START	STOP				
1-11-06			RESTRAINT INITIATION ORDERS FOR MEDICAL NECESSITY FOR FEEDING		
14:00			Place Detainee in (b)(1) Sec		
			Reason For Restraint: Medical Necessity for Feeding		
			<input checked="" type="checkbox"/> Medical Restraints, order expires after 12 hours		
			Line of Sight observation while in restraints and record 15-minute checks while in restraints		
			Circulation Checks every 15 mins for the first hour then every hour.		
			Vital sign checks immediately after restraint and every 4 hours		
			Offer restroom and fluids every 2 hours		
			Initiate Restraint Observation Checklist		
			(Orders to be signed by Licensed Independent Practitioner (LIP) within 1 hour of restraints)		
			GITMO	(b)(3):10 USC §130b,(b)(6)	
1-11-06			INITIATION OF RESTRAINTS -- MEDICAL OFFICER NOTE		
14:00			Reason for Restraint: Medical Necessity for Feeding		
			Despite being advised that hunger striking is detrimental to his health, the detainee refuses to eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There is not evidence that medications or a medical process are contributing to this detainee's refusal to eat. Detainee does not have any medical condition/disability that would place him at greater risk during feeding using medical restraints.		
			Detainee will be observed continually while in medical restraints.		
			Detainee was told that he will remain in restraints until feed and post feed observation time (60-120 minutes) is completed. Detainee understands that if he eats, that involuntary feeding in medical restraints will no longer be required.		
			GITMO	(b)(3):10 USC §130b,(b)(6)

MEDICAL RECORD DATE AND TIME	<p style="text-align: center;">PROGRESS NOTES (Sign all orders)</p>
	INITIATION OF RESTRAINTS FOR MEDICAL NECESSITY- - NURSING NOTE
	Detainee placed in (b)(1) Sec Reason for Restraint: Medical Necessity
	Detainee was advised by the Medical Staff that hunger striking is detrimental to his health.
	His behavior is due to his refusal to eat and not due to mental status change or illness.
	Medical Staff/Guards attempted to get the detainee to eat on his own. He is being offered
	food at every meal, yet he refuses to eat. Because the
	detainee refuses to eat, restraints were initiated for medical necessity for feeding.
	Detainee will be observed continually and he will be reminded of how his behavior must
	change (he must eat voluntarily) to avoid the use of medical restraints for present
	and future feedings. Detainee was told that he will remain in medical
	restraints until feed and post feed observation (60-120 minutes)
	PROCEDURE NOTE: INSERTION OF FEEDING TUBE
	Indication: Malnutrition; hunger strike
	Under local anesthesia (viscous lidocaine, 2%), a <u> </u> 10 F / <u> </u> 12 F enteral feeding tube was
	inserted in the <u> </u> R / <u> </u> L nostril using standard procedure. A stylet was / was not used.
	Patient tolerated the procedure well. Placement in stomach was confirmed by
	insufflation and test dose of water. Successful procedure without complications.
	DISCONTINUATION OF RESTRAINTS NOTE AFTER FEEDING COMPLETE
	Reason for Restraint was for medical necessity for feeding. Detainee has received his feeding
	and was released from restraints and returned to his cell in good condition. Detainee was
	released from restraints at <u> </u> . Detainee had / did not have physical injury from the restraint
	episode. Detainee reported the following problems related to the restraint episode.
