The Contractor shall furnish the ORIGINAL and one (1) copy of each invoice to the DARPA Contracts Management Office for certification and forwarding to the payment office. Payments shall be made via Electronic Funds Transfer (EFT) in accordance with the information provided in the Central Contractor Registration (CCR).

Contractor is a small, disadvantaged business for Prompt Payment purposes.

Task Order Statement of Work

Defense Advanced Research Projects Agency Special Projects Office (DARPA/SPO) DARPA Tech 2005 Exhibit Booth

1. Background

The DARPA/Special Projects Office (SPO) is seeking one or more contractors to develop and produce the necessary graphics support for DARPA Tech 2005 under the Graphics Support Blanket Purchase Agreements. DARPA Tech is conducted approximately every 18 months by the Defense Advanced Research Projects Agency to inform the private industry, the academic community, and the military services of the DARPA mission. The last DARPA Tech convention was held in March 2004 and is described at <http://www.darpa.mil/DARPATech2004/index.html>. DARPA Tech 2005 will be held in Anaheim, CA, from 8-12 August, 2005.

2. Objective

This Task Order Statement of Work is to provide a completely integrated Special Projects Office exhibit booth including booth design/manufacture, graphics/multimedia development, and site installation and tear-down. The objective is a seamless appearance for the SPO DARPA Tech 2005 efforts. Due to the level of general public participation at DARPA Tech, this task order requires an experienced project coordinator working under SPO supervision.

3. Tasks/Technical Requirements

- 3.1. Exhibit Booth Design: The contractor will design an exhibit booth for SPO including all accessories (giveaways, brochures, posterettes, CD/DVD, etc.) The contractor design will create an integrated display of diverse technical concepts presented through posters, animations, static equipment displays, and equipment demonstrations within the 30' x 30' space allocated for SPO. The DARPA/SPO Director will approve the final designs for the booth and accessories.

DARPA anticipates the level of effort for this task is approximately 2 staff months.

- 3.2. Exhibit Booth and Accessories Manufacture: The contractor will manufacture the approved booth design and will manufacture or purchase all approved accessories. The contractor will perform a final acceptance walk-through of the completed booth in the Washington, DC area. The DARPA/SPO Director will perform the final acceptance.

DARPA anticipates the level of effort for this task is approximately 12 staff months plus materials, shipping, and travel.

- 3.3. Exhibit Set-Up and Tear-Down: The contractor will provide complete set-up and tear-down of the exhibit booth at the DARPA Tech location. The contractor will provide all shipping to and from the exhibit hall, related hotel personnel services (e.g. power installation), rental of A/V equipment, and personnel available for problem resolution

during exhibit hours. The contractor team will perform all set-up, tear-down, and shipping of the exhibit booth between the hours provided by DARPA. Nominally, those hours and dates are:

- Shipping to DARPA Tech location: between 5 July and 4 August
- Set-up exhibit booth between 12:00PM, 7 August and 9:00PM, 8 August
- Tear-down between 6:00PM and 11:00PM on 11 August
- Shipping from DARPA Tech location: 12 August

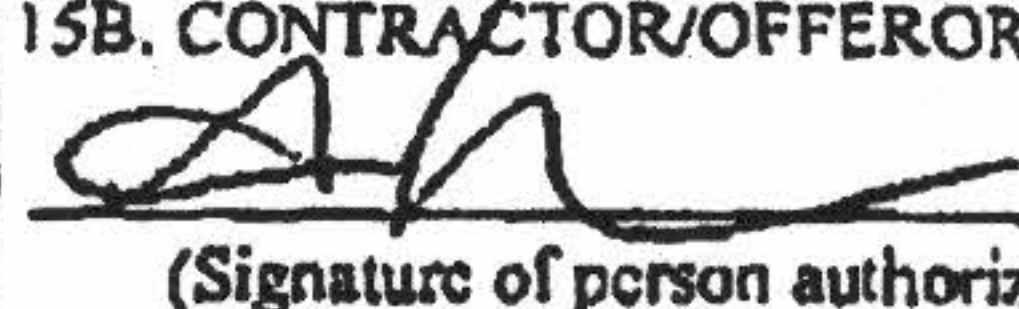

DARPA anticipates the level of effort for this task is approximately 1 staff month plus shipping and travel.

- 3.4. Project Coordination: The contractor will provide program management with monthly status meetings. These meetings will report to the DARPA/SPO Director on the work progress, budget status, and adherence to schedule timelines.

DARPA anticipates the level of effort for this task is approximately 3 staff months plus travel.

4. Personnel Requirements, Location of Work, and Other Requirements

- 4.1. Key Personnel: The Contractor is responsible for providing a project coordinator as the single point-of-contact for DARPA/SPO on all matters concerning performance, problems and problem resolution, scheduling, cost, resources, and other related matters. The project controller is a critical position and can not be changed without the written permission of the DARPA contracting officer.
- 4.2. Subcontractors: The Contractor may issue subcontracts in executing this task order in coordination with the government Contracting Officer. The Contractor is fully responsible for all subcontractor performance.
- 4.3. Location of Work: The contractor is not required to perform at locations close to DARPA except as noted in the SOW requirements. The project controller will meet monthly (at a minimum) with DARPA personnel at DARPA's Arlington, VA, office.
- 4.4. Other Direct Costs: The Contractor shall be reimbursed for allowable, allocable, and reasonable other direct cost (ODC) expenses. Such ODCs may include supplies, materials, rental of conference/meetings facilities, etc. The contractor is expected to use procurement best practices when making such purchases.
