#89

FY 1976 MILITARY ASSISTANCE TRAINING PROGRAM

Overview

- Planned fiscal year 1976 funding for MAP training for the following countries exceeds the programs funded in 1975:

	FY 1975 MAP Training Level	FY 1976 CRA Funding Through Dec 31, 1975	FY 1976 Training Level
Argentina	$100,000	$325,000	$920,000
Ecuador	400,000	558,000	930,000
Haiti	28,000	76,000	200,000

- The fiscal year 1975 amounts shown above reflect partial year programs, i.e., MAP training for Argentina resumed in May 1975 while the Ecuador and Haiti programs resumed earlier in the fiscal year.

Argentina

- Maintenance training is needed to support the military equipment purchased through military sales since the phase out of the grant materiel program in fiscal year 1968.

- The proposed small military training program is needed for the selected skills required for force modernization and increased military professionalism.

- Funding programmed through December 31 provides both overseas and United States training related to equipment maintenance, communications and electronics gear, supply operations, and general orientation.

Ecuador

- The proposed training program is needed for modernizing the armed forces, developing a cadre of technicians, and enhancing favorable military relations.

- Funding programmed through December 31 provides both overseas and United States training in equipment maintenance, communications and electronics gear, logistics, and other professional and specialized training.

Haiti

- Training is needed to promote a moderate self-defense capability including modernization of naval forces and an expanded sea rescue capability.

- Funding programmed through December 31 provides flying, maintenance, and professional and specialized training in the United States.
