	Detainee placed in (b)(2)	Reason for Restraint: Medical Necessity
	Detainee was advised by the Medical Staff that hunger striking is detrimental to his health.

	detainee refuses to eat, restraints were initiated for medical necessity for feeding.

	change (he must eat voluntarily) to avoid the use of medical restraints for present	
	and future feedings. Detainee was told that he will remain in medical

			INITIATION OF RESTRAINTS -- MEDICAL/OFFICER NOTE		
			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is no evidence that medications or a medical process is causing this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be required.
