FAST is a information portal / web application which displays the status of WHS facilities from across the Washington DC Area on a dynamic map for WHS and FPPA users including the Pentagon BOCC and the Mark Center POC using status information provided by WHS Building Managers or other trusted agents. Users register and access the FAST web portal via their DoD CAC. Access is role-based and controlled by an Administrator. WHS Building Managers use FAST to create messages regarding facility-related incidents (e.g., a utility outage, a critical repair, a fire alarm, or a safety drill). FAST distributes the messages using DoD email to registered users with a need to know. Registered users also access FAST for information about WHS-supported facilities including facility data (i.e., location and DoD tenant organizations) and contact information (i.e., name, phone number, and email address) for personnel associated with the facility. FAST collects and maintains PII such as names, DoD ID numbers, official duty telephone numbers, after hours/alternate phone numbers, and official work emails.

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

- Work Email Address (Mission-related): FAST sends mission-related messages using Outlook to users based on their user profile.
- Official Duty Telephone / After Hours Telephone (Mission-related): FAST displays contact data to facilitate mission communications.
- Name (Mission-related): FAST displays contact data for use in supporting facility mission support; all registered users provide their name for verification and to establish a user profile.
- DoD ID number (Authentication): FAST Users provide their DoD CAC which establishes their identity with the application. The DoD ID is used to identify them as a registered user during login.
