Interim DoD Policy for Control of Inertial Navigation System Technology Transfers

CURRENT SUSPENSE DATE (Yr, Mo, Day)
 N/A

ORIGIN: The proposed interim policy at TAB A has been sought by the services over a two year period. This policy derives from the recommendations submitted to IETSP on March 14th by an interservice policy development committee whose membership is shown in enclosure 1 of TAB A.

PURPOSE: This action requests DepSecDef approval of the interim policy. The interim policy carefully balances national security concerns with export considerations. However it is possible that additional concerns may surface when policy is in actual operation. Therefore, a review of the policy after 120 days of operation is provided at TAB A.

RECOMMENDATION: That USD(P) sign memorandum, next under, forwarding the interim policy to DepSecDef for signature and distribution. *Stamp on back*
