## 2010 MILITARY FAMILY LIFE PROJECT: COUPLES TABULATIONS OF RESPONSES

#### Introduction to the Survey

The Human Resources Strategic Assessment Program (HRSAP), Defense Manpower Data Center (DMDC), conducts both Web-based and paper-and-pencil surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. Human Relations Surveys are in-depth studies of sensitive issues fielded to hard-to-reach populations.

This report contains tabulations of responses from the 2010 Military Family Life Project: Couples (2010 MFLPC). These tabulations are based on responses from active duty military spouses in the Web-based and paper-and-pencil 2010 Military Family Life Project (2010 MFLP) conducted May 10 to August 31, 2010 and responses provided by the matching active duty Service member (husband/wife) from the Web-based June 2010 Status of Forces Survey of Active Duty Members (June 2010 SOFS-A) conducted June 1 to July 22, 2010. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology, and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.

#### Survey Content

The purpose of the 2010 MFLPC is to assess the responses of active duty military couples on questions of well-being and overall attitudes. The survey questions included in the 2010 MFLPC Tabulations of Responses were presented to active duty members in the June 2010 SOFS-A and to their spouses in the 2010 MFLP. The question numbers in the 2010 MFLPC Tabulations of Responses correspond to those of the 2010 MFLP. Matching June 2010 SOFS-A question numbers are referenced in footnotes. All footnotes that cite MFLP questions are in reference to the 2010 MFLP, while those that cite SOFS-A questions are in reference to the June 2010 SOFS-A. The 2010 MFLPC survey questions are subdivided into the following eight topic areas:

- 1. Background Information—Race/ethnicity.
- Education—Education level.
- Health and Well-Being—Perceptions of stress and mental health, marital satisfaction and stability, access and use of counseling, and attitudes towards receiving counseling.
- 4. Financial Well-Being—Perceived financial condition, saving habits, and use of military-sponsored financial services.

<sup>&</sup>lt;sup>1</sup> Details on survey methodology are reported in the *2010 Military Family Life Project: Couples: Administration, datasets, and codebook* (2013b).

- 5. Life in the Military—Overall satisfaction with military way of life and spouse's support for member staying on active duty.
- Service Member's Deployments—Deployment in past twenty-four months, deployment to Iraq or Afghanistan since September 11, 2001; times member deployed in active duty career, and spouse/family's coping with multiple deployments.
- 7. Effect of Deployments on Children—Selected child's coping ability and connection to member during deployment.
- Reunion and Reintegration—Member's emotional and behavioral state after returning, member's ability to reconnect with children upon return, family's readjustment to member's return, and use of available deployment-related resources.

#### Population and Reporting Categories

The target population for the 2010 MFLPC consists of active duty members who participated in the June 2010 SOFS-A and their spouses who responded to the 2010 MFLP. The spouse-member couples selected for the 2010 MFLPC were active duty couples of the Army, Navy, Marine Corps, and Air Force. Participants of the 2010 MFLP were eligible if they indicated that, at the time of the survey, they were married to an active duty member, and not Service members themselves. In addition, the active duty spouse and member were eligible to participate in the 2010 MFLP or June 2010 SOFS-A provided that the member (1) had at least six months of service at the time the questionnaire was first fielded and (2) was below flag rank. Spouses of warrant officers or members of the National Guard/Reserve and Coast Guard were excluded from the target population. The 2010 MFLPC was determined to be complete if both the spouse and associated member answered 22 out of 42 questions that were comparable between the 2010 MFLP and June 2010 SOFS-A, respectively.

Survey results are presented for the total population and by a variety of reporting categories. To form the reporting categories for the tabulations, respondents were classified by administrative record data for member categories of Service and paygrade and by spouse self-report for the deployment (2010 MFLP, Q56) and family status categories (2010 MFLP, Q29). Definitions for reporting categories follow:

- Member Service—The categories include Army, Navy, Marine Corps, and Air Force.
- Member Paygrade—The Enlisted subgroup includes all enlisted paygrades (E1-E9). The Enlisted subgroup is broken into E1 – E4 and E5 – E9. The Officers subgroup is broken into O1 – O3 and O4 – O6.
- Member Deployment Status—The Deployed Past 24 Months category
  includes couples where the spouse had reported the member had been
  deployed for 30 or more consecutive days during the past 24 months, while
  Not Deployed Past 24 Months includes couples where the spouse had
  reported the member had not experienced a deployment of 30 or more
  consecutive days in that time.

 Family Status—Categories include couples With Children and Without Children. Children are defined as individuals who were under the age of 18 and were living at home either part-time or full-time as per the spouse's self-report.

#### Survey Methodology

The Web survey administration process for 2010 MFLP began on April 27, 2010 and on June 1, 2010 for the *June 2010 SOFS-A*, with the mailout of notification letters. The notification letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. Data were collected between May 10 to August 31, 2010 for the 2010 MFLP and between June 14 and July 22, 2010 for the *June 2010 SOFS-A*. Paper surveys of the 2010 MFLP were mailed on May 28, 2010, to those who did not respond via the Web.

Single-stage, nonproportional stratified random sampling<sup>2</sup> procedures were used for both the 2010 MFLP and June 2010 SOFS-A. The 2010 MFLP sample consisted of the spouses of 101,812 members drawn from the sample frame constructed from DMDC's September 2009 Active Duty Master File, September 2009 Family Database, September 2009 Active Duty Pay File, September 2009 Basic Allowance for Housing Population File, and December 2009 Defense Enrollment Eligibility Reporting System File. The sample size is larger than would be required to make accurate and stable estimates for spouses in each of the reporting categories for the 2010 survey and subsequent iterations. Spouses in the sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were divorced, widowed, their husband or wife was no longer on active duty, or they are currently a Service member (2.22% of sample). The June 2010 SOFS-A sample consisted of 40,028 individuals drawn from the sample frame constructed from DMDC's Active Duty Master File and matched to their spouse from the 2010 MFLP sample. In total, there were 11,198 eligible spouses and 11,445 eligible members that returned completed surveys. Of these, 4,993 member-spouse pairs submitted completed surveys. Matched members and spouses in this sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not on active duty as of the first day of the Web survey, June 14, 2010 (0.13% of the sample).

Data were weighted using the industry standard three-stage process:

 Adjustment for selection probability—Probability samples such as the sample for this survey are selected from lists and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the

<sup>&</sup>lt;sup>2</sup> In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, spouses might be grouped by the gender and Service of their husband or wife (e.g., spouses of all male Army personnel in one group, spouses of all female Navy personnel in another). Within each group, spouses of active duty members are chosen at random. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses.

list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.

- Adjustments for nonresponse—Some sampled spouses do not respond to the survey. Continuing the previous example, suppose only half of the spouses sampled, 500, completed and returned a survey. Because the unweighted sample size would only be 500, weights are needed to project the sample up to the subgroup population total (10,000). In this case, the base-weighted respondents would sum to only 5,000 weighted respondents. To adjust for nonresponse, the base weights are multiplied by the reciprocal of the nonresponse rate. In this example, the base weight (10) is multiplied by the reciprocal of the nonresponse rate (2) to create a new weight of 20. The weighted sample sums to the subgroup population total of 10,000.
- Adjustment to known population values—The first of the two previous weighting adjustments are applied according to the demographic groupings used in designing the subgroups for the sample. The second is based on population characteristics that are known to be related to whether a sample person responds to the survey. Because the sample design and adjustments for nonresponse cannot take into account all demographic differences related to who responds to a survey and how they respond, auxiliary information is used to increase the precision of survey estimates. For this reason, a final weighting adjustment is computed that reproduces population totals for important demographic groupings related to who responds to a survey and how they might answer the survey. Suppose in our example the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents was 7,000 men and 3,000 women. To reduce this possible bias and reproduce known population totals, the weights would be adjusted by 1.21 for men and 0.5 for women, which would give unbiased estimates of the total and of women and men in the subgroup.

Table 1 (page 5) shows the number of eligible respondents who completed the survey and the portion of total respondents in each reporting group. Also shown are the estimated number of active duty military couples and the portion of total active duty military couples in each reporting group. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.

Table 1.

#### Tabulation Procedures

Tabulations<sup>3</sup> for each guestion in the survey are shown on one page. Question numbers reference 2010 MFLP while the matching questions from June 2010 SOFS-A are referenced in the footnote. The central feature of the tabulations is the percentage of active duty military couples choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding error. Where an item can be presented as an average, that average is shown as a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups differing from other similarly defined groups. Where a true response continuum is available, the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage unless specified in the footnote. When multi-level response scales (e.g. "0 times," "1 time," "2 times," and "3 or more times") are dichotomized in the bar chart, the footnote may specify that the bar chart represents percentages derived from the calculation of some of the columns divided by a denominator that excludes one or more columns (e.g., "0 times"). For example, Q50a asks spouses/members about the frequency they used military-sponsored personal financial counseling in the past six months. Spouses/members were able to mark "0 times," "1 time," "2 times," or "3 or more times." The average number of times personal financial services were used in the past six months was calculated from the responses of those who reported using personal financial services at least once in the past six months. The tabulation shows percentages for each response option; however, the bar chart percentage excludes those who marked "0 times."

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it reflects item nonresponse due to skip patterns, and the table note indicates that "Percent responding are active duty spouses/members who answered the question."

It is often not practical to skip respondents out of every survey item that does not apply to them. For these items, *Does not apply* responses are often tabulated separately. For example, Q50 asked spouses/members the number of times they used military-sponsored personal financial counseling and/or a financial readiness event at an installation in the past six months. Responses of "0 times" were tabulated separately as responses to the constructed question, *Did you use military-sponsored financial services in the past six months* (2010 MFLPC, Q50)?

Since the survey contains open-ended questions, not all responses are tabulated. For example, if spouses/members indicated that they talked to a counselor in the past six months (Q42) and selected "other concerns" as one of the concerns that they talked to their counselor about (Q43), they were asked to explain these concerns.

<sup>&</sup>lt;sup>3</sup> Details of data editing and preparation are provided by DMDC (2013a).

Since it is not feasible to tabulate the wide range of responses, the open-ended responses for Q43 are not tabulated.

The 2010 MFLPC tabulations includes one instance in which data from subitems of separate questions on the *June 2010 SOFS-A* are represented as responses to one question so as to match the question format in 2010 MFLP. Question 49 in 2010 MFLP was presented to the active duty members in two separate questions in the *June 2010 SOFS-A*. The active duty members were separately asked if they save regularly by putting money aside each month (Q129) and if they have \$500 or more in emergency savings (Q135) in the *June 2010 SOFS-A*. These subitems correspond to subitems a and b of 2010 MFLP Q49. The responses to these subitems are presented in Q49 of the tabulations (2010 MFLPC) as one question in order to maintain simplicity in presentation.

The sample responding to certain questions (2010 MFLPC Q59, 72, 78, 79, 80, 81, & 82) presented in the 2010 MFLPC tabulations was limited by a skip logic pattern that existed in the June 2010 SOFS-A. The active duty respondents of the June 2010 SOFS-A who responded to these questions had indicated in Q44 of the June 2010 SOFS-A that they had experienced a deployment to Iraq or Afghanistan since September 11, 2001. Conversely, spouses needed only to report that their husband/wife had been deployed for more than 30 consecutive days during the member's active duty career (Q56 2010 MFLP). Due to this inconsistency, and in order to present one set of tabulations for the couple, the denominator for these questions was equalized by cleaning this question based on spouse report (e.g., the spouse reported that the member had been deployed more than once in their career on the MFLP) and member report (e.g., the member reported that he/she had been deployed to Iraq or Afghanistan since September 11, 2001 on the SOFA).<sup>4</sup>

#### Paper and Web Survey Comparability

Although the *June 2010 SOFS-A* survey was fielded via the Web only, paper and Web versions of the *2010 MFLP* were fielded. On occasion, these versions of the survey differ. These differences result from the technological advantages and requirements available in a Web-based survey. Question stems differ slightly between the paper and Web versions of the survey. On the paper version of the survey, question stems will refer to specific survey items, whereas questions on the Web version are not numbered.

Not all questions will apply to every respondent. Respondents to the paper version of the survey are instructed to skip questions that do not apply to them (based on their answers to previous questions). Where possible, the Web survey is programmed to skip respondents over questions that do not apply to them. For example, Q72a in the Web and paper versions of the 2010 MFLP ask spouses how well their child coped with the member's deployment. This question does not apply to spouses who indicated that they did not have any children under the age of 18 living at

<sup>&</sup>lt;sup>4</sup> Additional details on coding are provided by DMDC (2013b).

home part-time or full-time (2010 MFLP Q29). Therefore, Q72a only includes spouses who reported having a child living at home in Q29.

#### Combining Information From Multiple Items or Response Options

Tabulations in this volume generally present data for matched survey questions between the 2010 MFLP and the June 2010 SOFS-A. As mentioned previously, since the tabulations of responses were drawn from two separate surveys, the data obtained from spouses and members were matched. In order to present a single tabulation for each question, the denominators for all questions had to be equal between spouses and members. When a discrepancy existed between the response options for spouses and members, cleaning was done to ensure that the sample for both spouses and members were equivalent and this is reflected in the footnote. For example, in order to present the results given by 2010 MFLP Q59 regarding whether coping with deployments has become more or less difficult for the spouse/family with each experience, spouses must have indicated in the 2010 MFLP that the member had been deployed multiple times (2010 MFLP, Q56/57), and active duty members must have indicated in the June 2010 SOFS-A that they had been deployed at least once to Iraq or Afghanistan since September 11, 2001 (June 2010 SOFS-A, Q44). The responses were cleaned so the percent responding reflects spouse and member agreement within these questions. If a spouse reported their husband/wife had not been deployed multiple times, but the member reported that had been deployed more than once to Iraq or Afghanistan, this couple was excluded from the tabulations as a result of the cleaning process which ensured agreement.

Using these cleaning criteria, the tabulations reflect individual survey questions. There are four exceptions. The first type of exception is where the results for multiple subitems of one question are presented on a single page instead of a set of two pages.

 In Q49a-b, spouses/members were asked if they save regularly by putting money aside each month (Q49a) or have \$500 or more in emergency savings (Q49b). The tabulation shows percentages who answered Q49a and Q49b on one set of pages, so as to allow comparison between the percentages.

The second exception is where spouses can provide multiple answers to a single question (e.g., race).<sup>5</sup>

 In Q7, spouses/members were asked to mark one or more races. The tabulations show the percentage who responded that they were White, Black or African American, American Indian or Alaska Native, Asian, or Native Hawaiian or Other Pacific Islander. Respondents who indicated more than one race are also shown in the percentage of More than one

<sup>&</sup>lt;sup>5</sup> Self-reported questions are consistent with the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997).

race. For example, if a respondent indicated they were Asian and White, they were counted in the percentage as Asian, White, and More than one race.

The third exception pertains to combining response options from a group item to present an aggregate number.

 For example, Q44, asked spouses/members if they accessed counseling through any of the sources presented as response options (e.g., Military OneSource, the member's installation, TRICARE, etc). In addition to the tabulation showing the percentage of those who marked each response option, a composite tabulation shows the percentage of those who accessed counseling through more than one source.

The fourth exception pertains to constructed composite measures (e.g., scales, incident rates, summary variables) described below. Individual items in each measure are presented first followed by tabulation pages showing composite measure results.

- Patient Health (PHQ-4): The PHQ-4 is designed to identify potential mental health concerns by measuring the extent that respondents have felt negative emotions, such as depression, anxiety, or nervousness, in the two weeks before taking the 2010 MFLP or June 2010 SOFS-A. This scale is constructed from 2010 MFLP Q37a-d and June 2010 SOFS-A Q43a-d. Respondents must have answered all of the subitems in the scale to be included. Each item is rated on a 1 to 4 scale. Scores on the PHQ-4 are reported as a single figure, which is the average of the individual scores. A higher total score indicates a higher likelihood of mental illness. For details, see Kroenke, Spitzer, and Williams (2001).
- Marital Instability Index (MII): An abbreviated version of the MII is used to capture the extent that respondents perceive problems in their marriages. The scale is constructed from 2010 MFLP Q41a-e and June 2010 SOFS-A Q77. Respondents must have answered all of the subitems in the scale to be included. Each item is rated on a two-point scale (yes/no). Scores are reported as a single figure, which is the sum of the individual scores (range 0 to 5). A higher score indicates a greater amount of perceived problems within the marriage. For more details, see Edwards, Johnson, and Booth (2000).

#### Margins of Error

The complex sample design required weighting to produce population estimates (e.g., percent female).<sup>6</sup> Because of the weighting, conventional formulas for

<sup>&</sup>lt;sup>6</sup> This differential weighting means that only certain statistical software procedures, such as SUDAAN® PROC DESCRIPT, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

<sup>®</sup> Registered 2004 by Research Triangle Institute, P.O. Box 12194, Research Triangle Park, NC 27709-2194.

calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN® PROC DESCRIPT (Research Triangle Institute, Inc., 2004).

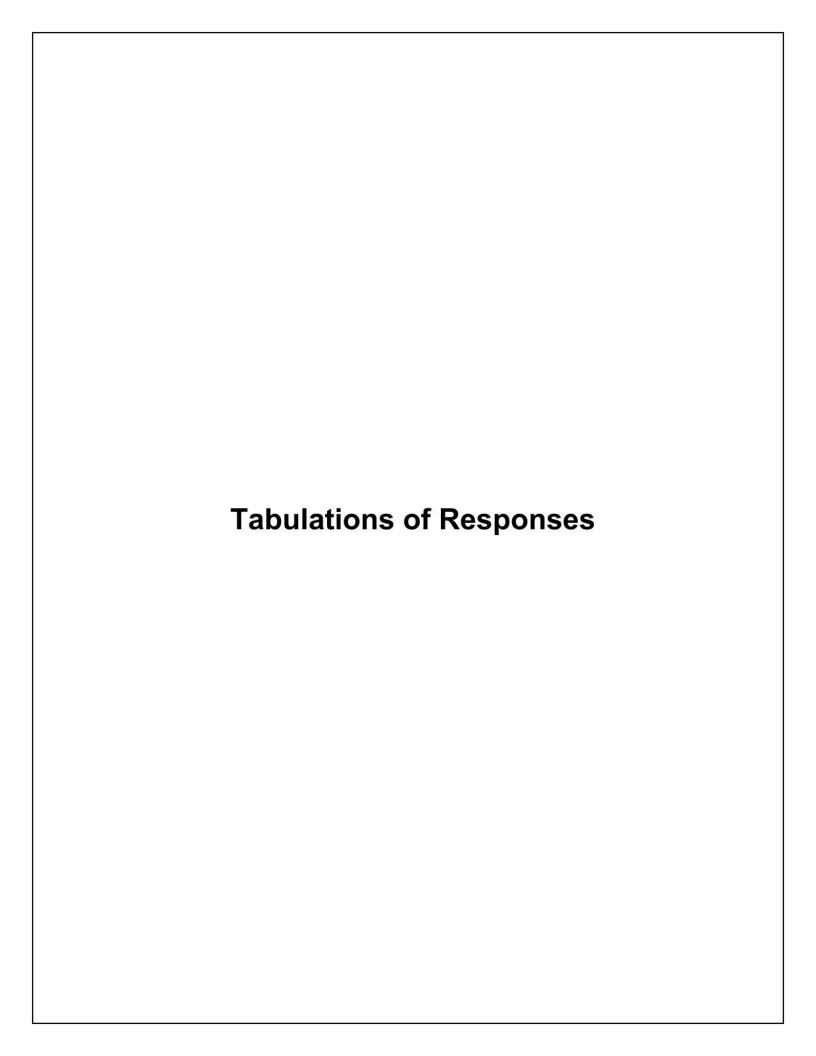

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters (such as percentages or means) and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (Max ME) for each reporting category is shown. That is, the tab volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

The following reporting conventions are used:

- "o" indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is Not Reportable and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 30), or relative standard error (greater than 0.225),
- NA indicates the question was Not Applicable because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

Note. Percent responding are active duty spouses/members who answered the question. The scale ranges from 1 to 4. Higher scores indicate higher levels of mental distress. Cronbach's coefficient alpha = 0.87. Cronbach's coefficient alpha ranges in value from 0 to 1. Values 0.70 or greater indicate higher reliability, meaning that the items are internally consistent. Reference SOFA Q43.

## 41. Please respond to the following questions regarding your relationship with your spouse. Percentages represent spouses who indicated "Yes."

- a. Even people who get along quite well with their spouse sometimes wonder whether their marriage is working out. Have you ever thought your marriage might be in trouble?
- d. Has the thought of getting a divorce or separation crossed your mind in the past three years?
- b. Have you or your spouse ever seriously suggested the idea of divorce within the past three years?
- c. Have you discussed divorce or separation with a close friend?
- e. Did you talk about consulting an attorney about a divorce or separation?

minout offiniquent)	Spouse	99	±1	1.4	±0.2	

Note. Percent responding are active duty spouses/members who answered the question. The scale ranges from 1 to 5. Higher scores indicate a higher level of marital instability. Cronbach's coefficient alpha = 0.85. Cronbach's coefficient alpha ranges in value from 0 to 1. Values 0.70 or greater indicate higher reliability, meaning that the items are internally consistent. Reference SOFA Q77.

#### **COMPLETION INSTRUCTIONS**

- Use a blue or black pen.
- Place an "X" in the appropriate box or boxes.

RIGHT X WRONG V O

To change an answer, completely black out the wrong answer and put an "X" in the correct box as shown below.

CORRECT ANSWER INCORRECT ANSWER

#### PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

In accordance with the Privacy Act, this notice informs you of the purpose of the survey and how the findings of these surveys will be used. It also provides information about the Privacy Act and about informed consent. Please read it carefully. Returning this survey indicates your agreement to participate in this research.

AUTHORITY: 10 United States Code Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in this survey will be used to research the effects of the deployment cycle on the family, financial well-being, and views of military life. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to Department of Defense (DoD), each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. Data could be used in future research. Datasets without any identifying information may be analyzed by researchers outside of DMDC. Briefings and reports on results from these surveys will be posted on the Web: http://www.dmdc.osd.mil/surveys/

ROUTINE USES: None

DISCLOSURE: Providing information on this survey is voluntary. Most people can complete the survey in 16-30 minutes. There is no penalty or loss of benefits to which you are entitled if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, the survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. In no case will individual identifiable survey responses be reported. If you answer any items and indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey because of concern for your welfare, DMDC will notify an office in your area for appropriate action.

SURVEY ELIGIBILITY AND POTENTIAL BENEFITS: DMDC uses wellestablished, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., deployment status, service and gender). This is your chance to be heard on issues that directly affect you, including how deployment impacts you and your children. While there is no direct benefit for your individual participation, your responses on this survey make a difference

STATEMENT OF RISK: The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses. Survey data may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

If you have questions about the survey, please contact the Survey Processing Center by sending an e-mail to MFLP@osd.pentagon.mil or call, toll-free, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact: Ms. Caroline Miner, Human Research Protection Program Manager for the Office of the Under Secretary of Defense (P&R), HRPP@tma.osd.mil (703) 575-2677.

If you desire to withdraw your answers, please notify the Survey Processing Center prior to August 16, 2010. Please include in the e-mail or phone message your name and ticket number. Unless withdrawn, partially completed survey data may be used after that date.

#### BACKGROUND INFORMATION

1. Wha	at is your marital status?
-	Married
	Separated Divorced ⇔ GO TO Q84
	Widowed ⇔ GO TO Q84
	our spouse currently serving on active duty tanearing tanged are detected as the national Guard or Reserve)?
-	Yes No ⇔ GO TO Q84
3. Are	you currently serving in the military? Mark
	Yes, on active duty (not a member of the National Guard/Reserve) Yes, as a member of the National Guard or Reserve in a full-time active duty program (AGR/FTS/AR) Yes, as a traditional National Guard/Reserve member (e.g., drilling unit, IMA, IRR) No
	v many years have you been married? To icate less than 1 year, enter "0".
	Years
	ich of the following best describes where live?
$\boxtimes$	Military housing, on base Military housing, off base Civilian housing
6. Are	you Spanish/Hispanic/Latino?

# **Status Of Forces Surveys**

June 2010 Status of Forces Survey of Active Duty Members

#### Welcome

## Security Protection Advisory

RCS#DD-P&R(AR)2145 Exp. 2/28/2011

You have been selected to take a survey about your attitudes and perceptions of personnel policies for active duty members. When you click the *Continue* button below, you will be asked to:

- · Create a Personal Identification Number (PIN)
- · Read the Privacy Act and Informed Consent Statement
- · Take the survey

Thank you for your time and participation.

Continue

Frequently Asked Questions / How to Contact Us

#### PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

In accordance with the Privacy Act, this notice informs you of the purpose of the survey and how the findings of these surveys will be used. It also provides information about the Privacy Act and about informed consent. Please read it carefully.

AUTHORITY: United States Code Sections United States Code, Sections 136 and 2358

**PRINCIPAL PURPOSE:** Information collected in this survey will be used to research retention, impact of deployments, compensation, financial health and well-being. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. Data could be used in future research. Datasets without any identifying information may be analyzed by researchers outside of DMDC. Briefings and reports on results from these surveys will be posted on the Web: <a href="http://www.dmdc.osd.mil/surveys/">http://www.dmdc.osd.mil/surveys/</a>

#### ROUTINE USES: None.

**DISCLOSURE:** Providing information on this survey is voluntary. Most people can complete the survey in 30 minutes. There is no penalty or loss of benefits to which you are entitled if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, the survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. In no case will individual identifiable survey responses be reported. If you answer any items and indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC will notify an office in your area for appropriate action.

**SURVEY ELIGIBILITY AND POTENTIAL BENEFITS:** DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., location, gender). This is your chance to be heard on issues that directly affect you, including retention, impact of deployments, compensation, financial health and well-being. While there is no direct benefit for your individual participation, your responses on this survey **make a difference**.

**STATEMENT OF RISK:** The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses. Survey data may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

If you experience any difficulties taking the survey, please contact the Survey Processing Center by sending an e-mail to <a href="mailto:ADSurvey@osd.pentagon.mil">ADSurvey@osd.pentagon.mil</a> or call, toll-free, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact: Ms. Caroline Miner, Human Research Protection Program Manager for the Office of the Under Secretary of Defense (P&R), <a href="https://hRPP@tma.osd.mil">HRPP@tma.osd.mil</a> (703) 575-2677.

Once you start answering the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to July 20, 2010. Please include in the e-mail or phone message your name, Ticket Number, and the PIN that you selected when you started this survey. Unless withdrawn, partially completed survey data may be used after that date.

Click Continue if you agree to do the survey.

#### **HOW TO CONTACT US**

If you have questions or concerns about this survey, you have three ways to contact the Survey Operations Center:

Call: 1-800-881-5307

E-mail: ADSurvey@osd.pentagon.mil

• Fax: 1-763-268-3002

#### FREQUENTLY ASKED QUESTIONS

# What is Defense Manpower Data Center (DMDC)?

 DMDC maintains the largest archive of personnel, manpower, training, and financial data in Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass, and Human Relations Surveys for the Department of Defense. To learn more, visit the DMDC Web site.

http://www.dmdc.osd.mil/

## What is the Status of Forces (SOFS) Program?

- Status of Forces (SOFS) is a DoD personnel program that features Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable the DoD to regularly assess the attitudes and opinions of the DoD community—active duty and Reserve component members, and DoD civilian employees—on the full range of personnel issues.

## How do I know this is an official, approved DoD survey?

 In accordance with DoD Instruction 8910.01, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# DD-P&R(AR)2145, expiring 2/28/2011.

# How did you pick me?

• DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., location, gender).

#### Why should I participate?

- This is your chance to be heard on issues that directly affect you, including retention, impact of deployments, compensation, financial health and well-being.
- · Your responses on this survey make a difference.

# How do I participate?

 The survey will be available at this Web site around June 14, 2010. Currently you may (1) read the Privacy Act Statement, (2) verify contact information, and (3) provide e-mail address(es) so we can notify you when the survey opens.

# What is ADSurvey@osd.pentagon.mil?

The official e-mail address for communicating with active duty members about Status of Forces surveys (SOFS).
 "ADSurvey" is short for Active Duty Survey.

## Why am I being asked to use the Web?

Web administration enables us to get survey results to senior Defense leaders faster.

# Why are you using a .net instead of a .mil domain to field your survey?

The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations
company. The survey collection tool starts on a .mil site within DMDC. Once you enter your ticket number you are
redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a nongovernment computer.

## Do I have to take the survey in one sitting?

No, it is not necessary to complete the survey in one sitting. From any survey item, just click the Save and Return
 Later button. All of your responses are saved. When you return to the Web site, enter your Ticket Number and PIN.
 You will re-start the survey at the point you stopped.

# Why does the survey ask personal questions?

- DMDC reports overall results, as well as by other characteristics, such as location, gender, etc. To complete these analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups
  of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

## Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579). Privacy Act Statement
- All data will be reported in the aggregate and no individual data will be reported.

## Can I withdraw my answers once I have started the survey?

If you wish to withdraw your answers, please notify the Survey Processing Center prior to July 20, 2010 by sending an
e-mail to <u>ADSurvey@osd.pentagon.mil</u> or calling, toll-free 1-800-881-5307. Include your name, Ticket Number and
PIN.

## Will I ever see the results of the survey?

DMDC posts survey results on the following Web site:

http://www.dmdc.osd.mil/surveys/

#### **ELIGIBILITY**

1.	In what Service were you on active duty on
	June 14, 2010?

Army

Navy

Marine Corps

X Air Force

None, I have separated or retired

## BACKGROUND INFORMATION

2. What is your current paygrade? Mark one.

 $\square$  E-1  $\square$  E-6  $\square$  W-1  $\square$  O-1/O-1E  $\square$  E-2  $\square$  E-7  $\square$  W-2  $\square$  O-2/O-2E  $\square$  E-3  $\square$  E-8  $\square$  W-3  $\square$  O-3/O-3E

E-4E-9W-4O-4W-5M-5O-5

O-6 or above

3. What is your marital status?

Married

X Separated

Divorced

Widowed

Never married

4. [Ask if Q3 = "Divorced" OR Q3 = "Widowed" OR Q3 = "Never married"] How many years have you been in a relationship with your current significant other (that is, your girlfriend or boyfriend)?

Does not apply; I do not have a girlfriend/boyfriend

Less than 1 year

1 year to less than 6 years

6 years to less than 10 years

10 years or more

In the following section, you will be asked questions about your spouse's employment status in enough detail to ensure comparability with national employment surveys.

5. [Ask if Q3 = "Married" OR Q3 = "Separated"] Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?

X Yes

No No

6. [Ask if (Q3 = "Married" OR Q3 = "Separated") AND Q5 = "No"] Is your spouse currently serving as a member of the National Guard or Reserve in a full-time, active duty program (AGR/FTS/AR)?

X Yes

X No

7. [Ask if (Q3 = "Married" OR Q3 = "Separated")
AND Q5 = "No" AND Q6 = "No"] Is your spouse
currently serving as a member of another type
of National Guard or Reserve unit (e.g., drilling
unit, Individual Mobilization Augmentee (IMA),
Individual Ready Reserve (IRR))?

X Yes

X No

8. [Ask if (Q3 = "Married" OR Q3 = "Separated")
AND Q5 = "No" AND Q6 = "No"] Last week, did
your spouse do any work for pay or profit?
Mark "Yes" even if your spouse worked only
one hour, or helped without pay in a family
business or farm for 15 hours or more.

X Yes

No No

9. [Ask if (Q3 = "Married" OR Q3 = "Separated") AND Q5 = "No" AND Q6 = "No" AND Q8 = "No"]

<u>Last week</u>, was your spouse <u>temporarily</u> absent from a job or business?

Yes, on vacation, temporary illness, labor dispute, etc.

No No

10. [Ask if (Q3 = "Married" OR Q3 = "Separated") AND Q5 = "No" AND Q6 = "No" AND Q8 = "No" AND Q9 = "No"] Has your spouse been looking for work during the last 4 weeks?

X Yes

No No

11.	[Ask if (Q3 = "Married" OR Q3 = "Separated")								
	AND Q5 = "No" AND Q6 = "No" AND Q8 = "No"								
	AND Q9 = "No" AND Q10 = "Yes"] Last week,								
	could your spouse have started a job if offered								
	one, or returned to work if recalled?								

- Yes, could have gone to work
- No, because of his/her temporary illness
- No, because of other reasons (in school, etc.)
- No, because of state occupational licensing barriers
- 12. What is the highest degree or level of school that you have completed? Mark the <u>one</u> answer that describes the highest grade or degree that you have completed.
  - 12 years or less of school (no diploma)
  - High school graduate—traditional diploma
  - High school graduate—alternative diploma (home school, GED, etc.)
  - Some college credit, but less than 1 year
  - 1 or more years of college, no degree
  - Associate's degree (e.g., AA, AS)
  - Bachelor's degree (e.g., BA, AB, BS)
  - Master's, doctoral, or professional school degree (e.g., MA, MS, MEd, MEng, MBA, MSW, PhD, MD, JD, DVM, EdD)

For the next questions, the definition of "child, children, or other legal dependents" includes anyone in your family, except your spouse, who has, or is eligible to have, a Uniformed Services Identification and Privilege card (also called a military ID card) or is eligible for military health care benefits, and is enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

- 13. Do you have a child, children, or other legal dependents based on the definition above?
  - X Yes
  - X No

14. [Ask if Q13 = "Yes"] How many children or other legal dependents do you have in each age group? Mark one answer in each row. To indicate none, select "0". To indicate nine or more, select "9".

		0	1	2	3	4	5	6	7	8	9
a.	5 years and younger	0	0	0	0	0	0	0	0	0	0
b.	6 - 13 years old	0	0	0	0	0	0	0	0	0	0
c.	14 - 18 years old	0	0	0	0	0	0	0	0	0	0
d.	19 - 22 years old	0	0	0	0	0	0	0	0	0	0
e.	23 years and older	0	0	0	0	0	0	0	0	0	0

- 15. Are you Spanish/Hispanic/Latino?
  - No, not Spanish/Hispanic/Latino
  - Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/ Hispanic/Latino
- 16. What is your race? Mark one or more races to indicate what race you consider yourself to be.
  - White
  - Black or African American
  - American Indian or Alaska Native
  - Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
  - Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian or Chamorro)
- 17. Where is your permanent duty station (homeport) located?
  - In one of the 50 states, D.C., Puerto Rico, or a U.S. territory or possession
  - Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
  - Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
  - East Asia and Pacific (e.g., Australia, Japan, Korea)
  - North Africa, Near East, or South Asia (e.g., Bahrain, Kuwait, Saudi Arabia, Diego Garcia)
  - Sub-Saharan Africa (e.g., Kenya, South Africa)
  - Western Hemisphere (e.g., Cuba, Honduras, Peru)
  - Other or not sure

[Ask if Q150 = "Yes" OR Q150 = "No"] Which of the following was the most important factor in coming to your opinion regarding whether barracks for single Service members should be privatized? Select one item from the list below.  ☐ Good order and discipline would suffer in privatized barracks.  ☐ Single members should have the same opportunity as married members of the same paygrade to live in privatized housing.  ☐ There would be less mentoring of lower ranking personnel in privatized barracks.  ☐ Privatization would improve barracks quality in terms of privacy, size of living area, amenities, condition, and maintenance.  ☐ Living in barracks operated by the Services, or living in ships is important for military development (e.g., warrior ethos).  ☐ Privatized barracks would provide single members a break from a total military environment at the end of their work day just like their married counterparts.  ☐ Other  ☐ Ask if Q151 = "Other"] Please specify the most important factor in coming to your opinion regarding whether barracks for single Service members should be privatized.
Barracks that are privatized would be owned and operated by a private company to leverage private sector expertise and capital to bring them up to contemporary standards and maintain them properly over the long term. Room assignments and control of the barracks would be the responsibility of the private owner, but the chain of command would determine which individuals would be allowed to live in privatized barracks (others would live in traditional barracks owned and operated by the Service, or on board a ship). A housing allowance paid to the member would fund barracks privatization similar to family housing privatization where the rent equals the housing allowance. A member would not be allowed to receive this housing allowance and move off base.  150. In your opinion, should barracks for single Service members be privatized?  Yes  No  Don't know	152. ## LANGUAGE TRAINING

Pre-deployment Language, Regional and Cultural (LRC) training provides the Service member with the knowledge, skills, and abilities (KSA's) to operate effectively in a foreign country or region. The training is designed to augment one's general LRC capabilities by enhancing them with the specific KSA's of the operating environment. Pre-deployment training includes enablers to strengthen communication and rapport building with people of a different culture; to enhance specific area geographical, historical, and economic knowledge; and to increase one's overall ability to operate in a cross-cultural environment.

165. [Ask if (Q44 b = "1 time" OR "2 times" OR "3 times or more") OR (Q44 c = "1 time" OR "2 times" OR "3 times or more")] Did you receive the following types of language, regional, and cultural (LRC) training prior to deployment?
