Logistics Flow from Pakistan to Afghanistan

Commodity Flow

- (S) Class III Bulk Petroleum: 62% of the jet fuel (JP-8 and TS-1) and diesel fuel received at Afghanistan sites is sourced from Pakistan. Remaining Afghanistan jet fuel/diesel supply comes from the north via various sources in the "Stans."
- (C) Class V Munitions: All munitions are supplied via air into Afghanistan and do not transit Pakistan.
- (C) Remaining Classes of Supply: Total OEF requirement in Afghanistan is ~750 STON/day.
 - Majority of this movement is via ground transport (517 STON/day) from Pakistan; 49 STON/day comes via air from the south; 181 STON/day via air from the north.
 - Bottled water requirement alone is 129 STON/day.
