In the name of Allah the Most compassionate the most Merciful

Praise be to Allah who said (but indeed if any do help and defend themselves after a wrong (done) to them, against such there is no cause of blame. The blame is only against those who oppress men with wrongdoing and insolently transgress beyond bounds through the land, defying right and justice; for such there will be a penalty grievous) prayer, peace be upon the our prophet MOHAMED and his companion all. Then.... My name is YASIR TILAL ABDULLAH ALZAHIRANI, I was seventeen years and three month old when the Americans have bought me from the northern alliance, now I am twenty two years old, and Allah blessed me with memorization of the Koran, praise be Allah.

I have written this testament to whoever want to read it, and says: the days, and months are passing, and the years are passing day after day, month after month, year after year, and our hands are still chained and our bodies are inside the cages without wrongdoing or crime except, we are Muslims, and fit to be sacrificed for the sake of a big American political game. And how many they were articles, and publication and conferences and others, which talk about the humiliation of our religion and the aggression against our honor, and the physical and mental torture almost practiced on a daily basis under the hands of those who claim just and peace, however all the above produced no result. Now, I am writing the second letter to the world in general and to our nation in particular. The first letter was about my (hunger strike) which lasted for six months, that letter has been torn by the hands of the Americans when they used the large feeding tubes that which torn apart the stomach and noses of those who were in hunger strike because of the insertion by force on 'the chairs of torture,' and by placing them in a very cold climate and dragging them on the steel and by leaving them chained for long hours in cloth stained by blood, vomiting and urine, and more. And this is after the American government had ordered the administration of the camp to stop the strike by any means, it is true after that most of those who were in hunger strike had stopped, except for a hand full of people which are still undergoing different sorts of pressure's methods until this day.

They did all that so this letter wouldn't reach the concerned parties and so as this game not to be exposed to the entire world; after that no one would think about going into strike again and as it has been the custom of those who pretend to be just and peaceful, the administrations that implements the US. Government policies have used new methods to coerce the hijacked detainees to keep them quite with regard to the oppression and so as not to object their indefinite detention. And, in fact, the American would tailor the allegation that suits each hijacked in Guantanamo, so as to cover up their grave failure to obtain victory in their alleged war against terror. They had tried all the physical and mental methods of torture from the first day they bought us, and this didn't produce any result for them, their intention was to force us to abandon our religious principles and specifically our demand to end oppression, and when they couldn't realize what they want, without any consideration to the animals rights let alone the human rights, they desecrated the sanctity of religion by forbidding the Azan (announcement for prayers), and the prayers in groups, humiliation of the Koran, and by assaulting our honor by improperly searching our body, and so many other physical and mental methods such as; sleep deprivation for tens of days, up to thirty days; forcing us to shave our head and

beard, the using the erffing unit; the use of a continuous oppression, isolation in cells made of steal, the disallowing talking; the usage of extreme cold, extreme heat, the prevention of vital medication, and more. All under the eyes and the ears of the world, and in front of the Red Cross representatives whom the Americans had used as a cover up before the world for their criminal acts, who also promised the American that they wouldn't reveal their criminal actions... Allah is our helper.

Because of that, when I found out that my first letter did not reach, I decided to send the second one, but this time it would be through the post office, and the envelope is a cruel rope the Americans have made, the postal stamp is intermittent breathing and a painful gargle. I hope that every one, learned or illiterate, would understand this letter.

A letter from the oppressed who had suffered indirectly from the American government and indirectly from the American's lawyers who were only came here for media purposes and to obtain fame at the expense of others and also to enhance the American's image which has been stained lately. (This letter for the honest not the dishonest), I am fully contented doing that, and after I had thought about it, perhaps this may help remove the oppression from us, and towards this, there would be neither fear, nor desperation and no one forced or lured me into this doing and with that I'm indebted to Allah; this soul is cheap (his soul) for the sake of Allah and the removal of oppression and I ask of Allah to accept it from me and to bestow upon me the highest paradise and resurrect me among the green birds (TN: term used to mean those already blessed with paradise and living its eternal bliss), and my death is nothing compared to thousands of Muslims who died in Iraq, Afghanistan, or Palestine and the rest of the world where the America's alliances are ruling, and the hunger strike means nothing compared to the death of million of Muslim's children in Iraq under the banner of the economic sanctions which has been put in force by America and its alliances. I ask Allah to remove the oppression from the nation of Islam and whoever provides assistance to them against the Islam and the Muslims.

Finally, I advise the nation of Islam to be steadfast and work to lift the oppression and you should know that the true sacrifice would emerge at crucial time, we had lived the fragile and painful period, the victor and its sweet taste, and we don't fight the enemy with armament, but we fight them with this religion, and know that our struggle to remove the oppression depends upon our commitment towards Allah's religion, and it's the latent force that we seek protection from, it's the protection of our doctrine.

I advise our nation's scholars, I advise you, to fear Allah in yourself and in your knowledge, and in your nation, and not to abandon the nation of Islam, the repressed And if you are not able to say the truth, don't say untruth, you are responsible for your knowledge and spread Allah's religion which rejects oppression, as he say, the Gracious and Exalted and his prophet's Sunna (peace, Allah's prayer upon Him)

I say to the Muslim's youth, sacrifice your precious life and get prepared to remove the oppression of your repressed nation (O Allah I have made known, so be witness),

My final prayer is praise be to Allah the lord of the worlds,

From Cub's captive and the servant of Islam and the oppressed one, by his soul,

(YASIR TALAL ABDULLAH)

ALZAHIRANI)
