RECOMMENDATIONS

Since the witness indicated area is a fairly large area, full scale excavation would be required. GPR work could be beneficial in detecting a potential burial pit. The most effective system would be a systematic excavation of the entire identified area.

Current Occupation:

Occupation at Time of Incident:

Background:

Statement: Witness indicated from second hand testimony that Hull was killed then stripped of uniform and belongings. The belongings were then searched for valuables and anything of use. The naked body was then buried near a pond close to east beach. He indicated a free line that was parallel to the beach, witness indicated that the body was placed into a hole that was either dug or already in place the buried approximately 1m deep. The witness pointed out a potential location within an area measuring roughly 40m x 10m between the pond and the large line of trees.
