Subjective:

FOOD REFUSAL ASSESSMENT: Detainee with a smile stated, "I'm good. I'm not crazy. They know me no crazy." Detainee limited his interaction with me spoke with the guard briefly and he said he don't want to talk anymore to BHS.

Objective:

Visited feeding block with without interpreter. Detainee was seen seated inside his segregation cell. Detainee appeared well nourished with energy as he uttered with normal tone of voice his comments. Detainee wore a black support brace on his right ankle. According to the nutritionist flow chart, there's no detainee current weight for May. His last weight dated 8 April was 150.8 pounds and his height is 66.5 inches. His in processing weight was 149 pounds in Jan 2002 (Average weight = 134). Detainee did not appear to be in any physical or mental distress at this time. SIB noted or observed. Internal or external stimuli was noted or observed.

Mental Status Exam:

Appearance: neat/clean

Mood: mellow

Distinguishing Features: none noted

Affect: congruent

Alert/Orientation: alert

Thought Content: within normal limits

Speech: normal English

Thought Process: goal directed

Eye Contact: good

Thought Perception: within normal limits

Communication: normal

Attention/Concentration: within normal limits

Motor Skills: within normal limits

Intelligence: average

Memory: intact

Insight/Judgment: good

Level Status: Level III

Self-Injurious Behavior: Detainee denied or none noted

Assessment:

Dx: No Diagnosis on Axis I. Antisocial and Borderline Traits

It appeared detainee did not appear to be in any mental or physical distress at this time. Although detainee have his reason for being involuntarily feed since January, it appeared detainee will continue to be on hunger striker until he's release to his home country. He does not seem to have any concerning depressive symptoms or evidence of thought disorder. The detainee's food refusal coincides with multiple other food refusals who were or are demanding release and or for medical reasons.

Plan:

Continue to rule out symptoms or evidence of thought/mood disorder in 7 days providing detainee will talk.

- F/U is scheduled for every week
- Initiate or maintain precautions for
- Recommend medication evaluation
- Encourage fluid intake and eating

- Discuss case at next treatment team
- Referral to psychologist for complete evaluation
- Recommend discharge from service

Language:  Arabic  English  Farsi  French  Pashtu  Russian  Urdu  Uzbek

Subjective:

Food Refusal: Attempted to speak with detainee via Arabic interpreter. Detainee stated "I am good everything is good. Are you from Psych, oh no, I have nothing to say. I know your questions and you know my answers. Have a good day." When questioned about SI/HI/AVH Detainee stated "No. No, good bye, I do not want to talk." Detainee refused to answer any questions in regards to somatic complaints or sleeping and eating.

Objective:

Upon approach to cell detainee was standing at the bean hole speaking with block guard. Detainee's rate, tone, and rhythm of speech were all within normal limits per interpreter. Detainee appeared to be well nourished and within grooming standards. Detainee was not cooperative with interview when he discovered that this technician was from BHU. According to the nutritionist flow chart, detainee current weight is 154 pounds (gained 4 pounds since his last weight on 08APR06) Cognition appeared to be intact. No SIB was observed or noted from block guards. Detainee did not appear to be experiencing any internal or external stimuli.

Mental Status Exam:

Appearance: neat/clean

Mood: euthymic

Distinguishing Features: none noted

Affect: constricted

Alert/Orientation: alert

Thought Content: within normal limits

Speech: normal Arabic per interpreter

Thought Process: coherent

Eye Contact: good

Thought Perception: within normal limits

Communication: normal

Attention/Concentration: distracted

Motor Skills: within normal limits

Intelligence: average

Memory: intact

Insight/Judgment: adequate

Level Status: Level III

Self-Injurious Behavior: Food Refusal

Assessment:

FOOD REFUSAL: Detainee does not want to interact with BHU. This is the first interaction with this Detainee by this Technician. According to previous SF600 Detainee has history of refusing to speak with the BHU. He does not seem to have any concerning depressive symptoms or evidence of thought disorder.

Plan:

Continue with treatment plan.

- F/U is scheduled for every week
- Initiate or maintain precautions for
- Recommend medication evaluation
- Encourage fluid intake and eating

- Discuss case at next treatment team
