For Completion Task Orders, each invoice for fee shall contain a statement by the Contractor as to the cumulative percentage of work performed and the cumulative percentage of fee invoiced. Fee shall be payable, subject to other provisions of FAR 52.216-8, "Fixed Fee," in amounts commensurate with the percentage of work performed. In no case shall the cumulative amount of the fee invoiced, when expressed as a percentage of the total fixed fee for the applicable CLIN, exceed the cumulative percentage of DPLHs performed for that CLIN (as verified by the MDA COR) at the end of the billing period.

Section H - Special Contract Requirements

CLAUSES INCORPORATED BY FULL TEXT

**H-1 LEVEL OF EFFORT (LOE) AND COMPLETION ORDERS – FEE DETERMINATION (MAY 2005)**

a. In the performance of LOE-type Task Orders issued pursuant to Special Provision H-2, "TASK ORDERS", the Contractor shall provide Direct Productive Labor Hours (DPLHs). DPLHs are defined as actual employee, and/or authorized subcontractor, labor hours exclusive of vacation, holiday, sick leave and other absences. Direct labor costs are calculated consistent with the Contractor's standard accounting practices.

b. For LOE-type Task Orders, it is understood and agreed that the rate of labor hours per month may fluctuate in pursuit of the technical objective, provided that such fluctuation does not result in the utilization of the total labor hours of effort prior to the expiration of the term thereof or present a materially different labor mix than specified by the Task Order. It is understood and agreed that the Contractor may, without notice to the Government, increase or decrease the approved number of labor hours for each labor category by no more than 10% to the extent that the ceiling price and maximum DPLH for the Task Order are not exceeded. If for any labor category the DPLH delivered are greater than 110% of the DPLH specified for that labor category in the Task Order, then the DPLH in excess of 110% for that labor category are non-fee bearing. The Contracting Officer shall reduce the fixed fee of the Task Order by an amount equal to the fee per hour for each non-fee bearing hour. The computed fee per hour for this Task Order is \$15.56, which represents the fixed fee divided by the total DPLH.

c. For LOE Task Orders, the fixed fee shall be paid based on delivery of DPLHs. If, at the end of each task order period of performance, the Contractor has delivered less than the ordered quantity of DPLHs, the fixed fee shall be automatically adjusted and shall be reduced in proportion to the ratio of the DPLHs actually delivered to the maximum Task Order DPLHs:

$$\text{(DPLHs Delivered / Maximum Task Order DPLHs)} \times \frac{\text{Task Order Fixed Fee}}{\text{Task Order Fixed Fee}} = \text{Adjusted Task Order Fixed Fee}$$

It is understood by the parties that the Contractor may use subcontractor hours to the extent authorized by the Contracting Officer, to satisfy its obligation of providing the Task Order and contract specified DPLHs. The subcontractors contemplated would be those additional subcontractors and/or current subcontractor providing new or additional work scope, initially contemplated to be performed by the Contractor, as identified in the negotiated Task Order. Further, such subcontractor effort shall be counted as delivered LOE by the Contractor, to the extent such subcontractor effort is comparable to the LOE contemplated to have been provided by the Contractor in the negotiated Task Order.

d. For completion task orders, the fixed fee shall be prorated based on the percentage of work completed. If, at the end of each task order period of performance, the Contractor has not completed the task, the fee may be reduced to reconcile the fee entitlement. No additional fee shall be paid on any cost overrun.

e. Nothing in this provision shall be construed to constitute authorization for the work not in accordance with the "LIMITATION OF FUNDS" provision of the contract. In addition, nothing in this provision shall be construed to diminish the rights of the parties pursuant to the "LIMITATION OF FUNDS" provision of this contract. Nothing in this provision shall be construed to authorize the Contractor to start work under any task order issued under this contract without authorization from the Contracting Officer.

**H-2      TASK ORDERS (MAY 2005)**

a. **General.** The task order procedures in this clause shall apply to CLIN 0001, and if exercised Option CLINs 0101, 0201 and 0301. The Government may order up to the maximum Direct Productive Labor Hours (DPLHs) specified in the Schedule. For purposes of this contract, the term "Task Order" is synonymous and interchangeable with the word "order" as used in Section I clauses FAR 52.216-18, 52.216-19 and 52.216-22. All Task Orders are subject to the terms and conditions of this contract. In the event of a conflict between a Task Order and this contract, the contract shall prevail.

b. **Ordering.** Task Orders will be issued in written form by the Contracting Officer. Normally, prior to issuing a Task Order, the Contracting Officer will request, and the Contractor shall provide a Task Plan for accomplishing the work.

(1) **Draft Task Order.** The Contracting Officer will issue a draft Task Order to the Contractor with a request to the Contractor to submit a plan for accomplishing the task. The draft Task Order will include the following information:

- 1. contract number, CLIN and SOO/SOW reference;
- 2. description of the task to be performed;
- 3. a period of performance for the task;
- 4. description of the deliverables (as appropriate); and
- 5. specify either LOE or completion and number of DPLH.

**NOTE: Issuance of a draft Task Order does not authorize performance of this task.**

(2) **Task Plan.** The Contractor shall submit a Task Plan within thirty (30) calendar days after receipt of a draft Task Order. The Task Plan shall include:

- (a) a brief description of the method and approach to accomplish the Task Order;
- (b) estimated level of effort, in DPLHs by labor category, required to perform the task in the period of performance specified by the Task Order. (DPLHs to be delivered by the Contractor shall include all reimbursable labor hours worked regardless of source, prime or authorized subcontractor);
- (c) the Contractor's cost estimate, including all travel and other travel costs, with supporting rationale to perform the Task Order; and
- (d) upon completion of negotiations, a certificate of Current Cost and Pricing Data, as required by FAR 15.403-4, shall be submitted to the Contracting Officer.

(3) **Task Order Issuance.** Within thirty (30) calendar days after receipt of the Task Plan, the Contracting Officer will provide either an executed Task Order, or advise the Contractor of changes required to the Task Plan. Once the Contractor and Contracting Officer have agreed on the contents of the Task Plan, the Contracting Officer will issue the Task Order, which includes the following:

- (a) Contracting Officer signature and date of order;
- (b) contract number, CLIN, order number and SOW reference;
- (c) description of the Task to be performed;
- (d) for LOE tasks, the maximum number of labor hours by labor category and total cost-plus-fixed fee ceiling to be expended on the task; for completion tasks, the estimated labor hours and cost-plus-fixed-fee;
- (e) the period of performance for the task; and

(f) deliverables including applicable CDRLs.

(4) Alternate Procedure. When time will not permit the preparation of a Task Plan before commencement of work, the Contracting Officer may issue a Task Order specifying a maximum DPLH and estimated cost not to be exceeded pending agreement on the Task Plan.

(a) The Contractor shall begin performance promptly and submit a Task Plan within ten (10) calendar days after receipt of the Task Order.

(b) Within ten (10) calendar days after receipt of the Task Plan, the Contracting Officer will provide either a written Notice of Approval, issue an amendment to the Task Order, or advise the Contractor of changes required to the Task Plan.

(c) Until such time as a Task Plan is approved, the Contractor shall limit the expenditure of DPLHs and costs at a rate such that the Task Order maximum DPLHs and ceiling price will not be exceeded prior to the completion of the task.

c. Task Order Amendments. Task Orders normally will be amended using the standard procedures for issuing Task Orders. In emergency circumstances, Task Orders may be amended orally by the Contracting Officer; oral amendments will be confirmed by issuance of a written Task Order modification within five working days from the time of the oral communication amending the order.

d. Performance. Subject to the contract terms and conditions, and unless otherwise directed by the Contracting Officer, the Contractor shall initiate performance on new task orders promptly upon receipt of a signed Task Order. Performance of work on new task orders prior to execution of an approved Task Order is not authorized and is at the Contractor's own risk.

e. Cost and Labor Hour Limitation.

(1) The Contractor shall incur costs under this contract only in the performance of Task Orders and amendments to orders issued by the Contracting Officer. No other costs are authorized without the express written consent of the Contracting Officer. **The Contractor will not be paid for expenditures above the maximum DPLHs for LOE tasks or the cost-plus-fixed-fee ceiling of any individual Task Order (LOE or Completion).**

(2) To allow the Contractor the flexibility to utilize the optimum labor mix in performing each LOE Task Order, the Contractor may, without notice to the Government, increase or decrease the approved number of hours by no more than 10% for any labor category unless otherwise stated in the Task Order. These adjustments are allowable only to the extent that the maximum DPLHs (LOE) and ceiling price for the Task Order are not exceeded.

### H-3 ALTERNATE DISPUTES RESOLUTION (MAY 2005)

The Government and the Contractor will work together to ensure the success of the research and development effort entitled "Sensing, Communications and Advanced Materials Technology Development." The parties realize, however, that disagreements and disputes may arise between them. They agree to use their best efforts to resolve all disagreements and disputes quickly, efficiently and fairly. The Government prefers to resolve all issues arising under or related to the contract by negotiation, first at the Contracting Officer level, and if unresolved, at the Program Director/Manager level. If negotiations reach an impasse, the Government and the

Contractor agree to consider using one or more of the ADR processes identified in 5 USC 571. In the event either party rejects the use of ADR procedures, he will inform the other in writing of the specific reasons.

The parties agree that they will establish a written ADR process, tailored to the circumstances, before beginning ADR. Typically, the agreement will address: issues requiring resolution, authorized representatives, appointment of neutrals, audit requirements, confidentiality and duration of the ADR process, suspension of litigation, and a schedule.

This provision does not prevent either party from taking any action to preserve its rights under the Contract Disputes Act or any other statute or regulation. Agreement to this provision is not a condition for award of this contract, nor will objections to this provision be considered in evaluation for award.

#### **H-4 PUBLIC RELEASE OF INFORMATION (MAY 2005)**

a. The policies and procedures outlined herein apply to information submitted by the Contractor and his subcontractors for approval for public release. Prior to public release, all information shall be cleared as shown in the "National Industrial Security Program Operations Manual" (DoD 5220.22-M). At a minimum, these materials may be technical papers, presentations, articles for publication and speeches or mass media material, such as press releases, photographs, fact sheets, advertising, posters, compact discs, videos, etc.

b. All materials which relate to the work performed by the contractor under this contract shall be submitted to MDA for review and approval prior to release to the public. Subcontractor public information materials shall be submitted for approval through the prime contractor to MDA.

c. The MDA review and approval process for contractors working under an MDA contract starts with the contracting officer's representative (COR) when they are located at the MDA National Capital Region (NCR— address same as paragraph j. below), and the contracting officer (who signed contract on cover sheet for contract award, or designated replacement) for all other contracts.

(1) The contractor shall request a copy of MDA form "Clearance Request For Public Release of Information" (.pdf format) or any superseding form from the MDA COR or contracting officer (when COR is external to MDA NCR).

(2) The contractor shall complete Blocks 1, 2, 3 and 6 of the Clearance Request form (or comply with the instructions of any superseding form) and submit it with materials to be cleared to the COR (see paragraph j. below). If the information was previously cleared, provide the Public Release Case Number if available and a copy of the previous document highlighting the updated information.

(3) The COR may affirm "public releaseability" by signing the Statement of Certification in Block 7 of the Clearance Request.

(4) The COR will forward the Clearance Request with the materials to be cleared to the MDA designated point of contact for Block 8 approval and submission of package to MDA/DC.

(5) The MDA COR or contracting officer (when COR is external to MDA NCR) will notify the contractor of the agency's final decision regarding the status of the request.

d. The contractor shall submit the following to the COR at least 60 days in advance of the proposed release date:

- (1) Seven (7) copies of each item.
- (2) Written statement, including:
  - (a) To whom the material is to be released
  - (b) Desired date for public release
  - (c) Statement that the material has been reviewed and approved by officials of the contractor or the subcontractor, for public release, and
  - (d) The contract number.

e. The items submitted must be complete. Photographs shall have captions.

f. Outlines, rough drafts, marked-up copy (with handwritten notes), incorrect distribution statements, FOUO information, export controlled or ITAR information will not be accepted or cleared.

g. Abstracts or abbreviated materials may be submitted if the intent is to determine the feasibility of going further in preparing a complete paper for clearance. However, clearance of abstracts or abbreviated materials does not satisfy the requirement for clearance of the entire paper.

h. The MDA Director of Communications (MDA/DC) is responsible for coordinating the public release review. MDA/DC will work directly with the COR if there are questions or concerns regarding submissions. MDA/DC will not work with contractors who have not gone through their COR.

i. Once information has been cleared for public release, it is in the public domain and shall always be used in its originally cleared context and format. Information previously cleared for public release but containing new, modified or further developed information must be submitted again for public release following the steps outlined in items a. through h. above.

j. Due to time and screening constraints, it is recommended that all "public release" packages submitted to MDA be forwarded by a commercial overnight delivery service, addressed as follows:

Missile Defense Agency/AS  
 Attn: Erwin Myrick  
 1301 Southgate Road  
 Arlington, VA 22202

**H-10      ENABLING CLAUSE FOR BMD INTERFACE SUPPORT (MAY 2005)**

a. It is anticipated that, during the performance of this contract, the Contractor will be required to support Technical Interface/Integration Meetings (TIMS) with other Ballistic Missile Defense (BMD) Contractors and other Government agencies. Appropriate organizational conflicts of interest clauses and additional costs, if any, will be negotiated as needed to protect the rights of the Contractor and the Government.

b. Interface support deals with activities associated with the integration of the requirements of this contract into BMD system plans and the support of key Missile Defense Agency (MDA) program reviews.

c. The Contractor agrees to cooperate with BMD Contractors by providing access to technical matters, provided, however, the Contractor will not be required to provide proprietary information to non-Government entities or personnel in the absence of a non-disclosure agreement between the Contractor and such entities.

d. The Contractor further agrees to include a clause in each subcontract requiring compliance with paragraph c. above, subject to coordination with the Contractor. This agreement does not relieve the Contractor of its responsibility to manage its subcontracts effectively, nor is it intended to establish privity of contract between the Government and such subcontractors.

e. Personnel from BMD Contractors or other Government agencies or Contractors are not authorized to direct the Contractor in any manner. The Contractor agrees to accept technical direction as follows: Whenever it becomes necessary to modify the contract and redirect the effort, a change order signed by the Contracting Officer, or a supplemental agreement signed by both the Contracting Officer and the Contractor, will be issued.

f. This clause shall not prejudice the Contractor or its subcontractors from negotiating separate organizational conflict of interest agreements with BMD Contractors; however, these agreements shall not restrict any of the Government's rights established pursuant to this clause or any other contract.

**H-11      MDA VISIT AUTHORIZATION PROCEDURES (MAY 2005)**

a. The Contractor shall submit all required visit clearances in accordance with NISPOM regulations and will forward all visit requests, identifying the contract number, to:

Office of the Secretary of Defense  
Missile Defense Agency, MDA/ACC  
7100 Defense Pentagon  
Washington, DC 20301-7100

Telephone No.: (703) 697-8204 Facsimile No.: (703) 693-1526

- b. The COR is authorized to approve visit requests for the Contracting Officer.

**H-12 CONTROL OF ACCESS TO MDA SPACES AND INFORMATION SYSTEMS (MAY 2005)**

a. To maintain the security of the MDA spaces and information systems, the Contractor shall notify the COR in writing whenever a prime or subcontractor employee included on the current Visit Authorization Request/Letter no longer supports this contract. This requirement shall apply to both Contractor and employee initiated termination of services and to temporary suspension of services.

b. The contractor will cooperate with COR in taking the following actions (facilitating the employee's return of all badges, keycards, and passes). Specifically, upon notification, the COR will work with the Technical Area Security Officer (TASO)/Office Security Manager (OSM) to ensure timely action to:

- (1) remove the employee from the current Visit Authorization Request/Letter;
- (2) cancel the MDA badge, keycard and Pentagon Pass issued pursuant to the Visit Authorization Request/Letter; and
- (3) terminate the MDA LAN account/access privileges.

c. The contractor shall identify the reason for and date of termination or expected period of suspension and submit the notification to the COR within five (5) working days prior to service discontinuation. For unplanned termination or suspension of services, notification shall be made on the same working day as the termination/suspension action.

**H-13 ACQUISITION OF FACILITIES (MAY 2005)**

The Contractor agrees to provide all necessary facilities (as defined under FAR 45.301 and further defined under FAR 45.101, Definitions of Plant Equipment and Real Property) for the performance of this contract. The term facilities includes all general purpose office equipment and automated data/information processing equipment and software. Accordingly, the Contractor shall not purchase or lease facilities for the account of the Government without the express permission of the Contracting Officer. In no case shall the cost to the Government for leased facilities, acquired under this contract, exceed the constructive cost of ownership. Additionally, acquisition or lease of facilities, if approved by the Contracting Officer, shall be provided at cost, applicable burdens applied, exclusive of prime Contractor fee/profit of other profit centers or business units of the prime Contractor.

**H-15 EXERCISE OF OPTIONS (MAY 2005)**

Any option under this contract shall be exercised by a unilateral contract modification signed by the Contracting Officer. Specific contract line items or sub-line items delineating a description of the supplies or

services, quantity requirements, and a corresponding delivery schedule for the exercised options shall be identified in the unilateral contract modification. The Government may exercise from time to time, either in whole or in part, some or all the option line items. An option shall be exercised by issuance, within 30 days prior to the end of the current contract period, of a unilateral modification for the subsequent option requirements.

#### **H-20      SENSITIVE INFORMATION TECHNOLOGY WORK (MAY 2005)**

DOD 5200.2-R, DOD Personnel Security Program, requires Contractor personnel, who perform work on sensitive Information Technology (IT) systems, to be assigned to positions which are designated at one of three sensitivity levels (IT-I, IT-II or IT-III). These designations equate to Critical Sensitive, Non-Critical Sensitive, and Non-Sensitive. Working On-Site in any MDA Facility requires a minimum Sensitivity of IT-II. The following investigations are required:

IT-I designated positions require a Single Scope Background Investigation (SSBI).

IT-II designated positions require a National Agency Check with Law and Credit (NACLC).

IT-III positions associated with MDA are found only at contractor's facilities. See below for requirement.

The required investigation will be completed prior to the assignment of individuals to sensitive duties associated with the position.

For IT-III positions at the Contractor's facility, the Contractor will forward their employee information (completed SF 85P, Questionnaire for Positions of Public Trust), and two (2) DD Forms 258 (Fingerprint cards) either electronically or on magnetic media to: Organizational Security Division (MDS/SISO); ATTN: Personnel Security, 7100 Defense Pentagon, Washington, DC 20301-7100.

MDA retains the right to request removal of Contractor personnel, regardless of prior clearance or adjudication status, whose actions, while assigned to this contract, clearly conflict with the interests of the Government. The reason for removal will be fully documented in writing by the Contracting Officer. When and if such removal occurs, the Contractor will within 30 working days assign qualified personnel to any vacancy(ies) thus created.

#### **H-21      TOP SECRET PERIODIC REINVESTIGATION (MAY 2005)**

When Contractor personnel with TOP SECRET clearance are due for a Periodic Reinvestigation (PR), the Contractor shall monitor and determine if the individual currently has access to Sensitive Compartmented Information (SCI) or if eligibility for access to SCI is required to support the contract. The Contractor's Facility Security Officer, or other authorized official, will ensure that Contractor personnel having access to or eligibility for access to SCI is submitted for a Periodic Reinvestigation meeting SCI standards. This will ensure that once the investigation is completed, the appropriate Central Adjudication Facility will also have the investigation adjudicated for continued eligibility for access to SCI.

Failure to have the PR meet SCI standards will most likely result in the individual being denied continued access to SCI until a PR is re-investigated to appropriate standards. The Contractor will be required to provide an eligible replacement within 30 working days if required.

**H-22      SMALL BUSINESS PARTICIPATION REPORTING REQUIREMENT**  
**(MAY 2005)**

## Section C - Descriptions and Specifications

### DESCRIPTION AND SPECIFICATIONS

#### **1.0 Task Type and Period of Performance**

This is a cost plus fixed fee completion-type task order. The period of performance is May 23, 2005 – May 22, 2006.

#### **2.0 Method and Approach**

There exists a need in the Ballistic Missile Defense System for real time networking and communications capability for battle management, command and control, and intelligence (BMC3I). The communications system must enable sensor fusion for target identification and selection and very rapid engagement decisions.

The proposed program will have the objectives of:

- a. Increasing data rates to achieve compatibility with the 10s of GHz requirements needed for future transformational communications.
- b. Continuous improvements in network security, speed and robustness.
- c. Continuously increasing transmission ranges in all operational conditions.
- d. Continuous improvements in size, weight, power and costs.

Methods for achieving the proposed objectives include but are not limited to:

- a. Improvements in components such as the development of improved amplifier technology and increased component integration through the development of MMICs.
- b. Developing systems at new optical or MMW carrier frequencies that allow increased bandwidth or improved network security.
- c. Development of advanced acquisition and tracking systems, optical systems and antennas that reduce size, weight, power and cost. Examples include improved materials, higher efficiency lasers and novel communications antennas.
- d. Improvements in the control, weight and bandwidth of all-optical switch networks.

The expected results include improved network security, more rapid communications of critical information for engagement decisions, increasing technology readiness levels and insertion into the MDA system at appropriate Block upgrades.

#### **3.0 Tasks**

- 3.1.1 Upgrade 2.5 Gbps Data Link Hardware. Trex will perform detailed design, hardware fabrication, and integration of a 2.5 Gbps millimeter-wave data link. The design will incorporate lessons learned on earlier 1.25 and 2.5 Gbps hardware.

- 3.1.2 Upgrade 2.5 Gbps Data Link Field Testing. Trex will field test the millimeter-wave data link hardware developed in Task 1.2.1. Testing will be performed first at the Trex facility, and then at an off-site location chosen in collaboration with the customer.
- 3.1.3 10 Gbps Data Link Prototype Design. Trex will perform system-level and detailed design of millimeter-wave data link hardware capable of supporting a data rate of 10 Gbps.
- 3.1.4 Management and Reporting. Trex will perform management and reporting functions as called out in the CDRL list for this Delivery Order.

#### **4.0 Travel**

All travel must be coordinated with and approved by the COR in advance.

#### **5.0 Deliverables**

The data and reports listed below shall be delivered in accordance with the Statement of Objectives and the Contract Data Requirements List, DD Form 1423-1 (Exhibit A)

## Section C - Descriptions and Specifications

TASK PLAN**1.0 Task Type and Period of Performance**

This is a cost plus fixed fee completion-type task order. The period of performance is twelve months from the date of award.

**2.0 Method and Approach**

There exists a need in the Ballistic Missile Defense System for continuous advances in sensing technology at all pertinent spectral ranges from the UV to radio frequency. Sensors must provide global, all weather, wide area surveillance for launch detection, and accurate tracking and handoff of the re-entry vehicle trajectory to enable missile interception in the boost, mid-course and terminal phases of flight.

The proposed program will have the objectives of:

- a. Developing novel electro-optic sensor technologies that have improved spectral response, increased detection capability, increased resolution and enhanced tracking and target selection capabilities.
- b. Developing advanced radar technologies that improve system robustness, reduce cost and enhance radar performance parameters for all-weather tracking of missiles.

***Task 1 Sensing Scope of Work:***

1. Development of new imaging sensors. The potential exists to develop new imaging sensors based on (b)(4)  
(b)(4)
2. Improvements in the selectivity and sensitivity of porous silicon based sensors for detecting biological molecules and agents for the purpose of protecting MDA sites.
3. Improvements in laser radar such as (b)(4)
