraq.

Full members of the Baath Party holding the ranks of 'Udw Qutriyya (Regional Command Member), 'Udw Far' (Branch Member), 'Udw Shu'bah (Section Member), and 'Udw Firqah (Group Member) (together, "Senior Party Members") are hereby removed from their positions and banned from future employment in the public sector. These Senior Party Members shall be evaluated for criminal conduct or threat to the security of the Coalition. Those suspected of criminal conduct shall be investigated and, if deemed a threat to security or a flight risk, detained or placed under house arrest.

Individuals holding positions in the top three layers of management in every national government ministry, affiliated corporations and other government institutions (e.g., universities and hospitals) shall be interviewed for possible affiliation with the Baath Party, and subject to investigation for criminal conduct and risk to security. Any such persons determined to be full members of the Baath Party shall be removed from their employment. This includes those holding the more junior ranks of 'Udw (Member) and 'Udw 'Amil (Active Member), as well as those determined to be Senior Party Members.

Displays in government buildings or public spaces of the image or likeness of Saddam Hussein or other readily identifiable members of the former regime or of symbols of the Baath Party or the former regime are hereby prohibited.

ETHICAL BEHAVIOR AND THE PRACTICE OF CORRUPTION

- I. What is corruption in a detention center or prison?
 - a. This may be a difficult question for you to answer because of the past practices that were condoned by the Hussein regime.
 - b. Soon you will return to work and because you are now subject to international scrutiny and you are going to operate the detention center within the guidelines of the Coalition Provisional Authority Memorandum Two.
 - i. Ensure all employees understand what corruption is;
 - ii. Understand why it is not acceptable – now!
 - iii. Develop a personal commitment not to practice corruption or to allow it to be practiced; and,
 - iv. Understand the consequences if you are discovered participating in corruption or allowing it.
- II. The definition of corruption is –
 - a. Seeking to be paid or receive something of value in return for:
 - i. Doing something that is illegal (against the law) or against policy.
 - ii. Doing something that is normally within your duties or job classification i.e. assist an inmate to contact his attorney or family and requiring some one to give you something in return.
 - iii. Telling some one you can do something that you can not do but requiring them to give you some thing of value in return – some examples:
 1. Providing something favorable to an inmate in return for his paying you money or his family or attorney paying you money.

Institutional Daily Schedule

[illegible]

prison system we are going to focus on the "basic human rights."

a. In the future in conjunction with other ministries, other activities will be included.

- i. Work
- ii. Education
- iii. Religious activities.
- iv. Vocational skills
- v. Etc.

- IV. "Routine" creates stability in a prison system. It gives the prisoners confidence about what to expect during any given time period.
- V. A routine schedule ensures everything that needs to be accomplished in the institution is, in fact, accomplished. It is a general work guide for the employees of the institution.
- VI. Finally, it creates a memorial or record that can be checked by management, the courts, and international human rights organizations to determine whether or not the institution is operating within prescribed international standards.
- VII. In the immediate future, this daily regimen will be supplemented by a detailed set of standard operating procedures that give each employee more direction regarding the overall operation of the institution.
- VIII. Until those SOP's are developed, The combination of the UN standards, the CPA Memorandum Number 2, the job description of the director, the job description of the officers, and the daily regimen will provide an adequate basis for the legal and humane operation of your detention center or prison.
- IX. In all other cases you should continue to operate the institution just as you did before the war except to avoid any human rights violations.

Prisoner Daily Regimen (Schedule)

Handouts: Example of Institutional Daily Regimen

- I. We have talked about prisons in a free society and the importance of human rights in the operation of a confinement facility. The ways we demonstrate our commitment to these principles occurs in, at least, two ways:
 - a. Through the individual performance and conduct of the employees who are directly responsible for the care and custody of the detainees/prisoners.
 - b. Through the daily activities of the institution – the daily regimen or schedule. That schedule must reflect that the institution on a daily basis is providing time and attention for the fulfillment of human rights.
- II. As we have seen in the United Nation's *Basic Principles for the Treatment of Prisoners* and the *Coalition Provisional Authority Memorandum Number Two* (Implementation of Prison Consolidation order Number 9) a number of basic rights directly affect the daily activity in a detention center or prison. What are some of these rights?
 - a. The right to exercise and sunshine.
 - b. The right to adequate medical care.
 - c. The right to legal assistance.
 - d. The right to visit from family.
 - e. The right to adequate nutrition.
 - f. What are some others?
- III. Other activities such as education and work can be provided as well. However, during the immediate reconstitution of the

material. Interviews between the prisoner and his legal adviser may be within sight but not within the hearing of a police or institution official.

D. CIVIL PRISONERS

Section 31 Debtor Prisoners

- 1) Persons imprisoned for debt shall not be subjected to any greater restriction or severity than is necessary to ensure safe custody and good order. Their treatment shall be not less favorable than that of untried prisoners, with the reservation, however, that they may possibly be required to work.

Section 32 Entry into Force

This Memorandum shall enter into force on the date of signature.

L. Paul Bremer, Administrator
Coalition Provisional Authority

prisoners shall benefit by a special regime that is described in the following rules in its essential requirements only.

- 4) Untried prisoners shall be kept separate from convicted prisoners.
- 5) Young untried prisoners shall be kept separate from adults and shall in principle be detained in separate institutions.
- 6) Untried prisoners shall sleep singly in separate rooms.
- 7) Within the limits compatible with the good order of the institution, untried prisoners may, if they so desire, have their food procured at their own expense from the outside, either through the administration or through their family or friends. Otherwise, the administration shall provide their food.
- 8) An untried prisoner shall be allowed to wear his own clothing if it is clean and suitable.
- 9) If he wears prison dress, it shall be different from that supplied to convicted prisoners.
- 10) An untried prisoner shall always be offered opportunity to work, but shall not be required to work. If he chooses to work, he shall be paid for it.
- 11) An untried prisoner shall be allowed to procure at his own expense or at the expense of a third party such books, newspapers, writing materials and other means of occupation as are compatible with the interests of the administration of justice and the security and good order of the institution.
- 12) An untried prisoner shall be allowed to be visited and treated by his own doctor or dentist if there is reasonable ground for his application and he is able to pay any expenses incurred.
- 13) An untried prisoner shall be allowed to inform immediately his family of his detention and shall be given all reasonable facilities for communicating with his family and friends, and for receiving visits from them, subject only to restrictions and supervision as are necessary in the interests of the administration of justice and of the security and good order of the institution.
- 14) For the purposes of his defense, an untried prisoner shall be allowed to apply for free legal aid where such aid is available, and to receive visits from his legal adviser with a view to his defense and to prepare and hand to him confidential instructions. For these purposes, he shall if he so desires be supplied with writing

means to reach their destination and maintain themselves in the period immediately following their release.

- 4) The approved representatives of such agencies shall have all necessary access to the institution and to prisoners and shall be taken into consultation as to the future of a prisoner from the beginning of his sentence.
- 5) It is desirable that the activities of such agencies shall be centralized or co-ordinated as far as possible in order to secure the best use of their efforts.

B. INSANE AND MENTALLY ABNORMAL PRISONERS

Section 29 Psychiatric care

- 1) Persons who are found to be insane shall not be detained in prisons and arrangements shall be made to remove them to mental institutions as soon as possible.
- 2) Prisoners who suffer from other mental diseases or abnormalities shall be observed and treated in specialized institutions under medical management.
- 3) During their stay in a prison, such prisoners shall be placed under the special supervision of a medical officer.
- 4) The medical or psychiatric service of the penal institutions shall provide for the psychiatric treatment of all other prisoners who are in need of such treatment.

C. PRISONERS UNDER ARREST OR AWAITING TRIAL

Section 30 Untried prisoners

- 1) Persons arrested or imprisoned by reason of a criminal charge against them, who are detained either in police custody or in prison custody (jail) but have not yet been tried and sentenced, will be referred to as "untried prisoners", hereinafter in these rules.
- 2) Unconvicted prisoners are presumed to be innocent and shall be treated as such.
- 3) Without prejudice to legal rules for the protection of individual liberty or prescribing the procedure to be observed in respect of untried prisoners, these

ACTION MEMO

July 17, 2003

FOR: THE ADMINISTRATOR

FROM: Judge Donald F. Campbell, Director, Civil Affairs

SUBJECT: Prisons staffing needs

I request your approval for 87 Coalition staffers required by the Prisons Department at the earliest possible date. The vulnerability of prisoners to undetectable neglect and abuse including murder and torture, the past ubiquity of such neglect and abuse, primitive prewar prison conditions, and the dearth of qualified Iraqi personnel, demand that prisons be largely operated and not merely supervised by the Coalition. The current indigenous capability cannot provide training, reconstruction and new construction, managerial programs, treatment programs, daily routines, new and replacement security equipment, replacement of stolen items, and personnel systems, without which this indispensable component of law and order will flounder and defy international human rights standards. The requested level of Coalition involvement will be required for approximately two years, during which Iraqi replacements would be groomed and then phased in during the ensuing two years. This recommendation conforms to the staffing plan proposed by [redacted] before he departed last month.

The attached chart shows the prison system organizational structure, and the key offices within each department. No Iraqis currently have the requisite skills and knowledge to fill these positions. Experts estimate that the prison system will eventually detain approximately 30,000 persons, requiring a staff of 15,000 to 20,000. All of the more than 150 prisons nationwide have been severely damaged or destroyed. Rebuilding the system to conform to well-developed international standards on the rights of prisoners requires substantial Coalition involvement. Yet, at present, by August 3 there will be no more than five Coalition prisons staffers.

It is anticipated that the Coalition staffers would be drawn from the Departments of Justice and Defense, from our Coalition partners, and from contractors DynCorp and KBR, with the input of [redacted] our Prisons Department chief.

I therefore request and recommend that you approve:

- Eighty-seven Coalition personnel for the Prisons Department, beginning at the earliest possible date.

Subject RE: Prisons personnel needs

General Campbell,
I spoke both Mr. [REDACTED] at DOJ and [REDACTED] at State/INL on the immediate need to extend/replace the 2-3 folks working with you on prisons now under contract. [REDACTED] indicates that they are willing to extend that contract and had planned to (they continue to expect to be reimbursed out of the supplemental appropriations).

I can provide you further details in our call tomorrow. By the way, may we call at 0930 DC/1730 Baghdad time (vice 0830)? I hope to participate in an NSC-staff sponsored SVTC with US/UK/AUS at 0800 that I've just become aware of.

During that call, we can discuss courses of action to meet the staff needs reflected in this attachment.

We are talking to both to determine what they would require in order to agree to extensions of their current contracts. Until we complete those discussions it would be best for me to wait. I believe that your summary captures the issues very well. I will put together an action memo for Mr. Bremer today. He leaves for the US later today and I do not know if he will have an opportunity to act on this before he leaves. I will do my best. I spoke to him briefly last night at a meeting with Mr. Wolfowitz but did not have an opportunity to raise these concerns during our brief conversation. He told me to get on his calendar before he leaves and I am attempting to do that. Don Campbell

Subject: RE: Detainee tracking and ombudsman program

(a) The meeting with Mr. Bremer went very well. He agrees with all we asked for to include the 87 personnel in the prison system request. Before he gives us a final "go ahead" he wants to know who pays for it. Any ideas?

(b) The reason I sent the "tracking system" memo to you is because of the broader subject we discussed during our telephone conversation. It applies across the board to all three "legs of the stool." We need to engage the Dept. of Interior and talk about an NCIC type system like the one installed in El Salvador and about a dozen other countries by ICITAP. How much would it cost us to put that system in place in Iraq? Does ICITAP have any plans to the installation of such a system?

(c) The "ombudsman program" should help us keep the jail population at a manageable level. Until now there was no one working on behalf of the prisoners to help them get released. COL [redacted] is the right guy for the job. He has already done wonders for the Juvenile jail population. He is a former prosecutor, public defender and runs a Juvenile system with 125 employees back in the states.

I want to thank everyone for their help. Don Campbell

Subject: FW: Iraq's most feared prison open for business again under American control

[Redacted]

I thought you would enjoy the attached article. It was good to hear from you. I assume the attached article Abu Ghraib is a go. That's excellent. I'm sorry to hear about the General and his CO's. Those kind of situations will make the rebuilding of the prison system even more difficult. As you know you can not run a system with new CO's that only have 3 weeks of training. Some how you guys are going to have to salvage some of the veterans. I hope [Redacted] didn't make the decision precipitously to disallow what the visitor's were used to bringing in. Changes that are that significant should be announced in advance to give the inmates, the families and staff time to assimilate the change. The reaction of staff may be to the suddenness of the change not the content of it.

What are you hearing about the individuals who are going to follow you in the project. Hi: [Redacted] decided for sure he is going to come back? Is [Redacted] on his way there?

I hope you guys are going to keep your head down during the week of the 13th. [Redacted] can you get me the telephone number and email address of [Redacted] the DynCorp computer guy? I left the power supply to my hard drive when I turned in my equipment. I mistaker took the Thuraya telephone power supply, so I need to exchange it with him.

Also I had some business in El Paso, so I made arrangements to turn in my equipment. My golly was it a hassle! First they tried to make me stay two or three days to process out. When I declined that opportunity, they put me through an ordeal at CIF checking everything in. First, everything has to be clean and they check it. Next, they charge you for everything you don't return. I left the laundry bag with DynCorp equipment in it there. That cost me \$8.50. I didn't receive Bio Gloves but they charged for not returning a pair more than \$25. Then making arrangements to pay for it was a big deal. I had to get a money order and run all over the base to pay the amount owed. So make sure you keep your gear together and clean. If you come back as a group, you may go through Bliss to

process out.

Well, that's about all I have now. Stay safe and let me know what's going on.

Iraq's most feared prison open for business again under American control

Phase file - International Prisons
World Prison Population List (fourth edition)

Roy Walmsley

The World Prison Population List gives details of the number of prisoners held in some 205 independent countries and dependent territories. It shows the differences in the level of imprisonment across the world and makes possible an estimate of the world prison population total.

This fourth edition of the World Prison Population List has been compiled, like previous editions, from a variety of sources. In almost all cases the original source is the national prison administration of the country concerned, or else the Ministry responsible for the prison administration. Most figures relate to dates between 1999 and October 2002. Since prison population rates (per 100,000 of the national population) are based on estimates of the national

population they should not be regarded as precise. In order to compare prison population rates in different regions of the world, and to estimate the number of persons held in prison in the countries for which information is not available, median rates have been used because they minimise the effect of countries with rates that are untypically high or low.

The List has a number of weaknesses. It lacks information on 17 independent countries and figures do not relate to the same date. Comparability is further compromised by different practice in different countries, for example with regard to whether all pre-trial detainees and juveniles are held under the authority of the prison administration, and also whether the prison administration is responsible for psychiatrically ill offenders and offenders being detained for treatment for alcoholism. People held in custody are usually omitted from national totals if they are not under the authority of the prison administration.

Despite its limitations it is hoped that the World Prison Population List will be found useful by academic criminologists who are studying the use of imprisonment world-wide and by non-governmental organisations who are interested in variations in criminal justice practice. The data – for all its imperfections – may prompt fresh thought among policy makers and other criminal justice experts about the size of the prison population in their country, given the huge costs and disputed efficacy of imprisonment.

BAGHDAD

ACTION MEMO

July 17, 2003

FOR: THE ADMINISTRATOR

FROM: Judge Donald F. Campbell, Director, Civil Affairs 

SUBJECT: Prisons staffing needs

I request your approval for 87 Coalition staffers required by the Prisons Department at the earliest possible date. The vulnerability of prisoners to undetectable neglect and abuse including murder and torture, the past ubiquity of such neglect and abuse, primitive prewar prison conditions, and the dearth of qualified Iraqi personnel, demand that prisons be largely operated and not merely supervised by the Coalition. The current indigenous capability cannot provide training, reconstruction and new construction, managerial programs, treatment programs, daily routines, new and replacement security equipment, replacement of stolen items, and personnel systems, without which this indispensable component of law and order will flounder and defy international human rights standards. The requested level of Coalition involvement will be required for approximately two years, during which Iraqi replacements would be groomed and then phased in during the ensuing two years. This recommendation conforms to the staffing plan proposed by  before he departed last month.

The attached chart shows the prison system organizational structure, and the key offices within each department. No Iraqis currently have the requisite skills and knowledge to fill these positions. Experts estimate that the prison system will eventually detain approximately 30,000 persons, requiring a staff of 15,000 to 20,000. All of the more than 150 prisons nationwide have been severely damaged or destroyed. Rebuilding the system to conform to well-developed international standards on the rights of prisoners requires substantial Coalition involvement. Yet, at present, by August 3 there will be no more than five Coalition prisons staffers.

It is anticipated that the Coalition staffers would be drawn from the Departments of Justice and Defense, from our Coalition partners, and from contractors DynCorp and KBR, with the input of  our Prisons Department chief.

I therefore request and recommend that you approve:

- Eighty-seven Coalition personnel for the Prisons Department, beginning at the earliest possible date.

I have three Koreans working with me here and one of them is in the Prison Operation. I had lunch with them today. I will follow up to be sure that we take advantage of this offer. We could certainly use \$500,000 in equipment. I will reply with more detail tomorrow. Don Campbell

When Minister [redacted] was asked to open the new session of the Kansas Senate, everyone was expecting generalities, but this is what they heard:

Heavenly Father, We come before you today to ask your forgiveness and to seek your direction and guidance. Your Word says, "Woe to those who call evil good," but that is exactly what we have done. We have lost our spirit and reversed our values. We confess that: We have ridiculed the absolute truth of Your Word and called it Pluralism.

We have exploited the poor and called it the Lottery.
We have rewarded laziness and called it welfare.
We have killed our unborn and called it choice.
We have shot abortionists and called it justifiable.
We have neglected to discipline our children and called it building self-esteem.
We have abused power and called it politics.
We have coveted our neighbor's possessions and called it ambition.
We have polluted the air with profanity and pornography and called it freedom of speech.
We have ridiculed the time-honored values of our forefathers and called it enlightenment.

Search us, Oh, God, and know our hearts today: cleanse us from every sin and set us free. Guide and bless us who have been sent to direct us to the center of your will and to openly ask these things in the name of your Son, Jesus Christ.

Amen.

The response was immediate. A number of legislators walked out during the prayer in protest.

In 6 short weeks, Central Christian Church, where Reverend [redacted] is pastor, logged more than 5,000 phone calls of those calls responding negatively.

The church is now receiving international requests for copies of this Prayer from India, Africa, and Korea.

Commentator [redacted] aired this prayer on his radio program "The Rest of the Story" and received a larger audience than any other program he has ever aired.

With the Lord's help, may this prayer sweep over our nation and wholeheartedly become our desire so that we can be called, "...one nation under God..."

If possible, please pass this prayer on to your friends. Think about this:
If you forward this prayer to everyone on your email list, in less than 30 days it would be heard by the whole world.

God Bless gutsy [redacted]!

Spread the word!
