~~101~~ The captured PLO weapons that the Department of Defense (DOD) is obtaining from Israel for Central Intelligence Agency (CIA) use are presently being loaded aboard a ship for transport to the East Coast of the United States. These arms should arrive during the second week of May and will be available for CIA pickup at that time for transportation to their destination (b)(1), (b)(3): 50 USC §403
(a) Section 6

~~101~~ For ease of handling, the shipment can remain packed in the 34 Land/Sea containers until reaching [REDACTED]. The contents of the shipment not desired by CIA can be turned over to DoD personnel at that location. The Land/Sea containers are the property of the Government of Israel and will need to be transported to a regional seaport so that they can be returned to Israel.
