First, I would like to personally thank you, and the J-37, for the tremendous work that you put into this movement. Definitely would not have gotten off of the ground without you!

(b)(6) I already started to piece together some ideas for modifying the DMO and DHRMO EXORDS. If you have time, let's meet and map out a strategy for getting this project finished.

Now that we are finished with this transfer operation, anyone want to play Cranium?

V/r,

(b)(6)

This is the final email I sent to the DDOs on Friday. Please "standardize" this process with a checklist for "DDO coordination on DMO / DHRMO missions." The checklist could be used by both the DDO and our office.

At a minimum, we should send a summary of the mission to the DDO, an updated POC list, the press release and instructions to notify us after launch / landing / if anything goes wrong.

I don't think the checklist needs to be any more than a single page. The coordination went smoothly this weekend and I'd like to replicate this for the future.

Finally, you'll lead the charge for the office in re-drafting the DMO / DHRMO standing EXORD. We need to get this out for COCOM coord in mid-Jan.

v/r
