

15 Apr - Bruce Baker on MBFR
RS - remarkable shift in MBFR in last 9 months. Allies have really helped
old alliance together - concern that they can really get screwed if they
pull out seriously

he - Mueller's now suspect but still very bad
SATS - what could happen while JRS in on European trip
Wulfen - NSC pushing for 1000 MVA agreement. S - does nothing for us, US in
Kade. W - now HAA talks about 6M # of TW instead of 2M - no substantive
impacts what 1000 plan to do. 1000 market 12Bm, would satisfy some
programs - 1980 - we would be best at 550

JRS - set 14 Apr to '77 the week away from table. Still 2 yrs to work it
out but HAA trap you

24 Apr - Army can't defend - Sullivan - good uncertainties, esp
SAM D rather sophisticated. Worry ANAS may be too much be saturated.
JRS - see need for bilateral AT system. Set SAM D aside for 18 months
to work it

25 Apr - SATS - JRS - Push for progress toward reduction
agreement. Wulfen - no chance of at least this far
argues HAA may not be filling gap. There will be domestic political
issues but HAA facilitates the situation meets the risk

B-1 Briefly DPAEE - Why 12-1 - Improve performance, survivability,
penetrates but argument nothing would be better than have some spend de
nded on the AD. Down payment is \$123m. P476, 9,028m - 477

JRS - Point of difference - flexibility; reactive ability; uncertainty
to how; P477 delivery

29 Apr - Staff meeting - JRS debate from trip to Europe
British, the Germans, Dutch not really paying their weight. Defeat to US PRG
Cultural relationship not good. PRG focus really getting stronger. Has
to make this palatable to other allies. US focus looks great!

She - clear that things have changed dramatically in Europe for good!
Both things - try spirit, quality of people

30 Apr - JRS to White House follow-up
schedule for shift in the correlation

Office of the Secretary of Defense
Chief, RDD, ESD, WHS
