			<b>INITIATION OF RESTRAINTS -- MEDICAL OFFICER NOTE</b>		
			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is no evidence that medications or a medical process is causing this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be required.

	<b>INITIATION OF RESTRAINTS FOR MEDICAL NECESSITY - - NURSING NOTE</b>		
07 APR 06	Detainee placed in (b)(2)	Reason for Restraint: Medical Necessity	
C 0832	<p>Detainee was advised by the Medical Staff that hunger striking is detrimental to his health. His behavior is due to his refusal to eat and not due to mental status change or illness. Medical Staff/Guards attempted to get the detainee to eat on his own. He is being offered food at every meal, yet he refuses to eat. Because the detainee refuses to eat, restraints were initiated for medical necessity for feeding. Detainee will be observed continually and he will be reminded of how his behavior must change (he must eat voluntarily) to avoid the use of medical restraints for present and future feedings. Detainee was told that he will remain in medical restraints until feed and post feed observation (60-120 minutes).</p>
