Memo For BS SMITH

Carl,

I suggest SecDef send the attached for self-evident reasons. John Pustay is expecting it and can put it to good use.

MEMORANDUM FOR GENERAL PUSTAY

(c) The deployments to Saudi Arabia should be accomplished in a way which minimizes the number of US military personnel involved. There are already substantial US resources in-country which can provide support for the deploying personnel; full advantage should be taken of these resources. I would appreciate a report on this matter on October 4.
