2 Nov - JRS tells Men, Dinty - Speed with which we resupply depends on inventory situation. Also guided by political factors movement toward settlement. We have no inventory to speak of in the some experimental weapons stand off weapons

3 Nov - JRS tells HAK he was polite but parsimonious

4 Nov - Turkish Embassy - JRS backgrounder - when ME war - Montreux convention must allow overflight of civil a/c, used sparingly - no evidence of military cargo in Soviet overflights

12 Nov - Realities supplemental - \$2.7b is sent figure by Comptroller - left \$600m for FEMA, \$800m for airlift

JRS to Bush - Informed Conroy that special relationship could not continue when UK decided to deal with French regularly - ^{apparently} refers to treaty on 9 Nov

13 Nov - JRS with Bergold - JRS - UK never faced up to paradox of collaborative arrangement with Fr while trying to milk special relationships with VS

14 Nov - JRS - Supplemental in neighborhood of \$2b; must be assembled. Higher the outlay on F-14, the higher the base in F-15; preference another \$1.5b if possible in F-14

18-M-2109

16 Nov - JRS, Cotten - JRS - Very interested in explained radiation rounds. After 2-30 second detonation was in rather stop or so unconstrained. Use ER with Lance, not certain about artillery. Why don't services come

Gen Wickham Notebooks, Box TS-5, Schlesinger Papers

2 Jan 74 - IRS to Base on nuclear coop - UK Super Antelope development -
UK team at small Posidon, Trident mtyg France - IRS - "Little
assistance fit the curve" - "routinely cooperative without being forthcoming"
Negative guidance of [redacted] will be difficult for us to supply

Ask on FY75 budget - \$85.8 b outlay, \$92.6 TOA; FY74 \$2.814 b supp;
82.8 b FY75 readiness add-on. Trident - if Pres wants to add
\$450m for 2 in 75 OK, but IRS would prefer money for higher readiness;
could get 2 for diplomatic purposes. SAM-D - \$117m vs. OMB favors 912
Jackson, IRS - HJ-T. Talked with HAK about 2 Tridents instead of 1. IRS -
NSC wants 3, OMB ^{wants} 1 - DoD also wants 1, on equivalent bases

IRS - Naval sub with 16 tubes is possible alternative to Trident

3 Jan 74 - IRS, Augustine, Currie - SAM-D IRS - SAM-D should concentrate
on low altitude; high altitude is AF's problem with high perf fighters
SAM-D program has been twisted around

5 Jan. Hagg, IRS - Come out with 2 boats

8 Jan - HAK, IRS brief - HAK - B formal request for Super Antelope
IRS - Wrong decision for them.

HAK - French smarter than UK. Take them out of Posidon program. IRS - Done
HAK - Heath basically anti-American; Japanese being urged to
join Europeans & exclude US

IRS, Lord Homer - PM talks - couldn't accept Posidon w/o impact on com
forces. IRS - not sure you need Super Antelope. IRS - French ought
not to benefit from club membership w/o paying dues

16 Jan - McLaughlin, Brazier - FY76 outlay - compromise position w \$92.4
with TOA \$98.6

17 Jan 74 - Barse - Super Antelope contract on RUS - proposal to raise funding slightly to complete contract - OK'd by RS

22 Jan 74 - HAK, JRS, Moore lunch - HAK, JRS talked privately about arms for Egypt
JRS will deal only with military in dept. on this matter. Will look at ECM materiel initially. HAK - Sadat prepared to exchange info on Soviet equipment

23 Jan - JRS, Rush on Diego Garcia - JRS - Use you to start off with full use ^{unrestricted}
Rush - Agree, UK sticky, Heath trying to prove he's a Comm Marketeer

29 Jan - JRS, Amb to France ^{Trwin} - JRS - Tell him that diplo abuses independent attitudes affects co operations (eg nuclear matters). We can't have off technology against PRELOC and LOC - no less than \$100m for PRELOC

5 ALT
1 Feb - HAK, JRS brief - HAK - Finally figured out D.D. position on SA LT
throw weight down. JRS - You have ^{more} "lousy staff" - Look at not giving you all of picture, only pieces. HAK - Sub-cilings on ICBMs won't work, must be within tow levels. JRS - Can't hit accurately with SLBM, so ICBM and SLBM + w can't be the same - only ICBM can be counterforce because of accuracy. We must make SLBM accurate.
HAK - You have problem of yield, accuracy, coordination with SLBMs.
JRS - Want to seek equivalence by balancing down; we've anchored on Trident / SLBM as equivalent to ICBM.

Fiscal guidance - Tell Service to come in with POMs based on Option.
JRS to Sullivan on 5-yr program - PRE staff too tied up with long-range
improvements; only way to get you hands on things is by special studies.
JRS to Gen Meyer, CINCSAC - This repeated theme of new targeting guidance -
We will retain assured destruction capability, emphasis on selectivity)
flexibility
