(b)(6)

I work with Cameron Morse in DOPSR and wanted to give you a heads up on 4 FOIA requests that we are processing and preparing to return to the OSD/JS FOIA office. The

requests are for any correspondence submitted to and returned from DOPSR concerning the clearance of videos for Mr. Luis Elizondo. I know that Cameron initially said that we wouldn't have records, but after a search, we found 16 pages of responsive records (mostly emails). We are providing them to the FOIA office with the recommendation that USD(I) and Navy review them prior to release.

If you have any questions or need further information about these requests, please let me know.

Thanks!

DOPSR has now received a FOIA request for any paperwork filed by Elizondo to DOPSR. As we discussed, DOPSR has no such paperwork, so we will probably be

returning a "no records found" result to the FOIA office. Just FYSA. If you have any questions please contact myself or Kelly McHale. Thanks!

Mr. Morse,

I am so glad you reached out to us. I was attempting to track down the correct POC to discuss this. I have explained to (b)(6) that a clearance by DOPSR does not equate to permission to release property owned by DOD. It is part of a total process to coordinate release. Do you have the actual form she is referring to that was cleared?

Sincerely,

(b)(6)

DOPSR has received an inquiry from a journalist from Wired Magazine, a (b)(6) (b)(6) please see the email string below. She indicates that she has been working with (b)(6) on her inquiry. We should have just pointed (b)(6) back to (b)(6) in the first instance, so we apologize for muddying the waters here. DOPSR does not have the expertise or authority to interact with the press. Can ATSD/PA take over from this point? We'll be happy to help, but this is outside our realm. Thanks!

Hi Tim,

I wrote a week or so ago about some paperwork/authorization questions, and I have a couple more specific ones, if you have a few minutes and are able to answer them. I'll save the ones that relate to the specific program/videos I'm interested in for (b)(6) in the press office, but if you can answer these general process and interpretation questions, I would very much appreciate it.

1. For DD Form 1910, is there an approval stamp that says "Cleared for open publication / [DATE] / Department of Defense Office of Prepublication and Security Review"?
2. When DD Form 1910 has that stamp, what does that mean in terms of the information's release--can it then appear anywhere, and be posted or published by anyone, and be considered official and authorized?
3. Is there another step in the process, for information to be considered "released," after the information has DOPSR approval via form 1910?
4. In Directive 5230.29, it says that if a document that has been "cleared for public release" that document's information "may be released without restriction by the originating DoD Component or its authorized official." Am I interpreting correctly that the originating Component is the organization within the DoD to whom the files first belonged, and that its authorized agent is someone within that organization? If so, if a document "cleared for release" is made public by someone who has left the DoD but was once an authorized official, is that okay?
5. DOPSR does not deal with documents meant for the media--is that correct? To clear something for media release, one has to deal with a different office?

Thanks very much for your help!

Good Morning,

The Major should be able to supply you with proof of clearance for the videos. That can be either a letter which has a "Cleared" stamp, a DD form 1910 (stamped), or even an email stating it is cleared. Not everything goes through DOPSR; they might have gone through their own PAO for clearance. In either case, they should have the proof of

the videos being cleared. Let me know if I can be of further assistance. Thank you for your time and have a great day.

Hello,

My name is (b)(6) and I'm a journalist and contributor at WIRED magazine. I'm working on a story that involves the claim that certain videos went through DOPSR and were officially approved for release to the public. I was wondering if you could tell me what paperwork would be available to back that claim. I'm just asking about the process/documentation in general--if a source showed me paperwork purporting to prove that a piece of media had gone through your office/procedures and been approved for release, what paperwork would that be?

I've been speaking to (b)(6) in the press office about the specifics of the story I'm working on, so I apologize if this is jumping the chain. She and I should be speaking again shortly, and if this question is more appropriately directed to her, then I apologize, and please just let me know, and I will ask her directly the next time we talk.

Respectfully,

(b)(6)

Sir,

Spoke with the Detachment and our HQ, and at this point we have requested assistance from NCIS in order to determine the appropriate OCA for the video in question as our efforts thus far have been unsuccessful. (b)(6) is going to assist in moving the NCIS request forward so that we can determine if an actual criminal or CI allegation exists. I apologize that we don't have anything more definitive at the moment, but hopefully with NCIS' assistance we can address this in short order.

Garry,

Nothing in this that doesn't track from my understanding. We're doing our one-pager on the program on JWICS and sent an update last night.

The only thing I see that needs checking in this is when Elizondo actually came to work for OUSDI. CoS should be able to give actual year, as it was prior to 2010.

Thanks

Neill
