Reason for Restraint: Medical Necessity for Feeding

Despite being advised that hunger striking is detrimental to his health, the detainee refuses to

eat. Restraints were ordered for medical necessity to facilitate feeding the detainee. There

refusal to eat. Detainee does not have any medical condition/disability that would place

him at greater risk during feeding using medical restraints.

Detainee will be observed continually while in medical restraints.

Detainee was told that he will remain in restraints until feed and post feed observation
