

**Philippines:
Clandestine Insertion and Extraction Capability**

The Department of Defense (DoD) plans to undertake activities to build the capacity of the Philippines' national military forces to conduct counterterrorism (CT) operations, pursuant to Section 1206 of the National Defense Authorization Act for FY 2006 (P.L. 109-163), as amended. The Department of State (DOS) has verified that the Philippines is eligible to receive the type of assistance authorized by this legislation and supports the use of Section 1206 authority for this purpose. This Section 1206 program will help build the capacity of the Philippines's national military forces to conduct CT operations by providing maritime equipment and training to conduct littoral, clandestine insertion and extraction, near-shore interdiction and vessel board search and seizure (VBSS) and combined reconnaissance and surveillance. This program will improve the tactical effectiveness and operational reach of the Philippines' Navy. Building the Philippines' CT capability supports U.S. national security objectives both globally and within the U.S. Pacific Command (USPACOM) area of responsibility.

This program will contain the required elements to promote the observance of and respect for human rights and fundamental freedoms, and respect for legitimate civilian authority. Units selected to receive this assistance will undergo "Leahy" human rights vetting before such assistance is provided. This \$7,456,000 program was coordinated through a joint DoD-DOS review, approved by the Secretary of Defense, with the concurrence of the Deputy Secretary of State. There will be no adverse effect on U.S. personnel or operations.

We intend to provide the following articles and services (all equipment is accompanied by minimal initial operator familiarization):

1	Communications, Electronics, and Night-Vision Devices. Includes: -Multi-Use Monocular System (MUM-14) and ancillaries (166) -Binocular Range Finder (water proof model) (166) -Garmin Foretrex 101 GPS (166) -Harris RF-5800 Tactical Radios or equivalents (166)	\$4,185,000
2	Weapons. Includes: -MK 43 Mod 1 Machine Gun (35) -Mk 43 Mod 1 Conversion Kit (35) -M4 Rifle with spares and ancillaries (166) -MK 4 Series 80, 145 Cal Pistol (132) -AN/PBQ -2A Target Pointer, Infrared Laser (166) -AN/PBQ -5A Variant Carbine Visible Laser (166) -M68 Close Combat Optic (166) -M4 Simmunition Conversion Kit (166 ea) -M4 Simmunition Magazine (166 ea) -M16/M4 Magazine 30 rounds (1,660 ea) -AN/PBQ-1 Laser Bore-sight System (14 ea) -Weapons Ancillary Items	\$1,508,000
3	Ammunition	\$211,000

	-5.56 mm Ammo (332 ea) -7.62 mm Ammo (332 ea) -45 Cal Ammo (332 ea)	
4	Organizational Clothing and Individual Equipment. Includes: -Interceptor Body Armor with SAPI Plates (166) -Leasatic Compass (166)	\$175,000
5	Boats, Motors and Accessories. Includes: -Zodiac FC470 Combat Rubber Rafting Craft (38) -Johnson 55HP Outboard Motor (38 ea) -Johnson 40HP Outboard Motor (38 ea)	\$1,182,000
6	Operational Training. Includes: -Zodiac Small Boat Training -NVD Training -Fuel Handlers Training	\$195,000
TOTAL:		\$7,456,000

Figures in parenthesis reflect estimated quantity. These figures may change based on the final price and availability of individual items, but the overall cost of the program will not exceed the total amount indicated, and the quantity of items shall remain consistent with the notified nature and scope of the program.

All items will be on contract or ordered from stock no later than September 30, 2012. Deliveries in country are anticipated to commence as soon as possible in this fiscal year, and will be completed within 18 months or earlier depending on production and delivery time. The period of performance for severable contracted services beginning before September 30, 2012 must be completed by September 30, 2013.
