---

Hi (b)(6)

On 21-1KHb, the team recovered PME but no osseous material.  
On 22-2Kha, the team recovered neither PME nor osseous material.

(b)(5)

Regards,

(b)(6)

Team:

Please review your emails and documents to see if you have anything that relates to these matters.  
If so, please email copies to me

1. Any documents with references to any bone fragments uncovered and collected on Koh Tang in Cambodia since 1975, to include any information where the fragment was uncovered/collected (exact location), size, shape, density, any case it was associated with, DNA results, or non-results, and where it is now. This also extends to remains that were found but not collected or were handed over to the Cambodians.
2. This should include any bones associated with case 1998. Hargrove. Hal I and Marshall,
3. Any copies of the Silverstein memo about case 1998, the case file for 1998 and/or any documents from the case file on 1998, or relating to evidence collected, bones.
4. Any emails from (b)(6) Kelly McKeague, Johnnie Webb and any anthropologist or any staff member who ever worked this case, regarding remains or items found on the island. This includes from Stoney Brook or DIA.

A negative reply is required.

Thank You,

(b)(6)
