FOD REMINDER: Check work area for tools and parts after completion of maintenance and inspection

- A transport officer will monitor the status of receiving hospitals and will designate to the pilot/driver the destination of the patient. Transport Officer must inform ATF representative and Department of Public Safety (DPS) of destinations.
- Transport will be requested by calling (817) 754-0355 for AMT ground vehicles or 1-800-442-6342 for Care Flight. Four ambulances will respond routinely to any activity directed at the compound. These ambulances will travel in emergency response if informed of any casualties. Ambulances have radio contact with local receiving hospitals. Care Flight frequencies are Law Enforcement 165.287 and "Tactical" frequency 462.675.
- Local hospitals for all injuries except major burns are:
Bed Totals 45 ER, 88 ICU, 876 total beds

Hillcrest Hospital 756-8611
3000 Herring
Waco, TX
Lat 31 32.6 N / Long 97 10.2 W

(1a) All records of or concerning any communications from the Departments of Treasury or Justice to DoD regarding the profiles or character of the occupants of the Residence of Koresh and the Branch Davidians.

The Texas National Guard maintains no intelligence information on subjects of law enforcement support requests. All intelligence obtained due to National Guard support becomes property of the requesting law enforcement agency.

(1b) All records of or concerning the existence of any methamphetamine lab within the Residence of Koresh and the Branch Davidians.

The support request submitted by the Bureau of Alcohol, Tobacco, & Firearms and Operation Alliance. (REF: Book 1 Tab D)

(1c) All records of or concerning the type and quantity of weapons in the possession of Koresh and the Branch Davidians.

The support request submitted by the Bureau of Alcohol, Tobacco, & Firearms and Operation Alliance. (REF: Book 1 Tab D).

The Texas National Guard maintains no intelligence information on subjects of law enforcement support requests. All intelligence obtained due the National Guard support becomes property of the requesting law enforcement agency.

(1d) All records of or concerning the command structure within DoD that participated in the decision to provide assistance to the ATF operation concerning the Matter of the Branch Davidians.

The normal chain-of-command for Texas National Guard Counterdrug support was utilized in the approval process of the support request submitted by the Bureau of Alcohol, Tobacco, & Firearms (REF: Book 1 Tab D). This chain-of-command is outlined in the Texas National Guard Fiscal Year 1993 Counterdrug Support Plan (REF: Book 1 Tab K). All support requests following the initial operation were approved in coordination with the Emergency Operations Center located at Camp Mabry, Austin, Texas (REF: Book 1 Tab F) and the Emergency Operations Center located at the National Guard Bureau.

02016

(1e) All records of or concerning the date of the first communication, whether formal or informal, to DoD from any entity without limitation, whether Department of Treasury, Department of Justice, or within DoD concerning the Matter of the Branch Davidians.

The support request submitted by the Bureau of Alcohol, Tobacco, & Firearms and Operation Alliance. (REF: Book 1 Tab D). Chronological support summary (REF: Book 1 Tab B)

(1f) All records of or concerning the decision to provide assistance to ATF concerning the Matter of the Branch Davidians.

The support request submitted by the Bureau of Alcohol, Tobacco, & Firearms and Operation Alliance. (REF: Book 1 Tab D)

(2a) All records of or concerning the legal and operational policies of DoD used by DoD to determine the scope of military assistance provided to domestic law enforcement agencies for assistance within the United States.

The applicable regulations regarding military assistance to domestic law enforcement agencies are located in Book 3 Tab 1-9 and Book 4 Tab 1-2.

(2b) All records of or concerning the orders and guidance for the actual support provided by Department of Defense to the Department of Treasury in preparation for the dynamic entry or the Department of Justice during the Siege concerning the Matter of the Branch Davidians.

The Texas National Guard maintains no intelligence information on subjects of law enforcement support requests or law enforcement operations plans. All intelligence obtained due the National Guard support becomes property of the requesting law enforcement agency. See Chronological Support Summary Book 1 Tab B.

(2c) All records of or concerning, with a listing of names and current addresses, the military personnel who provided any training, advice, logistical support, intelligence support, surveillance, or any other support of any kind without limitation to the Department of Treasury or Justice.

A listing of all Texas National Guard personnel involved in the operation (REF: Book 1 Tab C). Copies of tour orders, travel orders, and travel vouchers, when applicable, are provided in Book 5 and Book 6.

(2d) All records of or concerning any legal memoranda prepared by any DoD personnel regarding the legality of support for the ATF operation regarding the Matter of the Branch Davidians.

No legal memoranda were prepared specifically regarding the specific mission in support of ATF in the Matter of the Branch Davidians. Each fiscal year the Texas National Guard Counterdrug Support Plan is reviewed for legality of the types of missions to be performed during that fiscal year. This review is done by the Adjutant General's Department Judge Advocate and the Governor's General Counsel.

(2e) All records produced, edited, reviewed, read, or studied by any DoD personnel concerning the ATF plan for the dynamic entry.

The Texas National Guard did not participate in the development of the ATF plan for dynamic entry and have no records pertaining to the ATF entry plan.

(2f) All records of or concerning the actual training provided to ATF personnel by DoD for JT002E-93 mission including but not limited to rehearsals at the MOUT site and application of the Rules of Engagement for this mission.

The Texas National Guard has no records concerning the training provided to ATF personnel at the MOUT site.

(2g) All records of or concerning any DoD personnel who were present in the proximity of the Residence of Koresh and the Branch Davidians on February 28, 1993, at any time thereafter, up to and including April 19, 1993.

A listing of all Texas National Guard personnel involved in the operation (REF: Book 2 Tab C). Copies of tour orders, travel orders, and travel vouchers, when applicable, have been provided in Book 5 and Book 6.

(2h) All records of or concerning any pre operation site visits or surveillance of the Residence of Koresh and the Branch Davidians by any DoD personnel, or communications to or from DoD concerning any surveillance.

The support request submitted by the Bureau of Alcohol, Tobacco, & Firearms for aerial photography (REF: Book 1 Tab D), copies of maps identifying areas to be photographed (REF: Book 1 Tab E) and photocopies of areas photographed (REF: Tab).

D 2018

(2i) All records of or concerning any post operation analysis, opinion, reflective statement, official memoranda to file, or any other communication of any kind about the operation by ATF on February 28, 1993

The After Action Report of Texas National Guard Counterdrug Support in Waco, Texas (REF: Book 1 Tab J). Personal statements, sworn statements, and memorandum provided by the aviators (REF: Book 1 Tab B).

(2j) All records of or concerning the role of DoD related to the operation of ATF on February 28, 1993 prepared after the failed attempt to serve the arrest and search warrants.

All records regarding the role of the Adjutant General's Department and the Texas National Guard have been provided.

(3) All records of or concerning any and all military equipment without limitation provided to ATF whether loaned, leased, or donated.

All documents pertaining to the equipment utilized by ATF throughout the operations are located in Book 2 Tab O-Tab V.

(4) All records of or concerning any DoD personnel to whom any disciplinary action was initiated related to their role in the Matter of the Branch Davidians.

No disciplinary action was taken against any member of the Texas National Guard related to their role in the Matter of the Branch Davidians.

(5) All records of or concerning any foreign personnel, including their names current and addresses who were present during the Siege.

The Texas National Guard has no knowledge of any foreign personnel present during the Siege.

(6) All records of or concerning any and all assistance provided to the FBI during the Siege, including: (6a) All records of or concerning any personnel including names, units, and present address who provided any assistance related to Forward Looking Infrared Radar.

The Texas National Guard did not provide any assistance to the Federal Bureau of Investigation related to Forward Looking Infrared Radar.

(6b) All records of or concerning all personnel and equipment used for intelligence gathering, surveillance, or other security activities during the Siege.

Texas National Guard personnel did not perform surveillance or security activities during the Siege. Texas National Guard personnel supported the FBI and ATF with video camera operations in the processing center as members of the Branch Dividians left the compound and were taken into custody by law enforcement officials. All intelligence gathered by National Guard personnel is the property of the law enforcement agency that requested the support.

(6c) All records of or concerning any communication by You to the Department of Justice regarding the use of CS gas.

The only records of any communication regarding the use of CS gas are the entries made in the daily event logs from the operation command post, located at Texas State Technical College, Waco, Texas (REF: Book 1 Tab G) and the Emergency Operations Center, located in Austin, Texas (REF: Book 1 Tab F)

(6d) All records of or concerning options or plans for resolving the Siege provided by DoD or participated in by DoD.

The Texas National Guard did not participate in the development of the options or plans for resolving the Siege and have no records pertaining to the plans for resolving the Siege.

(7) All records of or concerning any records which have been destroyed related to the Matter of the Branch Dividians

The only records the Texas National Guard is aware of that have been disposed of are the Temporary Duty Orders for Texas Air National Guard personnel. These documents were disposed of as directed in Air Force Regulation 4-20, dated 1 May 1992.

2020

(8) All records of or concerning any proposed operation involving DoD personnel in or around El Paso, Texas or anywhere else in the United States that concerns enforcement of the firearms laws of the United States, including any and all questionnaires or inquiries of DoD personnel about their willingness to go door to door retrieving firearms.

The Texas National Guard has no records on or any knowledge of any proposed operation of any DoD personnel enforcing firearms laws or utilizing questionnaires or inquires regarding their willingness to go door to door retrieving firearms.

ASSISTANCE TO ATF

(Late 1992 - February 28, 1993)

National Guard - [A.C. provision not apply.]

- Acting in State Capacity
- Pursuant to Title 32 Counter Drug Authority -- Non-reimbursable
- Conducted Ground and Air Reconnaissance
- Provided Equipment and Personnel
- Equipment Included Three Helicopters that Participated in Feb. 28 Raid

Special Operations Forces

- A Counter Drug Operation, Approved by JTF-6 -- Non-reimbursable.
- Assisted ATF in Training at Ft Hood
- Communications, First Aid, and Range Training
- No Assistance in Planning Raid
- Not Present During Raid

ASSISTANCE TO ATF -- ISSUES

Drug Nexus

- ATF Claimed Methamphetamine Lab on Compound
- ATF Accused of "Cheating" on Drug Nexus
- Absent Drug Nexus: Some Reimbursement Required; Different Approval Channels

Posse Comitatus Issues

- Drug Nexus Not Necessary For DoD Help
- USASFC Deemed ATF's Original Request Overbroad; it was Revised
- Lindley Memo -- Leaked to Press
- Did Special Forces Soldiers Go Beyond Orders?

Approval Process

- Was it Handled Correctly?
- Is it Adequate?

ASSISTANCE TO FBI

(March 1, 1993 - April 19, 1993)

National Guard

- Provided Equipment -- Reimbursable
- Personnel to Operate Equipment --
Non-reimbursable, Counter Drug Status

DOMS

- Provided Equipment -- Reimbursable

USUHS

- Provided Some Off-Site Medical Support

Others

- Other DoD Components Provided Equipment,
Including High-tech Equipment

DoD Personnel

Appointed by [redacted] to talk to FBI 2

Advice To [redacted] Sessions on CS Gas Plan

- [redacted]
Sessions on CS Gas Safety 4

ASSISTANCE TO FBI -- ISSUES

Tanks

- SecDef's Office Approved

High-Tech Equipment

- Possible Appearance Problems

Safety of CS Gas

- Reno Felt Reassured About Safety After Meeting with Salem
 - Salem's Advice May Be Criticized

Advice on CS Gas Insertion Plan

-  Disagreed with One Aspect of FBI Plan
 - Did Not "Pass Judgment" on FBI Plan
 - Spoke as Military, Not Law Enforcement Experts

OTHER ISSUES

DoD Support to Law Enforcement

- Some May Use This To Open Up the Broader Subject of DoD Support to Law Enforcement

MEMORANDUM FOR Director of Operations, J3

SUBJECT: ATF Special Operation Coordination

1. It has been difficult to get an answer from III Corps concerning the requested MOUT Site, Range, Training Area, and Billets. Due to the fact that [redacted] III Corps has been the only senior officer in the headquarters (he is the only one we have given full understanding of mission), the requested availability has not been quickly forthcoming. After numerous phone calls, we finally got an answer at 1400 today—not the one we were looking for: That the resources were totally booked for the days we requested.
2. I immediately called [redacted] and fed him the information as the briefing in Washington is Thursday (tomorrow). I asked him if he wanted us to try to use a "priority" and get those who had reserved the MOUT site to postpone their training. He said there was no telling even if the overall concept was going to be approved and he counselled "wait until after the briefing." He would notify the Houston SAC who was going to brief.
3. I called [redacted] back at 1545 to ask who had the MOUT and could we also get billeting if we pushed. He said that there was 2000 extra people at Hood doing a big SINGARS test and billeting would definitely be a problem. He indicated that 1 CAV Headquarters had the MOUT site. I asked him why the division headquarters was in there—he responded that they are only using it to "live" in. So I asked him to see if they could find someplace else and give us the site.
4. Since we were playing phone tag and 20 questions each time, I asked him to go proactive on the whole thing—"Find out when it is available—maybe March 4-6; Can we get priority over 1 CAV TOC; and is it still available Feb 18-20, the original dates?" He will also check the question on the billeting, range, and training area and get info by Thurs morning.
5. Although III Corps has been courteous, I have been frustrated by the dismal slowness to get answers and almost recommended we have the [redacted] III Corps COFS, who just arrived back from NTC today. DSN 737-7509.

01 FEB 93

MEMORANDUM FOR OPS SPECIAL OPERATIONS STAFF

SUBJECT: ATF SPECIAL SR

1. ATF has submitted an SR to Operation Alliance requesting some help from both JTF-6 and the Texas National Guard. ATF SWAT teams are organizing a compound take-down of an extremist group in the WACO vicinity known to be producing METH. LEA intel indicates that they may have 3-50 CAL machine guns.

2. Originally wanting to do the take-down on 15 Feb, they have postponed the operation until after all warrants and Federal Grand Jury requirements are completed. Operation now scheduled for end of Feb.

3. Information:

POC Operation Alliance: [REDACTED]

POC ATF, Houston: [REDACTED]

POC III Corps: [REDACTED] (DSN 737-4211) Note that I asked them to make the MOUT site available.

4. Judging from the fact that the 0900 meeting on 02 Feb is with the "head log guy" from ATF, I believe the thrust will be equipment oriented.

The original SR wanted about 7 or 8 BRADLEY Fighting Vehicles. I called the NET (New Equipment Team Czar [REDACTED] (29th Inf, Ft Benning, 691-1752--then at Ft Carson, who said the normal tng time for a BRADLEY driver was 40 days. He could cut out all the maint and 25mm stuff and drop it to 5 days.) It has been suggested that LAVs (from 4th IG be substituted for the Bradley's --but they only have 3 or 4 operational and they don't shoot half-inch bullets very well. Tanks if you are serious!

5. Because the law and JCS/SECDEF policies restrict us to only providing operational support, most of the SR will have to be filled via Bill Enney (also attending the meeting on the 2d.) We may be able to provide MOUT style instruction and rehearsal support and maybe some emergency medical care spt.

LAW ENFORCEMENT ORGANIZATION

LOCATION

MISSION NAME

ATF FORT HOOD, TX

MISSION OBJECTIVE:

☐ LOCAL AGENCY☐ INTERDICTION☐ INTELLIGENCE ONLY☐ STATE AGENCY☐ INTERDICTION & INTELLIGENCE☐ ENGINEER CONSTRUCTION☒ FEDERAL AGENCY☒ LEA TRAINING☐ GENERAL SUPPORT

JTF-Six requests this survey be completed by the senior agent most familiar with the subject operation conducted by the Department of Defense for you. This survey is designed to measure various aspects of the operation and its value to you. Please return the questionnaire in the envelope provided. Each of the four response columns has a letter (A, B, C, D, E) at the top. For each row, make one selection by placing an X in the box which best describes your assessment of each topic.

TOPIC	A	B	C	D	E
1. Law Enforcement objective met.	Does not apply or cannot be determined	Not specifically established	Partially met	Fully met	Beyond expectation
2. Impact on law enforcement resources (manpower/equipment).	Does not apply or cannot be determined	Required more of my resources than it was worth	Could do myself if I had been given funding	Required some of my assets but was worth it	Saved me some hours and money
3. Repeat this operation again.	Does not apply or cannot be determined	Will probably not request again	Probably will request again	Definitely again	Definitely will again and more
4. Quality of cooperation: Command, Control, Communication, Intel (C3I) between you and military.	Does not apply or cannot be determined	Serious problems need resolution next time	Minor problems but we were able to work around problem	C3I positive outcome	Well coordinated C3I link between Law & military
5. Your perception of unit working for you.	Does not apply or cannot be determined	Unmotivated, and not prepared to execute the operation	Motivated, but took a little time to get established	Motivated, and prepared/trained for the operation	Highly motivated, well prepared & trained for the operation
6. Timeliness of the military support provided.	Does not apply or cannot be determined	Provided, but too late to be effective	Provided, but over 60 days late	Provided, but over 30 days late	Provided within a week of required time
7. Planning for mission by unit.	Does not apply or cannot be determined	Ineffective	Marginally ineffective	Effective	Very effective
8. Unit's presence provided additional training benefits to OLEA (eg. training, org skills, tactics, etc.).	Does not apply or cannot be determined	No additional spin-offs	Received some new spin-offs	Unit provided valuable enhancements	Unit provided extremely valuable enhancements
9. Unit morale & esprit on operation.	Does not apply or cannot be determined	Low / poor	Average	Above average	High / strong
10. Relationship between military and law enforcement leaders.	Does not apply or cannot be determined	Antagonistic	Mixed together only when necessary	Participative, working relationship	Active team effort

Questions concerning this survey can be made by calling JTF-Six, AUTOVON 978-8888, or commercial (915) 565-8888 or writing: JTF-6, J-3 Ops, Ft. Bliss, Texas 79916

I WAS EXTREMELY SATISFIED WITH THE WHOLE OPERATION & VERY BENEFICIAL! THANK YOU!

01 FEB 93

MEMORANDUM FOR OPS SPECIAL OPERATIONS STAFF

SUBJECT: ATF SPECIAL SR

1. ATF has submitted an SR to Operation Alliance requesting some help from both JTF-6 and the Texas National Guard. ATF SWAT teams are organizing a compound take-down of an extremist group in the WACO vicinity known to be producing METH. LEA intel indicates that they may have 3.50 CAL machine guns..

2. Originally wanting to do the take-down on 15 Feb, they have postponed the operation until after all warrants and Federal Grand Jury requirements are completed. Operation now scheduled for end of Feb.

3. Information:

POC Operation Alliance: [REDACTED] (8)

POC ATF, Houston: [REDACTED] (1)

POC III Corps: [REDACTED] (8) (DSN 737-4211) Note that I asked them to make the MOUT site available.

4. Judging from the fact that the 0900 meeting on 02 Feb is with the "head log guy" from ATF, I believe the thrust will be equipment oriented.

The original SR wanted about 7 or 8 BRADLEY Fighting Vehicles. I called the NET (New Equipment Team [REDACTED] 29th Inf, Ft Benning, 691-1752--then at Ft Carson, who said the normal tng time for a BRADLEY driver was 40 days. He could cut out all the maint and 25mm stuff and drop it to 5 days.) It has been suggested that LAVs (from TXNG be substituted for the Bradley's --but they only have 3 or 4 operational and they don't run half-inch bullets very well. Tanks if you are serious!

5. Because the law and JCS/SECDEF policies restrict us to only providing operational support, most of the SR will have to be filled via [REDACTED] also (33) attending the meeting on the 2d.) We may be able to provide MOUT style instruction and rehearsal support and maybe some emergency medical care spt.

AGREEMENT FOR THE LOAN OF U.S. ARMY MATERIEL

For use of this form, see AR 700-131; the proponent agency is DCSLOG

This loan agreement is entered into, by, and between the United States of America, hereinafter called "the lender," represented by (b) USPFO for Texas

For the purpose of entering into this agreement, and (a) FBI hereinafter called "the borrower," represented by (c) [REDACTED] for the purpose of entering into this agreement.

1. PURPOSE. Under the authority of (d) AR 700-131 the lender hereby lends to the borrower and the borrower hereby borrows from the lender the Government materiel, hereinafter called "the materiel," listed and described in Exhibit 1 hereto attached and incorporated by reference into the terms of this agreement, which materiel is required by the borrower for (e) law enforcement activities within the State of Texas

2. TERM. This loan of materiel is intended to meet a temporary need covered by federal law. The borrower will keep the materiel only for the period of (f) 10 MAR 93-31 MAR 93 (21) (not to exceed 90 days). Loans may be renewed, if justified, and requested by the borrower and approved by the lender. Nevertheless, the lender may revoke and terminate this agreement and demand return of the materiel in whole or in part at any time.

3. CONDITIONS. This agreement is predicated upon the following conditions:

a. The LENDER will make every effort to ensure that each item of the materiel is furnished to the BORROWER in a serviceable and usable condition according to its originally intended purpose. However, if the use for which the materiel is loaned will permit, materiel of a lesser condition will be loaned. This lesser condition will be noted on the appropriate loan documents. Nevertheless, the LENDER makes no warranty or guarantee of fitness of any of the materiel for any of the materiel for a particular purpose or use, or warranty of any type whatsoever.

b. This agreement covers only the specific federally owned National Guard property particularly described in Appendix A (description will cover actual condition of property and is as uniquely descriptive terms as possible, such as motor number or model number) attached hereto and made a part thereof.

c. The National Guard assumes no liability for personal injury or property damage resulting from use of property on loan and hereby provides the property "as is" and makes no other warranties as to fitness for particular purpose or otherwise.

d. Property will be inspected jointly by the LENDER and the BORROWER before acceptance by the BORROWER at the time of pickup and before acceptance by the LENDER at the time of return. A description of the actual condition of the property loaned is indicated in Appendix A. However, the property will be available "as is" at TSTC AIRPORT on 10 MAR 93.

In event of loss, damage, or destruction LTC [REDACTED] representing the LENDER will be notified immediately by the BORROWER.

f. The required organizational maintenance will be performed before releasing equipment to the BORROWER, if parts are available (see item 3d).

g. The BORROWER will appoint a representative for the purpose of making joint inspection and inventory of all materiel when the BORROWER physically picks up or returns the borrowed materiel. Upon pickup (or receipt after shipment) of the borrowed materiel, the accounting officer of the borrowing activity (or his authorized representative) will sign the appropriate documents acknowledging receipt and possession of the materiel. Upon return of the materiel to the LENDER, the BORROWER will certify that "the quantities listed in the shipping document (loan) are correct." In instances where BORROWER representatives authorized to receive and sign for borrowed materiel are not available when the materiel is delivered, all claims for costs related to the loan will be valid.

h. The BORROWER is responsible for care and maintenance of borrowed materiel during the term of the loan. The borrower will provide sufficient personnel and facilities to adequately operate, maintain, protect, and secure the borrowed materiel. The borrower will maintain the materiel in a serviceable condition and ascertain that it is returned to the LENDER in as good a condition as when it was loaned (fair wear and tear excepted). Equipment will be returned to LENDER IAW -10/20 series TM maintenance standards. Records of maintenance performed will be returned to LENDER with the borrowed equipment.

i. The BORROWER will store, safeguard, and secure high value items, or arms in a manner consistent with common practice, public law, and local regulations.

j. The borrower will prevent misuse of borrowed materiel; or its use by unauthorized persons.

k. The BORROWER agrees to indemnify the LENDER, any agent of the LENDER, and the STATE OF TEXAS in the event of any loss, damage, or destruction of property that results in pecuniary charges against the LENDER, its agent, or the State of Texas imposed pursuant to 32 U.S.C. 710 as implemented by AR/ARNG regulations.

l. Military BORROWERS will perform and pay for costs of maintenance service prescribed in official publications applicable to particular items including any preservation, replacement, and/or repairs incident to the loan.

m. A record of gasoline consumed, oil added, and repairs made, including parts replaced will be furnished to the LENDER upon return of the equipment. The LENDER will ensure that fuel tanks of vehicles and other POL-consuming equipment are full at time of the loan, and the BORROWER will fill fuel tanks at time of return.

n. Equipment log books/forms will remain in custody of the LENDER.

o. Property will remain on the property records of the LENDER supported by a receipt from the BORROWER and the original copy of this loan agreement.

p. The BORROWER will provide to LENDER the HMC/MC status of the equipment by the 10th day months.

D2586

00000000

q. The BORROWER will neither make nor permit any modification, removal or alteration of any borrowed material except with permission of the approving authority for the loan. The BORROWER will not cannibalize the borrowed material. All serial numbered items to include radios must be returned to lender and not substitutions.

r. The BORROWER will not mortgage, pledge, assign, transfer, sublet, or part with possession of any borrowed material in any manner to any third party either directly or indirectly except with the prior written approval of the lender.

s. At all times the lender shall have free access to all loaned material for the purpose of inspecting or inventorying it.

t. The borrower will return borrowed material to a location designated by the lender when the material is no longer needed; upon termination of the loan period (including any approved extension); or upon demand therefore by the LENDER. The LENDER will provide documents to be used by the borrower to return to LENDER.

4. PAYMENT. The BORROWER will reimburse the lender for expenses incurred in connection with this loan as provided below:

a. Cost of pickup and return of borrowed property to include cost of repair parts (65 percent of the acquisition cost for DX items).

b. Labor to install/repair parts/repair equipment at the standard labor rate published by NGB.

c. Labor required to inspect equipment for issue/turn-in using the average time required for issue and turn-in at the standard labor rate published by NGB.

d. The proper operation and use of property during the period of the loan.

e. Cost of repairs and rehabilitation of property resulting from use by the BORROWER.

f. Replacement in kind and/or reimbursement of loss, damage, and destruction through causes other than fair wear and tear, including prompt investigation of the circumstances of such loss, damage, or destruction when such investigation is requested by the State of Texas.

g. Ensure that the equipment is not used in any way to discriminate based on race, creed, color and taking reasonable measures to make certain said loaned property is not used for other than official approved activities.

h. The BORROWER will reimburse the lender for any expenses necessary to repair, rehabilitate, or preserve the material following its return to the lender. (NOTE: Of any loaned material, unless depreciation is significant.)

i. The BORROWER will reimburse the LENDER for costs incident to the pay of Army personnel who may be temporarily required to operate, maintain, guard, or otherwise attend to borrowed material. This includes travel and per diem costs for both Army uniformed and civilian personnel, and regular salary and overtime costs for Army civilians.

j. The BORROWER will reimburse the LENDER for any other expense to the lender arising in connection with this loan.

NGB-ZA (37-20a)

MEMORANDUM FOR [REDACTED]

SUBJECT: Appointment of AR 15-6 Investigating Officer

1. References:

a. AR 15-6, Procedure for Investigating Officers and Boards of Officers, 11 May 88.

b. DOD 7000.14-R, Financial Management Regulation, Volume 14, Administrative Control of Funds and Antideficiency Act Violations.

c. Memorandum, NGB-ARC, 28 Jul 95, subject: Flash Report, Potential Violation of AR 37-1 (enclosure).

2. You are hereby appointed as an investigating officer under the provisions of AR 15-6 to inquire into the possible violations of AR 37-1, "Army Accounting and Fund Control." Details of the possible violation are provided in the enclosed memorandum.

3. You will conduct an informal investigation IAW AR 15-6 to determine the facts surrounding the alleged violation of regulation and law. You will gather sufficient pertinent facts to render a detailed report with all dates, funds and personnel identified and applicable substantiating documents included. All statements will be taken on a DA Form 2823 and then will be properly sworn. Your findings and recommendations will be reported on a DA Form 1574.

4. You must first conduct a preliminary review to gather all facts concerning this case. A preliminary report must be submitted stating the facts of the case and determining whether a violation has apparently occurred. This report must be submitted to the Army Guard Comptroller (NGB-ARC) by 30 Sep 95.

5. If your preliminary review finds a violation has apparently occurred, then a complete investigation must be accomplished. Information on conducting an investigation of a possible antideficiency act violation and a checklist for investigating officers is included in reference 1b. If a complete investigation is required the report must be submitted by 27 Oct 95 to NGB-ARC.

NGB-ZA

SUBJECT: Appointment of AR 15-6 Investigating Officer

6. Two personnel will be assigned to assist you with your preliminary review and investigation, an auditor and legal counsel. The conduct of this investigation is of high priority and must be started as soon as possible and completed in a timely manner.

7. To obtain information on required elements of the preliminary report and the report of final investigation, contact Ms. [REDACTED] Name 320 [REDACTED], NGB-ARC, COMM: 703-607-7534, DSN: 327-7534. Ms. [REDACTED] Name 321 will also put you in contact with the personnel (audit and legal) assigned to assist you with your investigation.

Biographical Information on ATF Agents Who Were Killed

1
Special Agent [REDACTED] of the ATF Houston Field Division worked out of the Houston Post of Duty. Born December 18, 1960, he graduated from Southwest Texas State University in San Marcus, Texas, with a B.S. in Criminal Justice, in December of 1986. Before joining ATF in Houston in July of 1990, he worked for 3 years as a special agent with Defense Investigative Service.

2
Special Agent [REDACTED] of the New Orleans Field Division worked out of the Little Rock, Arkansas Post of Duty. Born March 1, 1966, he worked for ATF for 4 years, entering duty on October of 1988. Special Agent [REDACTED], a graduate of Florida State University, was from Jackson, Mississippi, and is survived by his wife.

3
4
Special Agent [REDACTED] of the New Orleans Field Division worked out of the New Orleans Post of Duty. Originally from Lake Charles, Louisiana, the 30-year-old special agent was a graduate of McNeese State University and had been with ATF for over 5 years. He is survived by his wife and 2 sons.

5
Special Agent [REDACTED] of the New Orleans Field Division worked out of New Orleans Field Division, and he has been an ATF agent for over 3 years. The 28-year-old was from Elizabethton, Tennessee, and a graduate of Eastern Tennessee State University. He was a veteran of Desert Storm. Special Agent [REDACTED] is survived by his wife.

U.S. Government Printing Office: 1982 — 311-63000167

000000

g. The BORROWER will neither make nor permit any modification, removal or alteration of any borrowed material except with permission of the approving authority for the loan. The BORROWER will not cannibalize the borrowed material. All serial numbered items to include radios must be returned to lender and not substitutions.

r. The BORROWER will not mortgage, pledge, assign, transfer, sublet, or part with possession of any borrowed material in any manner to any third party either directly or indirectly except with the prior written approval of the lender.

s. At all times the lender shall have free access to all loaned material for the purpose of inspecting or inventorying it.

t. The borrower will return borrowed material to a location designated by the lender when the material is no longer needed; upon termination of the loan period (including any approved extension); or upon demand therefore by the LENDER. The LENDER will provide documents to be used by the borrower to return to LENDER.

4. PAYMENT. The BORROWER will reimburse the lender for expenses incurred in connection with is loan as provided below:

a. Cost of pickup and return of borrowed property to include cost of repair parts (65 percent of the acquisition cost for DX items).

b. Labor to install/repair parts/repair equipment at the standard labor rate published by NGB.

c. Labor required to inspect equipment for issue/turn-in using the average time required for issue and turn-in at the standard labor rate published by NGB.

d. The proper operation and use of property during the period of the loan.

e. Cost of repairs and rehabilitation of property resulting from use by the BORROWER.

f. Replacement in kind and/or reimbursement of loss, damage, and destruction through causes other than fair wear and tear, including prompt investigation of the circumstances of such loss, damage, or destruction when such investigation is requested by the State of Texas.

g. Ensure that the equipment is not used in any way to discriminate based on race, creed, or color and taking reasonable measures to make certain said loaned property is not used for other than official approved activities.

h. The BORROWER will reimburse the lender for any expenses necessary to repair, rehabilitate, or preserve the material following its return to the lender. (NOTE: Of any borrowed material, unless depreciation is significant.)

i. The BORROWER will reimburse the LENDER for costs incident to the pay of Army personnel who may be temporarily required to operate, maintain, guard, or otherwise attend to borrowed Army material. This includes travel and per diem costs for both Army uniformed and civilian personnel, and regular salary and overtime costs for Army civilians.

j. The BORROWER will reimburse the LENDER for any other expense to the lender arising in connection with this loan.

D2576

0220000

f. The required organizational maintenance will be performed before releasing equipment to the BORROWER, if parts are available (see item 3d).

g. The BORROWER will appoint a representative for the purpose of making joint inspection and inventory of all materiel when the BORROWER physically picks up or returns the borrowed materiel. Upon pickup (or receipt after shipment) of the borrowed materiel, the accounting officer of the borrowing activity (or his authorized representative) will sign the appropriate documents acknowledging receipt and possession of the materiel. Upon return of the materiel to the LENDER, the BORROWER will certify that "the quantities listed in the shipping document (loan) are correct." In instances where BORROWER representatives authorized to receive and sign for borrowed materiel are not available when the materiel is delivered, all claims for costs related to the loan will be valid.

h. The BORROWER is responsible for care and maintenance of borrowed materiel during the term of the loan. The borrower will provide sufficient personnel and facilities to adequately operate, maintain, protect, and secure the borrowed materiel. The borrower will maintain the materiel in a serviceable condition and ascertain that it is returned to the LENDER in as good a condition as when it was loaned (fair wear and tear excepted). Equipment will be returned to LENDER IAW 10/20 series TM maintenance standards. Records of maintenance performed will be turned to LENDER with the borrowed equipment.

i. The BORROWER will store, safeguard, and secure high value items, or arms in a manner consistent with common practice, public law, and local regulations.

j. The borrower will prevent misuse of borrowed materiel; or its use by unauthorized persons.

k. The BORROWER agrees to indemnify the LENDER, any agent of the LENDER, and the STATE OF TEXAS in the event of any loss, damage, or destruction of property that results in pecuniary charges against the LENDER, its agent, or the State of Texas imposed pursuant to 32 U.S.C. 710 as implemented by AR/ARNG regulations.

l. Military BORROWERS will perform and pay for costs of maintenance service prescribed in official publications applicable to particular items including any preservation, replacement, and/or repairs incident to the loan.

m. A record of gasoline consumed, oil added, and repairs made, including parts replaced will be furnished to the LENDER upon return of the equipment. The LENDER will ensure that fuel tanks of vehicles and other POL-consuming equipment are full at time of the loan, and the BORROWER will fill fuel tanks at time of return.

n. Equipment log books/forms will remain in custody of the LENDER.

o. Property will remain on the property records of the LENDER supported by a receipt from the BORROWER and the original copy of this loan agreement.

p. The BORROWER will provide to LENDER the NMC/MC status of the equipment by the 10th day of each month.

D2577

1550000

AGREEMENT FOR THE LOAN OF US ARMY MATERIEL

For use of this form, see AR 700-131; the proponent agency is DCSLOG

This loan agreement is entered into, by, and between the United States of America, hereinafter called 'the lender,' represented by (b) TEXAS ARMY NATIONAL GUARD

USPF & O FOR TEXAS

for the purpose of entering into this agreement, and (a) FEDERAL BUREAU OF INVESTIGATION

hereinafter called 'the borrower,' represented by (c) LTC [REDACTED] (30) for the purpose of entering into this agreement.

1. PURPOSE Under the authority of (d) AR 700-138 the lender hereby lends to the borrower and the borrower hereby borrows from the lender the Government materiel, hereinafter called 'the materiel,' listed and described in Exhibit 1 hereto attached and incorporated by reference into the terms of this agreement, which materiel is required by the borrower for (e) FBI HOSTAGE RESCUE TEAM, LOAN OF 10 BRADLEY Fighting VEHICLES, M2.

2. TERM. This loan of materiel is intended to meet a temporary need covered by federal law. The borrower will keep the materiel only for the period of (f) 1 MARCH 93 - 31 MARCH (not to exceed 90 days). Loans may be renewed, if justified, and requested by the borrower and approved by the lender. Nevertheless, the lender may revoke and terminate this agreement and demand return of the materiel in whole or in part at any time.

3. CONDITIONS. This agreement is predicated upon the following conditions:

a. The LENDER will make every effort to ensure that each item of the materiel is furnished to the BORROWER in a serviceable and usable condition according to its originally intended purpose. However, if the use for which the materiel is loaned will permit, materiel of a lesser condition will be loaned. This lesser condition will be noted on the appropriate loan documents. Nevertheless, the LENDER makes no warranty or guarantee of fitness of any of the materiel for any of the materiel for a particular purpose or use, or warranty of any type whatsoever.

b. This agreement covers only the specific federally owned National Guard property particularly described in Appendix A (description will cover actual condition of property and is as uniquely descriptive terms as possible, such as motor number or model number) attached hereto and made a part thereof.

c. The National Guard assumes no liability for personal injury or property damage resulting from use of property on loan and hereby provides the property 'as is' and makes no other warranties as to fitness for particular purpose or otherwise.

d. Property will be inspected jointly by the LENDER and the BORROWER before acceptance by the BORROWER at the time of pickup and before acceptance by the LENDER at the time of return. A description of the actual condition of the property loaned is indicated in Appendix A. However, the property will be available 'as is' at 15TC AIRPORT on 1 MARCH 1993. 44

e. In event of loss, damage, or destruction LTC [REDACTED] representing the LENDER will be notified immediately by the BORROWER.

AFTER ACTION REPORT

FROM: C Company, 3d Battalion, 3d Special Forces Group(Airborne)
Fort Bragg, North Carolina 28307-5253

TO: [REDACTED] Rapid Support Unit (RSU)
Operations, JTF-6 J3.

INFO: Commander, 3d Battalion, 3d Special Forces Group(Airborn
Fort Bragg, North Carolina 28307-5253

Subject: AFTER ACTION REPORT FOR MISSION (JT002-93)The RSU.

REF: A. SUPPORT REQUEST RSU FY93, d. 172245ZSEP92, JTF-6.
B. EXECUTION ORDER, d. 012245Z OCT92, CINCFOR.
C. MITASK JT 002-93, d. 241800ZAUG92, 3d SFG(A).
D. OPODER JT 002-93, d. 171800ZDEC92, B390.
E. All Mission Folders, FRAGO Msn's for JT002-93, Msns I", JTF-6 JOC Archives.

1. EXECUTIVE SUMMARY: JT Mission 002-93 commenced on 08JAN93 and lasted until 29MAR93 (initial deployment until final redeployment). Actual JCS/FORSCOM- approved mission execution window was 06JAN93- 27MAR93.

On 8 to 10 JAN93 elements from C 3/3 SFG(A) (+) closed into McGregor Range Camp, NM (Ft. Bliss), established initial communications and prepared the Advance Operations Base (AOB). 11-13JAN93, final coordinations, contracts and ROE/Legal briefs were given to the entire force. ~~On 140510TMAR93 the first FR was issued with immediate deployment.~~ On 25JAN93 the RSU Aviation detachment (elements of A Co. 3/160th SOAR) arrived. 2 MH-60"U" helos, and was operational on 27JAN93. During the 8 day deployment, 5 MTF's, 2 Special Reconnaissance (SR) and 1 Subject Matter Expert (SME) missions were conducted in support of Federal, 1 County and Navajo Nation, and 1 Local LEA. The main support efforts were small unit survivability and tactics training, extensive medical training, communications training, Fast Rope Infiltration/Exfiltration System and single-rope rappelling training, and considerable LP/OP early warning support. All missions were isolated, planned, launched and recovered and trained from the AOB at McGregor Range camp. Deployments/Infiltrations were conducted by various combinations of commercial air, contracted vehicles, other government air or unilaterally by the RSU Aviation. Redeployments/Exfiltrations were conducted in the same manner. Debriefs and post-ops maintenance were supported by JTF-6, and continued to support J2's active PIR program. From 9FEB93 to MC, all support and staff coordination (minus J2) was conducted by the 3 man Special Operations Support Element (SOSE). On 23MAR93, RSU supported the Abn deployment of RSU 3-93 into McGregor Range area. Overlap and a general "relief in place" is ongoing. Transfer of remaining CD-funded supplies and counterpart

AOSO-SFT-TB-C, AAR to JT002-93, B390, 261400TMAR93.

information. RSU 2-93 will AAR with JTF-6, forward stage to EAAP, and close accounts with JTF-6 on 27MAR93. After a day of preparation for a Company Abn operation, C Co 3/3 SFG(A) will redeploy by C141 JA/ATT (Abn).

A. MISSION:

C Company (+), 3d Battalion, 3d SFG(A) deploys 08JAN93 to FT BLISS TX, establishes an AOB, and conducts Special Reconnaissance and Mobile Training Team operations as the Rapid Support Unit (RSU) in support of LEA interdiction efforts against drug trafficking.

B. OBJECTIVES:

(1) LEA OBJECTIVE: PER OPN ALLIANCE REQUESTS

- a. Msn "B"(BORTAC)- To provide Training Assistance from the RSU for Rappel Master Training Session #2. To provide Training Assistance from the BORTAC Basic and Advanced Session #9.
- To provide Medical and Safety Coverage for all training activities occurring on FT BLISS property.

b. Msn "C"(USCS)- To provide training for US Customs Air Interdiction Teams deploying OCONUS in "Down Pilot" scenarios.

c. Msn "D"(USBP)- Detect and interdict "walk-arounds" of drugs at the SARITA(TX) CHECKPOINT. Receive additional NVG equipment support.

d. Msn "E"(BATF)- To provide training expertise for (company level) emergency/tactical medical evacuation, tactical communications net planning, and range/maneuver assistance on FT HOOD ranges.

e. Msn "F"(FBI/USBP)- To provide Subject Matter expertise for the slingload recovery of communications equipment from FRANKLIN MOUNTAIN requiring rotary-wing assets and Army ATC procedures.

f. Msn "G"(BORTAC)- To provide USBP with early warning and intercept/interdiction teams to work the "walk around" trails that circumvent the SARITA(TX) CHECKPOINT.

g. Msn "H"(IACP/SWAT)-To provide special

helicopter insertion/extraction and rappelling support for the scheduled International Association of Chiefs of Police(IACP) "Advanced Special Weapons and Tactics" course.

h. Msn "I"(SAN JUAN CO SHERIFF and elements of NAVAJO NATION POLICE) - To provide Combat Lifesaver Training for EMT-trained LEA as applied to scenarios and equipment encountered by the LEA. To provide Emergency Air MEDEVAC training and familiarization as applied to area-specific scenarios and equipment.

(2) UNIT OBJECTIVE: Intent of Cdr, RSU

My intent is to work closely with our JTF-6 Operations officer and LEA leadership, within our ROE and sustainment capabilities, in order to accomplish Special Reconnaissance and Mobile Training Team missions. We will maintain a regular training opportunity that will facilitate concentrating on our training weakness within our METL's. Our Main Effort is in supporting the LEA within our AOR and ensuring the survivability of our mission teams and aircrews. Our supporting effort is the ongoing METL-supported training of ODB/ODA's and flightcrews. Our enhanced relationship with LEA'S and JTF-6 and our strict adherence to OPSEC measures will facilitate the follow-on RSU missions.

(3) JTF-6 OBJECTIVE:

JTF-6 provides on-call support to Operation Alliance throughout the Southwest Border.

- Provide SR/ Patrolling (LP/OP) support.
- Provide critical-subject modified MTT support.
- Provide advisory/specialty support.

C. RESOURCES:

(1) MANDAYS: (86px X 81days) 6723 m/days.

(2) FLIGHT HOURS: Actual Operational (27JAN93-27MA
189.1 flight hours total
22.1 A Co METL
126.1 A&C Co METL
39.9 JT Msn Support

LEA SENSITIVE

AOSO-SFT-TB-C, AAR to JT002-93, B390, 261400TMAR93.

(3) ESTIMATED TOTAL COST: (Minus TDY vouchers still processing- see ANNEX A- BUDGET)

2. LESSONS LEARNED:

A. OBSERVATION: Rapid release of DIRLAUTH to B390 facilitated rapid mission analysis and execution of all RSU missions.

(1) DISCUSSION: The RSU Bdct staff was able to react quickly to verbal warning orders from the RSU Opns officer and was able to pin-point initial requirements direct from the requesting LEA. This facilitated a very rapid RFI assessment from the RSU S2 and the RSU Cdr's prepared Intent. [REDACTED] were very good at facilitating the RSU's 1/4-3/ planning time discipline. On our very first mission tasking we were able to launch the Survey Team for a major SR effort inside of 12 hrs. with a Concept of Operation already in mind and being concurrently planned.

(2) LESSONS LEARNED: The faster DIRLAUTH is released, the better conditions exist for "Rapid Support".

~~(3) RECOMMENDATIONS: Don't change this feature.~~

(4) COMMENT: Using the RSU as the eyes and ears for JTF-6 in every RSU msn for assessment is excellent.

B. OBSERVATION: The RSU was occasionally told specifically how many dets/ people and specific types of equipment to send on missions during Warning Orders and mission coordinations.

(1) DISCUSSION: Although we never experienced a severe setback, time and resources were wasted trying to communicate our desire to establish what "effects" were desired by CPN ALLIANCE through JTF-6, and not "who" or "what" had to go. At times the J3 shop meshed "oversight" with "planning", before the accurate mission analysis was accomplished.

(2) LESSON LEARNED: We have found on these missions that we could have better served the LEA on the ground if we had concentrated on exactly what they wanted to accomplish, verses

LEA SENSITIVE

copy 2 of 3 copies

AOSO-SFT-TB-C, AAR to JT002-93, B390, 261400TMAR93.

concentrating only on what they wanted of the RSU based on equipment or numbers of people.

(3) RECOMMENDATIONS: Attempt to assist OPN ALLIANCE in identifying the "effect", and then relay this with the J3's intent.

C. OBSERVATION: The Mechanics of the J3 System for RSU taskings support rapid planning.

(1) DISCUSSION: The process of WARNORD, Msn Receipt, Planning Support and Preparation, Msn Oversight, and then recovery worked well and fit the flexible needs of the RSU. The RSU staff felt that for the most part it had "room to maneuver" in conducting Mission Analysis and Planning. This same perception was evident in the robustness of Msn team planning.

(2) LESSON LEARNED: J3 does protect MSN teams ability to influence supported LEAs Initial Concept of Operation in the area.

(3) RECOMMENDATION: Maintain this same perception with 1/3 SFG(A), then B 3/10 SFG(A).

(4) COMMENT: Requirements to initiate MSN Analysis

- a. Operation Alliance Support Request
- b. WARNORD to FORSCOM
- c. DIRLAUTH

D. OBSERVATION: USSOCOM Equipment

(1) DISCUSSION: Some of the mission equipment requirements for the RSU are not organic to the SOF MTOE. Although much of this equipment can be obtained from the J-4 through tasking Ft Bliss units, it can be time consuming, and times, lead to dead ends.

(2) LESSON LEARNED: Do not depend solely on the to procure specialized equipment.

(3) RECOMMENDATION: When missions require special equipment, allow enough time for using USSOCOM as an alternate source of procurement. Justification for requesting equipment

LEA SENSITIVE

p 5 of 22 pp

FOR OFFICIAL USE ONLY

AGSO-SFT-TB-C.AAR to JT002-93, B390, 261400TMAR93.

Generally high-tech NVG must be validated by USASOC, G3 as having an operational priority. Requests will compete with SOF units executing CINCSOCOM initiatives.

(4) COMMENT: POCs

a. USSOCOM: [REDACTED] DSN: 968-2953/3157
FAX: 968-4741

b. SOFSA: [REDACTED] DSN: 745-3728/3869
FAX: 745-3140

Any support provided must be FEDEXed return by agreed time periods and equipment can only be utilized by SOF forces.

E. OBSERVATION: Critical Chaplain Support is available vicinity the RSU base.

3 (1) DISCUSSION: After learning from the 3d SFG(A) Chaplain, [REDACTED] of the availability of services from [REDACTED] to include church service, counseling, crisis management, and trauma assistance, The RSU made maximum use of his time and Religious Services coordinations. Given the potential for serious incidents, casualties, and the long family separations, [REDACTED] could be instrumental in sharing the emergency response support for the RSU. [REDACTED] the 75th IN(RGR) REG Chaplain, the 1st SFG(A) Chaplain, and his extensive experience in identifying supportive measures for Special Operations personnel and their families.

(2) LESSON LEARNED: An important asset for Spiritual and emergency support is available.

(3) RECOMMENDATION: Read-on [REDACTED] as to actual missions of the RSU.

F. OBSERVATION: MD90 Refill

(1) DISCUSSION: Despite the findings of the Investigating Officer for the 15-6 ordered by the 3d SFG(A) Commander, 3d SFG(A) still has a moratorium on filling MD80s certified civilian facilities.

(2) LESSON LEARNED: This hampers the ability of

LEA SENSITIVE

p. 2 of 29 pp

FOR OFFICIAL USE ONLY

AOSO-SFT-TB-C,AAR to JT002-93, B390, 261400TMAR93.

UWO detachment to conduct full, complete training for their KSU Hull Search/Bottom Search mission. Additionally, it requires doubling the amount of MD80 sets per diver in order to always have a minimum capability to conduct the mission.

(3) RECOMMENDATION: Bring at least 2 sets of MD80s. per individual, for the train-up session, and 1 set, per individual, for operational purposes.

H. OBSERVATION: The week prior to our deployment was an exercise in crisis management.

(1) Discussion: There seemed to be a lack of preparation for executing the contingency plan to move our ammo/demo. There also seemed to be a lack of expertise among the company personnel in regard to the organization and shipping of it.

(2) Lesson Learned: Have well thought out contingency plans. Understand and know ammunition handling and transportation procedures.

(3) Recommendation: Develop a comprehensive company SOP and ensure that we have enough qualified personnel to implement it. One or two individuals with the knowledge isn't enough.

I. OBSERVATION: Equipment problems with the Dive Locker

(1) Discussion: Scuba tanks that we received weren't jammed to operational levels. We weren't able to get pressure gauges for our regulators or tac boards for our compass swimmers. We didn't get extra fin or mask straps even though we were deploying for a lengthy period of time.

(2) Lesson Learned: Have detachment personnel check all equipment drawn.

(3) Recommendation: Always double-check whatever we get so we're not caught short again. As for pressure gauges tac boards there never really was a good reason why we didn't get them, so I guess the right answer in the future is not to accept no for an answer.

FOR OFFICIAL USE ONLY

LEA SENSITIVE

copy 2 of 3 copies

AOSO-SFT-TB-C.AAR to JT002-93, B390, 261400TMAR93.

J. OBSERVATION: Deployment of main body personnel from Ft Bragg to McGregor.

(1) Discussion: Deployment of personnel via commercial airlines went well. Movement into billets was smooth and the facilities were adequate.

(2) Lesson Learned: The contingency plan for movement of personnel was good.

(3) Recommendation: None.

K. OBSERVATION: Training Ranges

(1) Discussion: All ranges that we used were good and allowed us to meet our training goals. More ranges could have been utilized on Meyer Range to lessen the logistical problems moving to Dona Ana.

(2) Lesson Learned: Identify all range assets prior to deployment (including NBC chambers, rappel towers, etc.).

(3) Recommendation: Make sure the site survey finds out the full training potential of any area we go to so time's not wasted once we get on the ground. Always read the index of available facilities found in the back of all post range regulations.

L. OBSERVATION: AOB support

(1) Discussion: Overall AOB support was good with team members bending over backwards to make things work. Sometimes though there was a tendency for things to drop thru the cracks. As in pre-deployment, too much of the load seemed to be on the backs of one or two individuals.

(2) Lesson Learned: Even with SOPs, and cross-training personnel is a must.

(3) Recommendation: Spread the work load and responsibilities farther.

M. OBSERVATION: Mission 002 "H"

LEA SENSITIVE

p 8 of 29pp

FOR OFFICIAL USE ONLY

Z 0035493

AOSO-SFT-TB-C.AAR to JT002-93, B390, 261400TMAR93.

(1) Discussion: Overall the mission was a success and provided the first training opportunity for the team to work with and train "students" in an MTT scenario. The problem was the effort that went into the planning, preparation, and conduct of the mission (not to mention the expense of sending two MH-60s) didn't really balance out with the amount of training actually conducted. The 5 day duration of the SWAT course and its specialized content made it difficult to add in additional training. If we hadn't been able to add in the FRIES training, the mission wouldn't have been worth it.

(2) Lesson Learned: Carefully screen missions to determine training benefit vs. cost.

(3) Recommendation: One possibility when supporting course like this is to combine it with a follow-on mission of providing training to the hosting police department. The response that we received from all LEA personnel involved was extremely positive and I believe that they would be receptive to this idea.

O. OBSERVATION: Utilization of aviation assets

(1) Discussion: One of the greatest benefits of ~~deploying on this mission~~ has been the availability of the MH-60s. The pilots and crews have provided great support and have been receptive to all of our training requests.

(2) Lesson Learned: Incorporate the aviation into training whenever possible.

(3) Recommendation: Develop aviation-based training concepts ahead of time (prior to deployment if possible). The training concepts should include infiltration/exfiltration in FTX-type scenarios. When feasible, recognize the training needs of the aviators and try to incorporate their requirements into your own.

P. OBSERVATION: Lack of RSU missions

(1) Discussion: If people are serious about the war on drugs, why don't they use us in the fight? It doesn't take long for the reality to set in that politics seem to be the

FOR OFFICIAL USE ONLY

LEA SENSITIVE

copy 2 of 3 copies

AOSO-SFT-TB-C.AAR to JT002-93, B390, 261400TMAR93.

driving force rather than what's needed on the ground.

(2) Lesson Learned: Mission OPTEMPO needs to increase.

(3) Recommendation: Put us with the people that need us-- the ones in the bush who patrol the border and make the drug busts. Have RSU assets service JTF-6 PIRs built on historical LEA cases. Confirm or Deny missions do not require interdiction capabilities from LEA's and can occasionally service specific J2 PIR needs.

Q. OBSERVATION: RANGE SCHEDULING

(1) DISCUSSION: RANGE SCHEDULING WAS DONE THROUGH MCGREGOR RANGE SCHEDULING. POC: [REDACTED] AND [REDACTED] TELEPHONE - WORK (915) 568-9247, [REDACTED] USE OF ALL RANGES AND DZ's WAS COORDINATED THROUGH MCGREGOR RANGE SCHEDULING

(2) LESSONS LEARNED: STANDARD LETTER OF LATENESS NEEDED TO ACCOMPANY ALL RANGE/DZ REQUESTS UNDER 30 DAYS, SEE ENCLOSURE 1. FORT BLISS FORM 88 WAS USED TO SCHEDULE ALL RANGE AND TRAINING AREAS. FORT BLISS FORM 0020, AIR MISSION REQUEST, WAS USED TO REQUEST AIR SPACE FOR AIRBORNE/AIRMOBILE OPERATIONS. AT TIMES, REQUESTED RANGES WERE UNAVAILABLE DUE TO OTHER UNITS' PRIOR COORDINATION. FAILURE TO SIGN FOR A RANGE BY 1000hrs ON THE SCHEDULED RANGE DAY RESULTS IN A CANCELLATION OF THAT RANGE. IF THE RANGE IS BLOCKED IN FOR SEVERAL DAYS, THIS WILL RESULT A CANCELLATION OF THE ENTIRE BLOCK.

(3) RECOMMENDATIONS: TRY TO FORECAST AS FAR IN ADVANCE AS POSSIBLE TO ASSURE USAGE OF A REQUIRED RANGE. IF POSSIBLE, SEND PROPER PAPER WORK WITH SITE SURVEY TO REQUEST RANGES. IF A SCHEDULED RANGE IS NOT GOING TO BE UTILIZED DUE MISSION REQUIREMENTS, CANCEL THE RANGE AS SOON AS POSSIBLE.

(4) COMMENTS: RANGE SCHEDULING WAS VERY HELPFUL AND COOPERATIVE. THEY BENT OVER BACKWARDS TO SHOW US THE ROPES. THEY ALSO WERE EXTREMELY TOLERANT OF OUR SHORT NOTICE REQUESTS.

R. OBSERVATION: DONA ANA RANGE CONTROL

LEA SENSITIVE

page 2 of 29 pp

FOR OFFICIAL USE ONLY

LEA SENSITIVE

copy 2 of 3 copies

AGSO-SFT-TB-C, AAR to JT002-93, B390, 261400THAR93.

(1) DISCUSSION: DONA ANA RANGE WAS USED FOR SMALL ARMS FIRE, MANEUVER RANGES, PLUS ALL THE DEMOLITIONS TRAINING, MACHINEGUN, AND INDIRECT FIRE. POC: [REDACTED] TELEPHONE - (915) 568-0392. RANGE SAFETY OFFICER: [REDACTED] TELEPHONE - (915) 568-0448/0334.

(2) LESSONS LEARNED: RANGE CERTIFICATION FOR OIC AND RSO IS COORDINATED THROUGH SFC CATON. CERTIFICATION CONSISTS OF A BRIEFING GIVEN AT DONA ANA RANGE CONTROL... OIC HAS TO BE E-7 ABOVE. RSO HAS TO BE E-6 OR ABOVE. IF DURING MORTAR TRAINING ALLUM ROUNDS ARE FIRED, A REPRESENTATIVE FROM DONA ANA RANGE CONTROL HAS TO BE PRESENT. HELICOPTERS HAVE TO RECEIVE PERMISSION TO CROSS WEST OVER WAR HIGHWAY FROM DONA ANA RANGE CONTROL.

(3) RECOMMENDATIONS: GET AS MANY PEOPLE OIC/RSO CERTIFIED AS POSSIBLE. THIS WILL ALLOW WHOLE TEAMS TO TRAIN WHILE SUPPORTED FROM OUTSIDE OR, IF NEEDED, THEY CAN BE SELF-SUPPORTED.

(4) COMMENT: NONE

S. OBSERVATION: MEYER RANGE CONTROL

(1) DISCUSSION: MEYER RANGE IS LOCATED SIX MILES FROM MCGREGOR BASE CAMP. IT WAS USED FOR SMALL ARMS FIRE, MANEUVER RANGES, RIFLE AND PISTOL QUALIFICATION, AND THE BORTAC COB L. FIRE. POC: [REDACTED] TELEPHONE - (915) 568-9414.

(2) LESSONS LEARNED: RANGE CERTIFICATION CONSISTS OF A QUESTION TEST. THIS TEST IS GIVEN AT MEYER RANGE CONTROL AND DOES NOT REQUIRE PRIOR COORDINATION. TWENTY-FOUR HOURS BEFORE SIGNING FOR A RANGE, THE OIC HAS TO CHECK IN WITH MEYER RANGE. THIS CAN BE DONE TELEPHONICALLY.

(3) RECOMMENDATIONS: DUE TO CLOSE PROXIMITY OF MEYER RANGE, LOGISTICAL SUPPORT WAS EASY TO COORDINATE. THEREFORE MEYER RANGE SHOULD BE UTILIZED WHENEVER POSSIBLE.

(4) COMMENT: PERSONNEL AT MEYER RANGE WERE VERY COOPERATIVE. THEY ACCEPTED AND SUPPORTED A VARIETY OF CONC: AND WERE WILLING TO WORK ON WEEK-ENDS.

LEA SENSITIVE

AOSO-SFT-TB-C.AAR to JT002-93, B390, 261400THAR93.

T. OBSERVATION: RANGER TRAINING BRIGADE (RTB).

(1) DISCUSSION: RTB SUPPORTED THE RSU BY SUPPLYING SUCH THINGS AS WEEKLY JUMPS FROM UH-60 AIRCRAFT, PYROTECHNICS, RIGGER PACKING AREA, ARMS ROOM TOOLS, USE OF MOTORPOOL FACILITIES, AND KEYS TO THE WEIGHT ROOM. POC: S-3 AIR; [REDACTED] [REDACTED] TELEPHONE - (915) 568-9263. S-4/RIGGER SHED/ARMS ROOM: [REDACTED] TELEPHONE - (915) 568-9572

2 (2) LESSONS LEARNED:

(3) RECOMMENDATIONS: Provide 7th RTB with limited comms equipment, aircraft platforms, Jumpmaster support, Rigger support, parachutes, smoke grenades, limited live fire ammunition for air training, PMCS training for vehicles, and Demo Training Area.

(4) COMMENTS: EXCELLENT WORKING RELATIONSHIP WITH R [REDACTED] BE MAINTAINED DURING FUTURE RSU MISSIONS.

U. OBSERVATION: OPERATIONS CENTER(OPCEN)

(1) DISCUSSION: THE OPCEN WAS THE FOCAL POINT IN WHICH ALL RSU MISSIONS WERE TRACKED BY MAP OVERLAYS, OPERATIONS SCHEDULES (OPSCED), AND MISSION FOLDERS. THIS WAS ALSO THE PLACE WHERE MISSION BRIEFINGS, I.E. MORNING UPDATE, VISITORS BRIEFING, ETC. WAS HELD. THE OPCEN WAS AN INTEGRAL PART OF AOB OPERATIONS.

(2) LESSONS LEARNED: MAKE THE OPCEN FIT THE MISSION. PLenty OF ROOM IS NEEDED TO FIT IN MAP BOARDS, OPSCED BOARD AND BRIEFING AREA IN THE OPCEN. OPSCED AND MAP OVERLAYS MUST BE UPDATED IMMEDIATELY AFTER RECEIVING ANY MESSAGES FROM DEPLOYED DETACHMENTS. MORNING BRIEFING/UPDATE SHOULD BE HELD DAILY WITH ALL SECTIONS INVOLVED.

(3) RECOMMENDATIONS: KEEP THE OPCEN AS PRESENTLY DEVELOPED. BUT BE READY TO MAKE CHANGES PER MISSION NEEDS.

(4) COMMENTS:

V. OBSERVATION: AOB OPERATIONS.

LEA SENSITIVE

P15 of 29 PP

FOR OFFICIAL USE ONLY

Z 0035497

AOSO-SFT-TB-C, AAR to JT002-93, B390, 261400T MAR 93.

(1) DISCUSSION: (A) THE AOB OPERATES 24 HOURS, BUT IN A REDUCED CAPACITY DURING LATE HOUR/EARLY MORNING TIME FRAME. DUE TO THE LIMITED NUMBER OF PERSONNEL. (B) AOB SPACE WAS LIMITED. (C) EXTENSIVE TRANSMITTAL OF PAPERWORK TO AND FROM JTF-6 AND 3D GP WAS THE NORM.

(2) LESSONS LEARNED: (A) IT IS NECESSARY TO HAVE AT LEAST 1 DETACHMENT IN SUPPORT OF ODB 390 TO FACILITATE ALL AOB OPERATIONS AND TO RUN A 24 HOUR OPERATION. (B) THE AOB SHOULD HAVE THE BUILDING SPACE FOR ALL SECTIONS AND ANY ADD ONS, I.E. MOTORPOOL OPERATIONS AND RIGGER SUPPORT. (C) A COPIER AND FAX MACHINE ARE NEEDED IN THE AOB AS IT FACILITATES THE WORK OF ALL SECTIONS OF THE AOB.

(3) RECOMMENDATIONS: ALL FUTURE AOB OPERATIONS OR SOME MISSIONS INVOLVING B390 SHOULD HAVE A DETACHMENT TASKED TO BE IN SUPPORT OF THE ODB. SITE SURVEYS SHOULD INSURE THAT THERE IS ROOM FOR S4 STORAGE, MED ROOM, OPCEN, SIGCEN etc. C COMPANY SHOULD OBTAIN A COPIER AND FAX MACHINE FOR FUTURE AOB OPERATION.

(4) COMMENTS:

W. OBSERVATION: LOGISTICS

(1) DISCUSSION: (A) A SHORTAGE OF PALLET COVERS WAS EXPERIENCED DURING PREDEPLOYMENT PHASE. (B) JTF-6 CHANGED THEIR POLICY ON REPORT OF SURVEYS WHILE A MISSION WAS ONGOING WITHOUT NOTIFYING THE AOB (C) SSSC STORE ONLY HAD A LIMITED AMOUNT OF ITEMS.

(2) LESSONS LEARNED: (A) DEPLOYMENT REQUIREMENTS NEED TO BE FORECASTED FAR ENOUGH IN ADVANCE SO TIMELY COORDINATION BE AFFECTED FOR REQUIRED ITEMS (B) CLOSE COORDINATION BETWEEN IN-COMING RSU AND JTF-6 NEEDS TO BE EFFECTED IN ORDER TO INSURE MISSION READINESS CONCERNING SUPPLY ISSUES. (C) SSSC ITEMS WERE HARD TO PROCURE DUE TO FT BLISS SSSC STORE POLICIES.

(3) RECOMMENDATIONS: (A) C COMPANY SHOULD OBTAIN AT LEAST 20 PALLET COVERS ON HAND FOR FUTURE MISSIONS. (B) JTF-6 SHOULD NOTIFY RSU OF ALL POLICY CHANGES AS THEY HAPPEN. (C) FUNDS SHOULD BE SENT TO IN-COMING RSU SO SSSC ITEMS NEEDED MAY BE BOUGHT AT HOME STATION SSSC STORE.

**ANSWERS TO QUESTIONS FROM THE SENATE ARMED SERVICES
COMMITTEE ON MILITARY INVOLVEMENT AT WACO (7 SEP 99)**

I. 'WHO'

**A. QUESTION: WHICH MILITARY AGENCIES WERE INVOLVED WITH THE
WACO OPERATION EITHER DIRECTLY OR INDIRECTLY**

ANSWER: Texas National Guard, Alabama National Guard, United States Army, United States Air Force, Uniformed Services University of the Health Sciences, Regional Logistics Support Office, Defense Reutilization and Marketing Offices (DRMO).

**B. QUESTION: WHAT DIRECT OR INDIRECT SUPPORT DID ANY/EACH
AGENCY PROVIDE TO THE OPERATION.**

ANSWER: The military assistance provided to LEAs can be separated into four areas. National Guard units conducted six surveillance overflights of the Branch Davidian compound in January and February 1993; U.S. Army Special Forces assigned to JTF-6 conducted training for ATF agents in late February, 1993; Texas National Guard counterdrug personnel conducted an aerial diversion on the day of the raid on February 28, 1993; and post-raid support to the FBI and the ATF.

1. Texas National Guard overflights in UC 26 counterdrug aircraft took place on 6 Jan, 3, 6, 18, and 25 Feb 93. An Alabama National Guard UC 26 conducted an overflight on 14 January. These missions were intended search for armed guards and drug manufacturing facilities. (HR 104-79, p. 63-64)
2. A Special Forces Rapid Support Unit, attached to Joint Task Force-6¹ (Operation Alliance), trained members of the ATF on 25-27 February, 1993, in company-level tactical command and control, medical evacuation training, IV ABC's, and assistance with range and MOUT sites. No non-METL training, special operations training /close-quarters battle training (SOT/CQB), or direct involvement in actual planning occurred. (HR 104-79, P.64)

¹ JTF-6 was created in 1989 to serve as the planning and coordinating (operational) headquarters for military assistance to counterdrug operations of drug law enforcement agencies. JTF-6 is located at El Paso, TX (Ft. Bliss) and supports the Federal, State, and local law enforcement agencies within the southwest border region. It's region of responsibility as of 1 OCT 95 included the entire continental U.S., Puerto Rico, and the U.S. Virgin Islands. (FROM HR104-79, P. 187, note 160)

3. The ATF requested and received 3 Helicopters and 10 counterdrug personnel from the Texas Air National Guard. These personnel conducted an aerial diversion the day of the raid on February 28, 1993 (HR 104-79, P.65).
4. Post-raid support to FBI and ATF included a limited number of active duty as well as Texas National Guard personnel. Active component troops provided support consisting primarily of performing repairs and maintenance on sophisticated observation and electronics equipment. Almost all of this equipment was operated by the FBI. One piece of equipment (electronic jamming equipment to interfere with television reception within the compound) was operated by DOD civilian personnel (Hearings, Part 3 of 315, statement of [REDACTED] 31 JUL 95 and; HR 104-79, note 359). National Guard personnel helped perform maintenance on loaned vehicles and equipment (referenced specifically in later question), provided remedial training to FBI members who were to operate the Bradley's and CEVs, and provided troop services (e.g. cooks). (HR 104-79, P.82-83). Specific equipment lists and providers appear in the GAO report, "Military Assistance Provided at Branch Davidian Incident," GAO/NSIAD/OSI-99-133, August 1999. (pp. 27-29).
5. Advice/Consultation by Military Officers. 1 Senior Army officer went to WACO on 13 APR 93 on the invitation of the HRT commander. This visit was in preparation for a meeting with Justice Dept. officials on 14 APR 93. This officer and another senior Army officer met with Justice, FBI, and the US Attorney General on 14 APR 93. They were there to answer questions that AG Reno might pose about the FBI's plan. The officers knew they were there because of their particular training, experience, and relationship with the HRT. They informed Reno they could not comment on specific FBI plans to end the standoff. Comments were provided on maintaining HRT readiness and ending a barricade situation as part of a military operation in a foreign country. (HR 104-79, P.85)

C. QUESTION: SPECIFICALLY, HOW MANY "SPECIAL OPERATIONS" PERSONNEL WERE PRESENT AND/OR INVOLVED IN THE OPERATION.

ANSWER: (Responds to all sections of Question #1)

SOF had three roles: trainer, observer, and technical assistance.

- **Trainer** - SOF had a Special Forces Detachment (authorized by Section 1004, National Defense Authorization Act of 1991 and Title

10, United States Code, Section 373) under control of Joint Task Force 6, that trained the Bureau of Alcohol, Tobacco and Firearms (ATF) in counterdrug training, including communications, medical evacuation, first aid and firing range support. That training was completed prior to the ATF attempt to issue search warrants on 28 Feb 93. SOF also conducted training for federal agencies from the FBI in use of surveillance equipment.

- **Observer** - SOF had observers (in varying numbers from one to four) throughout much of the FBI siege period (starting approximately 5 Mar 93) to gather lessons learned for use in future military operations.
- **Technical assistance** - SOF had two technical support personnel from approximately 4 Apr 93 through the FBI operation on 19 Apr 93. SECDEF approved via 192230Z MAR 93 CJCS message, loan of a remote observation post (OP) with two technical advisors. Restraining guidance: Equipment could be used for defensive purposes only; operators could demonstrate use and provide technical assistance but could not provide tactical advice nor direct support to law enforcement operations. (From S/FP message 192230Z MAR 93).

On 19 Apr 93 (the day of the FBI operation) there were three (3) SOF personnel vicinity the FBI field headquarters - one observer plus two personnel who provided technical assistance on troubleshooting and maintenance of surveillance equipment.

At no time were any SOF personnel on site involved with tactical planning or execution of any law enforcement activity.

D. QUESTION: FOR THOSE PERSONNEL WHO WERE PRESENT, DESCRIBE THEIR LEVEL OF INVOLVEMENT AND ANY SPECIFIC SUPPORT FOR INVOLVEMENT IN DIRECT OPERATIONS AT WACO.

(Refer to answers for part B & C of question #1)

II. WHY

A. QUESTION: WHY WAS MILITARY SUPPORT REQUESTED FOR THE WACO OPERATION?

ANSWER: Military facilities (MOUT site at Fort Hood) and specific military training techniques were important to the BATF. Military support was initially requested through the Texas National Guard and Operation Alliance. (ref: GAO report pages 4-12; HR 104-749, p. 8)

B. QUESTION: WHAT SPECIFIC MILITARY UNIQUE CAPABILITIES WERE REQUESTED, IF ANY?

ANSWER: Initially, desired military capabilities encompassed training areas, medical evacuation procedures, communications training, PZ/LZ operations, tactical vehicle dismount procedures, and firing range expertise and assistance. (ref: msg 172145ZFEB93 from CJTF-6 to CINC FORSCOM). Subsequently direct support was desired. Please see specifics noted under "WHAT" (listed below).

III. WHAT

A. QUESTION/REQUEST: PLEASE PROVIDE A LIST OF MILITARY EQUIPMENT PROVIDED AT WACO TO ATF/FBI USERS.

ANSWER: This information has been published in detail in the AUG 99 GAO Report (MILITARY ASSISTANCE PROVIDED AT BRANCH DAVIDIAN INCIDENT). A recap is noted below. (ref. GAO report, "Military Assistance Provided at Branch Davidian Incident," GAO/NSIAD/OSI-99-133, August 1999. Pp. 27-29.

- Aircraft support (3 UH-1 and 3 CH-47, C-141 to transport FBI's hostage rescue team)
- Texas National Guard vehicles (10 x M2 Bradleys, 5 x M-728 combat engineer vehicles, 1 x M-88A1 track recovery vehicle, 2 x 2 1/2 ton cargo, 5 x 5 ton tractor trucks w/ trailers, and 12 M-1009 vehicles)
- Active Army vehicles (8 x M-998, 1 x M35A2 cargo truck, 14 x heavy equipment transport, misc. vehicles)
- photographic and observation equipment
- M-25A1 protective mask
- Electronic jammers
- Maintenance of equipment and medical support
- Misc. supplies (e.g. canteens, tent pins, empty magazines for M-16A1s, first aid dressings, assorted field clothing, helmets, helmet covers, rifle slings, generator fuel, fencing, sandbags, chemical lights, cellular phone charges, field rations, diesel fuel)

B. QUESTION: WHAT SUPPORT, IF ANY, DID MILITARY INTELLIGENCE AGENCIES PROVIDE IN THE WACO OPERATION?

ANSWER: The United States Air Force provided electronic jammers and two equipment operators. The electronic jamming equipment, used to interfere with television reception within the compound, was operated by DOD civilian personnel (Hearings, Part 3 of 315, statement of [REDACTED], 31 JUL 95, HR 104-79, note 359; and letter (S) from [REDACTED] to [REDACTED], 23 Jan 1996.)

IV. COSTS

A. QUESTION: PLEASE DESCRIBE THE COSTS OF MILITARY SUPPORT INCURRED AT WACO AND THE PROCESS USED TO COMPENSATE MILITARY AGENCIES FOR SUPPORT PROVIDED.

ANSWER: Much of the day-to-day support the Department of Defense gives to Law Enforcement Agencies (LEAs) is provided pursuant to statutes that require agencies to reimburse the Department for their use of our equipment and the services of our personnel. As is the case with many departments of the Federal Government, DoD has well-defined authority, for example, in chapter 18 of title 10 of the U.S.C or under the Economy Act in title 31 of the Code, to provide support to other agencies on a reimbursable basis. (Hearings, Part 3 of 315, statement of [REDACTED] 31 JUL 95) Under the Economy Act, the ATF and the FBI reimbursed the military for most of its assistance. Reimbursements covered 76 percent (about \$747K) of the costs, of which the FBI paid about 96 percent (about \$718K) and the ATF the remainder (about \$29K). The FBI also paid directly for the services of the Uniformed Services University of the Health Sciences. (See GAO report, "Military Assistance Provided at Branch Davidian Incident," GAO/NSIAD/OSI-99-133, August 1999, pp. 16 and Appendix III.) See also TAB 1 to this document.

V. REQUEST PROCESS

A. QUESTION: PLEASE DESCRIBE THE PROCESS THAT WAS USED TO ENLIST MILITARY SUPPORT INCURRED AT WACO .

ANSWER: Reference HR 104-79, pp. 60 and GAO report, p. 4. Law enforcement agencies (LEAs) operating in Texas may obtain military assistance for investigations having a counterdrug component from the Texas National Guard counterdrug program. This program can provide investigative support services, from aerial reconnaissance to logistics. Requests for support must cite in writing a suspected drug connection. LEAs may also seek military counterdrug assistance via Operation Alliance. (GAO report, p.4) When an LEA requests counterdrug military assistance along the Southwest border, that request is received and reviewed by Operation Alliance, which acts as the clearinghouse. The request is then coordinated with support organizations such as JTF-6, NORAD, the Regional Logistics Support Office, and the pertinent National Guard organizations. Operational support is provided as a joint effort by JTF-6, NORAD, and the National Guard. Non-operational support, that would include, but is not limited to, equipment, institutional training, and use of facilities, would be provided by the Regional Logistics Support Office. To receive assistance through Operation Alliance and from these organizations, the civilian law enforcement investigation must involve criminal violations of U.S. drug laws, i.e., have a "drug nexus." This is authorized under section 1004 of the National Defense Authorization Act of 1991, 10 U.S.C. 373 (P.L. 101-510). (HR 104-79, pp. 60)

B. QUESTION: PLEASE DESCRIBE THE APPROVAL CHAIN THAT AUTHORIZED MILITARY SUPPORT TO WACO, WHAT WAS REQUESTED, AND WHO APPROVED EACH/ANY REQUEST.

ANSWER: (GAO report, pp. 6-13) ATF made two requests for military counterdrug support. One was made directly to the Texas National Guard counterdrug program, and the second was made to Operation Alliance, which approved and forwarded the request to the Texas National Guard and Joint Task Force Six for their consideration. DOD provided this support under section 1004 of the National Defense Authorization Act of 1991 (P.L. 101-510). The Texas National Guard also provided counterdrug support under 32 U.S.C. 112. (See answer to question VI for a more detailed discussion of legal aspects of this support).

VI. POLICY AND LEGAL FINDINGS

A. QUESTION: PLEASE DESCRIBE THE LEGAL STATUTES THAT APPLIED TO MILITARY SUPPORT REQUESTED FOR THE 1993 WACO OPERATION.

ANSWER: The basic statutory authority for Defense Department support to law enforcement agencies lies in Chapter 18, Title 10 of the United States Code; Section 1004 of the National Defense Authorization Act for Fiscal Year 1991, Pub. L. No. 101-510, as amended; and Title 32 United States Code Section 112. An explanation of those provisions is provided in Appendix II of the recently released GAO report, "Military Assistance Provided at Branch Davidian Incident," GAO/NSIAD/OSI-99-133, August 1999.

B. QUESTION: ARE THERE ANY EXAMPLES OF MILITARY SUPPORT PROVIDED IN 1993 AT WACO THAT WERE OUTSIDE THE LEVEL OF SUPPORT AUTHORIZED IN LEGAL STATUTES?

ANSWER: The recently released GAO report, "Military Assistance Provided at Branch Davidian Incident," GAO/NSIAD/OSI-99-133, August 1999, undertook a detailed review of military support to the FBI and ATF at Waco. The report finds that the various types of support provided at Waco qualified as either military assistance to civilian authorities or support for civilian counterdrug activities.

C. QUESTION: WHAT OTHER LEGAL AUTHORITIES ARE THERE FOR MILITARY INVOLVEMENT TO SUPPORT LAW ENFORCEMENT IN DOMESTIC ACTIVITIES?

ANSWER: Legal authorities for DoD assistance to civilian law enforcement authorities are detailed in Enclosures 2 through 4 to DoD Directive 5525.5, "DoD Cooperation with Civilian Law Enforcement Officials," dated January 15, 1986. A copy of the directive is attached.
